

MAN KILLS SELF AFTER HE SHOOTS WOMAN IN CHEEK

"WHIP" KEYS, TAXI DRIVER, ATTEMPTS MURDER, BUT FAILS

Thinking He Had Slain Victim, Puts Bullet Into His Brain; Both Married; Quarrel Over Alleged "Throw-down"

GREAT CROWDS GATHER AT SCENE OF SHOOTING

Mrs. Hosie Expected to Recover From Flesh Wound; Unable to Talk; Two Shots Fired at Her; Falls Near Her Babyhood Home

Stephenson W. Keys, 38 years old, married, a former taxicab driver, of 117 James street, this morning killed himself with a 38-caliber revolver after an unsuccessful attempt to murder Mrs. Nora Hosie, aged 24, of 1624 North Sixth street, the wife of J. H. Hosie, a clerk.

The shooting occurred near Wyeth and Basin streets about 9.30 o'clock.

According to Coroner Jacob Eckinger and the city police, the shooting was the outgrowth of a quarrel resulting from an alleged "throw-down" of Keys by Mrs. Hosie. According to the police, Keys and Mrs. Hosie were intimate at intervals throughout the last year or two.

Only one person saw the shooting. It was a woman—Miss Carrie Reed, forewoman at the Harrisburg Leather Products Company plant, in Wyeth street. Miss Reed ran to the window of the factory after the first shot was fired and saw Keys place the revolver to his temple, pull the trigger and drop dead in the street. The Hosie woman was lying screaming a few feet away from her assailant.

The shots were heard by scores in the immediate neighborhood. Within a few minutes hundreds of people crowded into the street around the dead man and the injured woman. It was only after threats of arrest that the coroner and the police were able to force a way through the crowd to the side of the woman.

Mrs. Hosie was rushed to the Harrisburg Hospital, where it was found she was suffering from a bullet wound in the cheek. She is expected to recover, although her condition is rather serious this afternoon.

It is believed that the bullet which struck Mrs. Hosie passed through her cheek, although the physicians have not yet made a thorough probe of her wound.

Following the administering of restoratives, Mrs. Hosie wrote the name of Keys and his residence on a piece of paper, being unable to talk. She then wrote the name of the police station to a nearby porch, and asked her why the man had shot her. She replied, "I don't know," and then fell unconscious.

The woman left her home about 9 o'clock, and according to information given Coroner Jacob Eckinger, walked down either Hamilton or Harris streets to Fulton. Keys and the woman were seen in Fulton street a short time before the shooting; later residents at the corner of Rely and Wyeth streets said they saw the man and woman walking arm in arm down Wyeth street. There was no evidence of a quarrel.

On hearing the shots fired there was a great rush from the houses in the immediate neighborhood. A woman who stood near identified Mrs. Hosie. On the arrival of Coroner Eckinger, Keys' body was sent to the undertaking establishment of Rudolph K. Spicer

HOW CROWDS GATHERED AT SCENE OF SUICIDE AND ATTEMPTED MURDER

Hundreds of people gathered near Basin and Wyeth streets this morning shortly after 9 o'clock, following a shooting which resulted in the suicide of "Whip" Keys, a chauffeur of 117 James street, and the attempted murder of Mrs. J. H. Hosie, of 1624 North Sixth street. Keys shot Mrs. Hosie through the cheek following a quarrel and then put a bullet into his own brain.

GOVERNOR CERTAIN OF VICTORY IN HIS LOCAL OPTION FIGHT

Legislators Being Told Bluntly by Home Folks to Back Brumbaugh in His Fight

TIDE IS RISING HIGH

Many Eager For Billy Sunday, but Some Think His Visit Will Be Unnecessary

Governor Brumbaugh to-day reiterated his belief that local option will pass. He has been hard at work on it and has been getting letters and telegrams and resolutions by the ream endorsing his stand and the members of the Legislature are hearing from the home folks in no uncertain terms. Men are being bluntly told by their constituents to line up with the Governor on this highest state-wide issue and the men who claim to be pledged the other way are being asked by home folks to whom they gave pledges and why.

The Governor said to-day, as he did on Monday, that the tide for local option is rising and added, "I certainly expect the bill to pass. I said so last night and I say so again. I have every reason to feel encouraged over the result."

Leaders of local option in the House are gratified at the prospects in the lower chamber and the liquor lobby is showing signs of acute distress. The suggestion for a commission to make a study of the whole business is not finding favor any more than the compensation for license holders scheme.

Eager for Sunday Many members are eager for "Billy" Sunday to come here for a local option talk, but some of the leaders say it will not be necessary. The Governor has things lined up now and is getting stronger every hour.

The bill is going to stay in committee until the Governor is ready to have it come up. Senator Edwin H. Vares made this significant declaration in support of the Governor's policy last evening: "I shall give my support to the Governor in his plan to have the local option bill held in committee for the present. In case any effort is made in the House to force early consideration of the bill in defiance of his wishes, I shall expect my friend of the Vares in the chamber to stand in opposition. I have not the slightest idea, however, that any move of this kind will be made."

Speaker Charles A. Ambler said: "The bill will remain in the committee on law and order so long as the Governor desires. There is no need for hurried consideration of the measure, and the Governor will be given full opportunity for the free discussion of the measure by the citizens of the State. No effort to touch the local option bill, but it is probable that a meeting may be held shortly. I know nothing whatever of any movement to invite Mr. Sunday to address the Legislature."

ELUSIVE GERMAN SEA ROVER SLIPS QUIETLY INTO AMERICAN PORT

Prinz Eitel Friedrich Believed to Have Been Cornered by British Cruisers

OFFICERS AND CREW SILENT

Vessel Is Reported to Be Carrying 300 Prisoners, Taken From Prizes

Newport News, Va., March 10.—The German auxiliary cruiser Prinz Eitel Friedrich, another of the elusive German sea rovers, which have been destroying commerce of the allies on the seven seas, slipped into port here early to-day, presumably eluding the British and French cruisers along the coast, in need of repairs, coal and provisions for her crew and with more than 300 prisoners, taken from prizes.

Last night after dark the German ship appeared off Cape Henry, but did not enter until after daylight when she passed quarantine and dropped her anchor at this port. All her officers preserved the strictest silence and her captain at once dispatched a message telling of his arrival and the condition of his ship to the German embassy at Washington.

No sooner had the Prinz Eitel anchored than the United States coast guard ship Onondaga went alongside to take up her watch to preserve the neutrality of the United States, until officials at Washington decide what shall be done.

Scared by the red rust and salt of her months at sea, the German auxiliary was painted white on one side and black on the other. It was reported in maritime circles that the Eitel Friedrich had been chased to the three-mile limit by a British cruiser, but as the German captain had sealed the lips of his officers, it was not confirmed.

Marine circles were startled when the long ship, easily distinguishable by the lines of a North German Lloyd liner, steamed up the bay and into Hampton Roads. She came into the roads and without any attempt at deception passed quarantine and then came on to this port where she anchored.

PROTEST DACIA SEIZURE

Paris, March 10, 10.10 A. M.—E. N. Breitung, of New York, owner of the steamer Dacia, has entered a protest against the seizure of his vessel by the French maritime authorities.

NO LIQUOR CONTRIBUTIONS

Harrisburg—Governor Brumbaugh said this afternoon that he had gone over carefully every election expense account filed by members of the Legislature and had failed to find in any of them mention of money contributed for election purposes by a representative of the liquor interests.

Further, he said that he had been unable to find any accounting of money spent by any individual or organization or individual representing liquor interests for election purposes.

That being the case, he concluded that none had been spent in that way and that, therefore, he could not see why members of the Legislature could consistently decline to vote for the local option bill on the ground that they had received assistance from the liquor people. The Governor also expressed himself in favor of devoting the anthracite coal tax to road purposes providing the law now being tested is declared constitutional.

Harrisburg—Mrs. Emma Miller, aged 36, of Pillow, committed suicide at her home this morning by cutting her throat with a butcher knife. Despondency is said to be the cause.

Harrisburg — Mrs. Keys, whose husband committed suicide this morning, cannot be located. After the shooting, neighbors say she left the house, later returned and then left again.

Washington, March 10.—The Mexican Red Cross to-day appealed to the American Red Cross through Secretary Bryan for food for the starving populace in Mexico City. The appeal said the famine in the Mexican capital was rapidly growing worse. Secretary Bryan said the State Department would co-operate with the Red Cross as far as possible.

Newport News, Va., March 10.—The captain of the American sailing ship William P. Frye and wife are on board the Prinz Eitel Friedrich. The Frye, commanded by Captain Kizine sailed from Seattle, November 6, for Queenstown and has not been reported since she passed Tatoosh, Washington, the following day. While details are lacking it is said the Frye, which carried grain, was one of the ships sent to the bottom by the Prinz Eitel Friedrich.

GERMAN SUBMARINE SENT TO BOTTOM BY BRITISH WARSHIP

Vessel, Known as U-20, Was Built in 1913 and Was of Latest Type

ITALIAN FLEET NOW AT SEA

Bombardment of Dardanelles Again Interrupted Because of Weather Conditions

Another of the German submarines which have been seeking to enforce Germany's naval war zone decrees has gone to the bottom. The British admiralty announced to-day that the U-20, built in 1913, had been destroyed.

The German auxiliary cruiser Prinz Eitel Friedrich, which has succeeded in evading for months a large number of British warships, reached Newport News, Va., to-day and may be interned there.

Bombardment of the Dardanelles, which was again interrupted by unfavorable weather conditions, is reported unofficially to have been resumed, and the allied fleet to have made further progress in the narrows. Berlin and Constantinople, however, persist in statements that no serious damage has been inflicted except to the weaker fortifications at the entrance of the straits.

ITALIANS AT SEA

A dispatch from Geneva gives a Vienna report that Italian warships have put to sea, and probably are on their way to the Dardanelles. This report lacks substantiation.

Germany has taken further measures to conserve food supplies. The Bundesrath has ordered the exportation, with certain exceptions, of all stocks of barley exceeding a metric ton.
