New Improved Eye Glass Mounting

It is said, "There is nothing new under the sun," but there has been a new eyeglass mounting patented recently which is going to be a great saving in broken lenses and annoyance to the wearer. Heretofore all eyeglasses of the frameless kind had to have a hole drilled for a screw to fasten them in the mounting. The screw was constantly working loose and the least jar or fall from this weakened point, we had a broken lens. This new mounting obviates all this annoyance and expense as there are no holes to weaken the lens nor screw to work loose, making a nicer looking mounting and a saving of dollars to the wearer. If you are interested and want the best in eyeglasses let me show you this mounting and demonstrate its merits. I have the exclusive agency for this section.

SUGGESTS HEAVIER BRIDGE AT 19TH ST.

County Engineer Reports to Commissioners on Question of Viaduct Across P. and R.

While the question of whether or not the county will erect a new bridge across the Philadelphia and Reading tracks at Nineteenth street is not yet under consideration, the county commissioners, together with the County Engineer Clinton M. Hershey, a report on the question of that structure which will be used as a basis for urging the rebuilding of the viaduct when the board takes up that problem.

Engineer Hershey made his report at the request of the commissioners upon the suggestion of City Commissioner Lynch. Mr. Lynch thinks the viaduct needs repairing.

Mr. Hershey to-day stated that aside from some minor repairs he thinks nothing can be done on a defensive scale. The bridge heays was never designed to bear the weight of the great trucks that now use it. Continuing the engineer says: "The lines, the traction company and the 10 and 12-ton trucks passing over this bridge, the combined weight of which overtaxes its capacity. Since the motor cars are ever on the bridge, the capacity and weight and the automobile trucks are becoming more in daily use and have larger capacity, in my judgment, the only safe thing to do is to erect a new bridge designed to carry loads to meet the present and immediate future traffic." The county commissioners to-day took no further action on the report, but will formally take up the question with the traction company.

LOOKS WELL FOR LINDSEY

Denver, Col., Feb. 26.—The friends of Judge Ben B. Lindsey, led by a local newspaper, are making such a strong protest against the Sabin bills in the house of representatives, intended to abolish the juvenile court, that it is now predicted the measures will fail of passage. In both houses there are enough men opposed to Lindsey to insure enactment, but the protest is so strong, it is reported, that it will be abandoned.

WEEHAWKEN IS SAFE

London, Feb. 26.—The British tank steamer Weehawken, concerning which some anxiety was felt because of a lifebuoy bearing the name of the vessel was picked up on the shore at Aglesea, is safe at Barry. The lifebuoy was lost overboard in a storm three weeks ago.

NOW DESTROY YOUR SUPERFLUOUS HAIR

I Will Send Free to All Readers Secret by Which I Destroyed My Own Growth

Marvelous Discovery Banishes Unwanted Hair on Face, Arms, Neck or Elsewhere

I say that you no longer pay out your money for worthless depilatories but that I can rid you of your superfluous hair with a simple home treatment, without electricity, tweezers, or other ineffective and painful devices of the beauty doctor.

Don't shut your eyes and say "Impossible," but put me to the test. You have tried everything you ever heard of, and have spent your good money right and left just as others have. I say well and good; let me prove my claims to you beyond question. Let me send you without charge the complete instructions which resulted in my own cure after many things had failed. I am willing to put my time against yours and to prove that I speak the truth.

So send me your name and address, stating whether Mrs. or Miss and I will send you at once sealed in plain envelope, full particulars of the secret by which I destroyed my own growth and failed. I am willing to put my time against yours and to prove that I speak the truth.

Jenkins, Office 442 B. W. Wentworth Building, Boston, Mass.

FREE COUPON This Certificate entitles any reader of Harrisburg Telegraph to Mrs. Jenkins' "Free Confidential Instructions for the banishment of Superfluous Hair," if sent with 2c stamp for postage. Good for immediate use only. Address: Mrs. Kathryn Jenkins, Office 442 B. W. Wentworth Building, Boston, Mass.

SPECIAL NOTICE. We earnestly advise every lady who wishes to be rid of the disagreeable superfluous hair to accept above offer at once. This remarkable offer is sincere and genuine, the standing of donor being unquestioned.—Adv.

3 SHIPS DAMAGED IN DARDANELLES ATTACK

[Continued from First Page.]

they retired in the direction of the island of Tenos.

"One ship of the Agamemnon type and two other armored vessels were damaged by the fire from forts on the Asiatic side of the straits."

It was announced from London last night that all the forts at the entrance of the Dardanelles had been captured by the combined fleets of Great Britain and France, a naval force which had been estimated at something over 30 vessels.

The English announcement made no mention of losses, either to vessels or in men. It described the operations as successful and said they were continuing.

Key to Constantinople

The Dardanelles are the key to Constantinople, and the effort to force them has been going on since the middle of December. In possession of this waterway which is a strait about 45 miles long and from one to three miles wide between the sea of Marmora and the Mediterranean the warships of the allies would not encounter any serious difficulty in making their way to Constantinople and training their great guns on the Turkish capital.

Turkey always has relied upon the strength of the Dardanelles fortifications for protection from attack by sea; their defenses in the sea of Marmora and around Constantinople have been described as relatively unimportant.

Would Let Wheat Out

It has been declared that with Constantinople in possession of the allies, a vast amount of Russian wheat would come out from the Black Sea and be distributed to ports in France and England. The possession of Constantinople also would have the effect of driving Turkish wheat out of the market, particularly the former German cruisers Goeben and Breslau into the Black Sea where they would be without any port of refuge.

While the efforts to force the Dardanelles have been going on for over sixty days, the immediate operation which, according to British official announcements, has now been successfully begun about a week ago. Aeroplanes are said to have rendered material assistance.

The Dardanelles were forced in 1907 by an English admiral who made his way through the sea of Marmora to Constantinople, but then encountered much more difficulty in getting back through the narrow waterway than he had in going in.

Agamemnon type of British battleship is of 16,500 tons displacement and 435 feet long, with a main battery of four 12-inch guns.

FLOOD WILL CREST ON 17 FOOT STAGE

[Continued from First Page.]

North branch of the Susquehanna river crested at Towanda 17 1/2 feet late yesterday afternoon. This morning the stage at Wilkes-Barre was 23.2 feet and at Danville 18.2 feet, with the river still rising at these points, the prediction for these two points having been 25 and 20 feet, respectively. The West branch of the Susquehanna river was about 17.3 feet at its mouth at 11.30 a. m., the prediction for the maximum, the stage at Harrisburg this morning was 15.8 feet and the river will recede to normal.

On this particular freshet, or high-water stage, the Susquehanna river at Harrisburg will crest before the maximum stage of the North branch reaches Wilkes-Barre, owing to the fact that the West branch and the Juniata flood waters were considerably ahead of the North branch flow.

At a stage above 15 feet the open hearth furnaces at one of the steel companies in the vicinity of Harrisburg are flooded and it is of vital importance to them to know what the maximum stage at this city is to be and how long the water is to remain above the 15-foot stage. The commission was able to give the company definite information and to save shutting down of the furnaces, which would have occasioned considerable financial loss.

HIGH WATER DELAYS FRONT STREET 'FILL'

[Continued from First Page.]

stream is now washing over the top of the wall to the depth of a couple of feet.

The great motor trucks which have been hauling the dirt from the freight site to the north river front for the last couple of weeks have been put into similar service at filling in a portion of the low, one-time swamp land just east of the southern approach of the Dock street bridge which is owned by the McCormick estate. In order to save the roadway leading south on Second street as much as possible City Commissioner W. H. Lynch, superintendent of streets, has placed \$150 worth of stakes on the roadway.

How disastrously construction work

The Prices Are Down to the Lowest Notch

For a Few More Days

The extraordinary price reductions announced last week must be continued for a few more days in order to make a thorough clean-up of the remaining stock before the arrival of the new Spring stock.

Chamber of Commerce Business Lectures Will Probably Be Repeated

Harrisburg's first business Chautauqua, made possible by the Harrisburg Chamber of Commerce, was a big success. Frank Jewell, chairman of the third and final talk to 1,500 persons at Technical high school auditorium last night. Announcement was made to-day by the Chamber of Commerce that Mr. Raymond would return in the Fall for another series of talks.

"Making Sales" was Mr. Raymond's theme. It was a series of practical talks by one who knows "How to Make Business Good in a Store."

The "order taker," the "order maker" and the "order chaser" were discussed in detail. Mr. Raymond explained that the "order taker" is that salesperson who simply wraps up the parcel and hands it to the customer who has already planned what she wanted to buy before she entered the store. The "order maker" was defined as he or she who by a pleasing manner or convincing way interests the "lucky" customer. The "order chaser" is a real customer. The "order chaser" is mentioned as the salesperson who, with little interest in the work, seeks to discourage rather than encourage trade.

As a part of the concluding chapter of the series of talks the speaker answered the questions which had been put in the question period. The answers were regulated to the same number of words as the question. The box was filled with queries.

Harrisburg Magnates Are All Peace Loving and Law Abiding Citizens

Harrisburg folks, having a regular income, are awake to the necessity for filing their papers not later than Monday, March 1. Deputy Revenue Collector William S. Bricker, whose offices are in the Federal building, stated to-day that there has been a big rush for income blanks during the last week.

There is a penalty of 50 per cent. of the tax for persons who fail to send in the required information by Monday. A fixed penalty, varying from \$20 to \$1,000 is also mentioned in the income tax law. The local collector cannot state positively how many local people come under the income tax.

He has given out several thousand blanks, and many persons in this district have also received blanks from the main office at Lancaster. According to Mr. Bricker they were a little slow in getting after blanks, but it is the belief that there will not be many fines imposed on Harrisburg people.

Great Britain Needs \$185,000,000 to Meet Outlay Up to March 31

London, Feb. 26, 1.15 p. m.—Supplementary governmental estimates were issued this morning covering the amounts which will be required to defray the expenses of naval and military operations, to cover the cost of assisting with the food supply and in promoting a continuance of trade, etc., as well as other expenditures arising from the existing state of war.

An additional sum of \$185,000,000 will be necessary to meet the outlay up to the end of the financial year closing with the 31st of March, 1915. This makes with the original vote credit and the previous supplementary vote a grand aggregate of \$1,810,000,000 for the current year.

Another vote credit of \$1,250,000,000 is asked for as an instalment for similar expenses which may be incurred during the year ending March 31, 1915.

SOCIALISTS APPROVE FOOD MEASURE

By Associated Press
Berlin, via London, Feb. 26, 10.45 A. M.—Approval of measures taken by the government to conserve the food supply was expressed at twenty-four Socialist mass meetings held last night in Greater Berlin.

REPULSE SUPERIOR FORCE

By Associated Press
Paris, Feb. 26, 1.10 A. M.—A Montenegrin column operating in Bosnia was attacked Wednesday by a superior Austrian force, says a Cetinje dispatch to the Havas agency. After a violent action on the banks of the Drina which lasted several hours the Austrians are reported to have been repulsed with considerable losses.

Schwab Buys Land Near Quakertown For Plant

By Associated Press
Quakertown, Pa., Feb. 26.—The rumor that Charles M. Schwab is acquiring land here in great quantity, probably for the establishing of some plant, found some foundation in fact when it became known to-day that the steel man had purchased from Charles Re-

CALOMEL SALIVATES

Calomel makes you sick and you lose a day's work. Calomel is a nasty, dangerous chemical. To loosen your sluggish liver and bowels when constipated, headachy, bilious, just get a 10-cent box of harmless Cascarets. They work while you sleep, don't gripe, sicken or salivate.—Advertisement.

denhauser 125 acres of land for \$5,000 and from Samuel Bergstresser 90 acres of land for \$4,000.

The land purchased lies along the North Penn railroad, is ideal for industrial purposes and close to splendid railroad facilities, giving a fine outlet to tidewater at Philadelphia and only sixteen miles from the main plant of the Bethlehem Steel Company at Bethlehem.

It is a well-known fact that Mr. Schwab has purchased almost all the available land around his Bethlehem plant for extension purposes and in pursuing his policy of expansion has found it necessary to look for industrial site land near by.

Quakertown is brought so near to Bethlehem by rail, some sixteen miles, that the distance is not regarded as any kind of an obstacle in the way of communication should a branch plant of some kind be located here.

Florida Orange Juice is the All-Day-Long Health Drink

Florida oranges bloom, develop and ripen under just the right conditions. They are charged with condensed sunshine, made liquid by summer showers and flavored by gentle Gulf breezes as sweet as those of Cathay. Each Florida orange is a storage battery of health and joy—the abundant juice has been gradually sweetened and is richly flavored yet contains enough citric acid to make it pleasant to the taste. Florida oranges make a most palatable and refreshing beverage, which every member of the family will enjoy all through the day and at all seasons of the year.

Florida Grapefruit—Food and Tonic

Grapefruit grown in Florida contains a maximum of juice. Its contents have both food and drink value. The taste and flavor are unsurpassed. The tonic qualities cause Florida grapefruit to be highly recommended by physicians. Athletes eat them freely when training. Only tree-ripened oranges and grapefruit are good. When picked before ripe, the fruit is not edible—lacks in juice and sweetness.

CITRUS EXCHANGE

Is a non-profit making, co-operative organization of growers for the mutual benefit and protection of the producers and consumers of citrus fruits. The membership only tree-ripened fruit and its mark on box and wrapper is a guarantee of quality. Most retail fruit dealers sell Florida Citrus Exchange fruit in season. Yours will if you insist.

Booklet telling scores of ways to serve oranges and grapefruit and containing many recipes for the use of these fruits in conbary and confections mailed for four cents in stamps. Florida Citrus Exchange, 625 Citrus Bank Bldg., Tampa, Fla.
