

COULD NOT SLEEP OR DO HOUSEWORK

The Grippe Left Mrs. Findley in Such a Weak, Nervous Condition That Her Case Was Serious.

Severy, Kans.—"The Grippe left me in a very weak, nervous, run-down condition. I was too weak to do my housework and could not sleep. I tried different medicines without benefit and finally one day read about Vinol, and decided to try it. In a very short time I could see an improvement and after taking two bottles I have a good appetite and my health and strength was restored.

"I think Vinol is a grand medicine and every weak, nervous, run-down man should take it.—Mrs. George Findley, Severy, Kans. Vinol creates strength because it contains all the medicinal tissue-building elements of cod liver oil actually taken from fresh, healthy cods' livers. To this is added peptonate of iron, a most essential element for the blood, all dissolved in a delicious tonic native wine.

MANY CASES OF RHEUMATISM NOW

Says We Must Keep Feet Dry, Avoid Exposure and Eat Less Meat

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water, and above all, take a spoonful of salts occasionally to keep the kidneys in good order.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter the uric acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent, lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.—Advertisement.

POPE ASPIRES WAR TO FOUR CAUSES

States in First Encyclical Letter Conflict Will Subside When Faith Increases Among Men

Pope Benedict XV in his first encyclical letter to America declares that all the disorders and trouble occurring in parts of the world is due to four causes, the want of mutual love among men, contempt for authority, injustice in relations between different classes of society and material welfare made the only object of man's activity.

He also stated that only as faith increases among men will the conflicts that are now going on, subside. In speaking of human fraternity he said it is more spoken of and less practiced in the present day than at any time. "Never was human fraternity so little practiced as it is to-day," writes the Pope. "Race hatred is most bitter. Nations are divided more by rancor than by natural boundaries. In one and the same country and within the walls of the same city different classes of the citizens hate one another; and amongst individuals everything is governed by selfishness as by a supreme law."

"The letter goes on to say that the authority of the pope, who in power is no longer obeyed. "An immoderate spirit of independence, combined with pride, has spread everywhere, invading even the family, whose authority so clearly arises from nature; and, what is more deplorable, it does not even stop at the steps of the sanctuary," continues the letter. "The contempt for laws, the insubordination of the masses, the saucy criticism of the commands of authority, the numerous ways discovered for eluding discipline and the salvation of the individual, profess anarchy and do not hesitate to destroy the lives and properties of others."

"Sad experience shows that where religion has been banished there human authority is despised. In fact, there happens to society what occurred to our first father when he failed in his duty. As in his case scarcely had the will rebelled against God when his passions broke loose and disdained the authority of the will; so when those who rule over the people despise divine authority, the will remains, no doubt, the single expedient of having recourse to violence to put down rebellion; but, of what use is it? The body, but not the mind is repressed by violence."

Dr. Stough Didn't Mean Boosters When He Said Folk Were "Stuck-up". Dr. Henry W. Stough, the evangelist who conducted the seven weeks' campaign in this city and in Altoona at present, declared in a letter to a friend in this city that his criticism of the Harrisburg people was miscon-

strued, and that the people whom he called "stuck-up" were the ones who stayed away from the meetings and knocked the campaign whenever possible. He says that he did not mean the boosters of the campaign and wrote the letter as an explanation of his many Harrisburg friends.
