## STANDARD LIGHTS IN COLUMBIA STREETS

### More Light Association Plans to Subscribe \$1,500 to Pay For Improvement

Special to The Telegraph  
Columbia, Pa., May 18.—This borough will have standard electric lights in the main business thoroughfare for a distance of a half-mile if the plans proposed by the More Light Association are carried out. The cost will be \$1,500, which sum will be raised by voluntary subscriptions. There will be sixty-four standards in all, twenty in each of four blocks and two at each end. The work of construction will start at once and the suggestion has been made that the inauguration of the system be marked by a grand demonstration on Hal-lowe'en night, and that it be held annually thereafter at that time to perpetuate the anniversary of the improvement. The lights, which are over part of the route of the Lincoln Highway, will burn from dusk until 11 o'clock every night.

## Cabinet Crisis May Be Near in England

London, May 18, 1.52 P. M.—What seems like a cabinet crisis suddenly has sprung on Great Britain. There has arisen what appears to be a rift between the civil head of the admiralty, Winston Spencer Churchill, and the lords of the admiralty, but particularly Lord Fisher, admiral of the fleet. As a result the possibility of material changes in the cabinet is being discussed. For the moment the situation holds the political field. All kinds of rumors are current, but the ministers are not letting the real facts out of the government offices; they are being held secret in Downing street.

## OLD HOTEL OPENS UP ONCE AGAIN

### Resplendent in New Furniture, United States Becomes the Metropolitan Annex

Resplendent in new carpets, furniture and fixtures and renovated throughout, the old United States Hotel at 512 Market street, was opened as the Metropolitan annex last Monday under the management of Harry E. Von Hoff. For three months gangs of workmen have been tearing out and removing all the old equipment of the United States, the woodwork was scrubbed, scoured and painted. Even the paper was scraped from the walls. The improvements cost in the neighborhood of \$12,000.

The new hotel will go a big way toward filling a want, long felt by Harrisburg—clean, pleasant rooms at moderate prices. The building which is three stories in height contains seventy-one rooms. About half of them contain single beds and in the remainder double and twin beds have been installed. Each room has running hot and cold water, electric light and a telephone.

Has Every Convenience  
A feature being advertised by the management is the fact that each room faces the outside world. There are no air shafts, arcways or courts. Spacious halls and stairs covered with soft, deep carpets lead to all parts of the building. No plans have been spared to insure the comfort of guests. On each floor is a large lounging room, furnished in mission. These rooms each contain a piano, desks and are supplied with stationary and writing facilities.

On the first floor has been installed one of the most spacious lobbies in the city. Rows of mission rockers are lined before the windows while palms and plants are grouped at advantageous places. Mr. Von Hoff is making efforts to secure possession of the city to convert the triangular section of the street between the hotel and the subway into a flower garden. Other features designed to add to the esthetic pleasure of the guests are being planned.

Will Have Billiard Parlor  
Within a few weeks a large lunch restaurant will be opened in connection with the hotel in the two story rooms at the eastern end of the building facing Market street. It will be run on the same high plane of the hotel.

Workmen are now engaged in tearing out all the partitions on the lower floor around the office. Later, it is proposed to fit out one of the largest billiard parlors in the city. The room will have two entrances in Market street, one near Cowden street and the other where the unused barroom is now located. The parlor will extend around the entire building.

Harry E. Von Hoff, who is managing the new hotel was formerly in charge of the cloak and suit department at Astor's. Associated with him in the enterprise is L. W. Kay, of the Metropolitan Hotel. All the rooms in the hotel have been filled during this week. A majority of the guests were delegates in attendance at the Labor Convention but many transient guests were accommodated. The hotel will be run on an absolute temperance basis.

## Harrisburg Academy to Conduct Boys' Camp

Plans for a summer camp for boys to be conducted under the supervision of professors of the Harrisburg Academy, were announced to-day at the school.

The camp will be placed on a shore island, twenty-five miles north of the city, near Montgomery's Ferry. The island contains about five and one-half acres. A five-room cottage provides dining facilities, and rooms for games in stormy weather. The boys will sleep in tents during the camp season, which opens June 14 and closes July 15. Boys ranging in age from ten years up will be permitted to the camp, which is open alike to students at the Harrisburg Academy and to others who wish to enjoy a month of camping.

Each day fishing, swimming, boating and tramping in the mountains will be included in the schedule of camp work. The idea is the result of an attempt to solve the summer vacation problem for lads hereabouts. The outing will be under the management of Professor Raymond D. Kennedy, of the Harrisburg Academy.

## U. S. Should Refuse to Represent Germany, Is Opinion of Russ Press

Petrograd, May 16, 1 P. M., via London, May 18 (delayed in transmission).—That the United States should refuse further to represent Germany in diplomatic dealings with her adversaries because of the Lusitania tragedy is the editorial opinion expressed by the *Outro Rossie*, of Moscow, a daily paper widely read by businessmen and bankers. It is pointed out that while hundreds of the Lusitania's passengers, including many Americans, were lying in state at the bottom of the Irish Sea, United States diplomatic representatives were investigating the condition of German prisoners in Russia. The paper closes its editorial by saying: "Elemental sentiment, which is part of international relations, demands an immediate refusal by the government of the United States further to represent Germany before European countries warring with her. Friendly services hardly are suitable for the United States to give in face of the cry ascending to heaven for the victims of the Lusitania."

Brandeis and Samuel Untermyer, representing the officials, will next argue in support of the motion to dismiss, and ex-Senator Bailey will then conclude the argument for the bank opposing the motion. During Mr. Hogan's argument Justice McCoy stated that he did not see in the case as presented any evidence of a conspiracy by McAdoo and Williams against the bank.

Errors of living, among which coffee-drinking is one of the most common, has stirred the New York Health Department to prepare a booklet of suggestions for indoor workers, and among other wise bits of advice this booklet says:

"Bracers are harmful. This applies to the use of tea, coffee and alcoholic beverages." Sound advice!

All over America, for years, coffee drinkers, indoor and out, prompted by their own feelings and enlightened by science, have gotten rid of coffee troubles by changing to

# POSTUM
