

**DANDRUFF MAKES HAIR FALL OUT**  
25 cent bottle of "Danderine" keeps hair thick, strong, beautiful  
Girls! Try this! Doubles beauty of your hair in few moments

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes, but really new hair—growing all over the scalp.  
A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.  
Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.—Advertisement.

**SCRUB THE BACON**  
Always scrub a new piece of bacon thoroughly before it is sliced, says the Dallas News. The bacon after the scrubbing should be dried in a pan. The end of a piece of bacon will do perfectly for the baked beans and you need not be obliged to struggle to slice that troublesome end.

**ACID IN STOMACH SOURS THE FOOD**  
Says Excess of Hydrochloric Acid Is Cause of Indigestion  
A well-known authority states that stomach trouble and indigestion is nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gases which inflame the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, have heartburn, flatulence, water-brash, or nausea.  
He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescent, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.  
Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.—Advertisement.

**Practical Prescription Against Stomach Acidity**  
Nine-tenths of all cases of stomach trouble nowadays are caused by too much acid. In the beginning the stomach itself is not diseased, but if this acid condition is allowed to continue the acid is very likely to set into the stomach walls and produce stomach ulcers which may render a radical surgical operation necessary even to prolong life. Therefore, an "acid stomach" is really a dangerous condition and should be treated seriously. It is utterly useless to take pepsin and ordinary stomach tablets. The excess acid in the stomach hyperacidity must be neutralized by the administration of an efficient antacid. The timely purpose the best remedy is bisulphated magnesia taken in teaspoonful doses in a fourth of a glass of water after each meal. Large quantities may be used if necessary as it is absolutely harmless. Be sure to ask your druggist for the bisulphated magnesia as other forms of magnesia make effective mouth washes but they have not the same action on the stomach as the bisulphated.—Advertisement.

**CITY PLANNERS NOT INVITED TO SESSION**

(Continued from First Page.)

attend and present their arguments pro and con on the subject.  
City planners didn't appear. Only the electric company's officials appeared and some of the Councilmen construed the absence of the Planning Commission to mean that the body was not "very aggressive" in disapproving the change of river landing location from Market street to the island.

Mr. Umberger states in his letter that he construed the official communication he received as secretary of the commission, to be a personal one and did not in turn notify the other city planners.

In discussing the proposition to-day Secretary Umberger said that so far as he knows all that the commission will now do will be to pass upon the plans for the proposed construction as provided for by the ordinance. Following is his letter:

The Honorable Members of Council,  
City of Harrisburg, Pa.  
In view of the fact that your Honorable Body passed the ordinance No. 138 without the presence of any member of the City Planning Commission, I feel it incumbent upon me, as a member of our commission, except myself, had notice of your request to be present at this meeting, through a misunderstanding. The notice was mailed by the City Clerk to me, but instead of being delivered to me, it was delivered to my business office on Wednesday morning, the 23rd inst., and owing to a death in my family that morning, I did not see my mail until about Friday or Saturday, and I was obliged to hurriedly through it. I took the notice for a personal one, and notified Mr. Taylor by phone I could not be present. It seems now that the notice was addressed to the Planning Commission and I ought to have notified the other members of the commission. The fault, if any is to be found, and the reason was added to a statement that your Honorable Body was understood and in fact was not understood.

This commission devoted considerable time and study to the ordinance, and disapproved of the same because the members believed it was against the best interests of the city. Their findings and the reasons therefor were sent to you in a communication of the 14th inst., in language so plain that they could not be misunderstood. First, that the language of the ordinance would not eliminate present conditions, but only relieve them. Second, that the ordinance was not the only available one, nor the proper one for the location of the bridge. The grant of the privilege asked for would establish a bad precedent. To these reasons was added a statement that their decision was reached after very careful consideration.

While the members of the commission do not want to be understood as practicing discourtesy to your Honorable Body, yet they feel that all of the facts were before you. They feel injured that the fact of their absence was taken as an indication that their action was not sincere and genuine. Speaking for the other members of the commission, their protest and standing is such that they would not be guilty of toying with so important a question. Speaking for myself, I am of opinion that the River Front is worth more in dollars and cents to Harrisburg than all the coal in the river. With great respect and sincere regret for my personal absence, and under the circumstances I am sure will be excused, I am,  
Respectfully,  
B. F. UMBERGER,  
Secretary.

**Wilson's Ship Purchase Bill Practically Dead**

By Associated Press  
Washington, D. C., Feb. 25.—With only six working days remaining of the present session of Congress, prospects of enacting any other legislation aside from the appropriation bills before adjournment was regarded by Senate Democrats to-day as very slim and they were concentrating practically all their efforts toward the passage of the supply measures.

While reports continue to-day of a revival of attempts to put through the government ship purchase bill in accordance with the wish of President Wilson, administration senators admitted that they have no hope of doing so because of Republican opposition to the measure. Prospects of passing the river and harbor bill in its present form also is anything but bright, and it is expected that a joint resolution will be substituted for it appropriating about \$30,000,000 for continuing existing projects.

**THREE CHINAMEN LOST WHEN HARPALION WAS TORPEDOED**

By Associated Press  
New Haven, via London, Feb. 25, 1:41 A. M.—The British steamer Harpalion from London for Newport News, without cargo, has been torpedoed off Beary Head, in the straits amidships. Three of the crew, Chinamen, were killed. Two others were severely scalded. Forty-one members of the crew were landed here.

**MILITARY UNIFORMS AMONG WRECKAGE ARE SIGHTED**

By Associated Press  
Berlin, Feb. 25, by wireless to London, 12 Noon.—According to dispatches reaching Berlin from ports on the North Sea the Norwegian steamer Orla, when coming through the English Channel recently sighted a quantity of floating wreckage which were to be seen British military uniforms. It was supposed that this military clothing was from some British transport which had been sent to the bottom.

**FIVE BOARDS ABOLISHED**

By Associated Press  
Washington, D. C., Feb. 25.—Five special defense boards are abolished by War Department orders promulgated to-day. The work which these special boards previously had done will hereafter be directed by a general board of review, composed of five to seven officers on detail in Washington, who will from time to time make recommendations regarding the country's defense.
