W.C.T.U. Presents Portrait of Frances E. Willard

Interesting exercises were held yesterday afternoon in the room of Miss Maud Kennedy, Cameron school building, when the eleventh district of the Harrisburg Women's Christian Temperance Union presented a framed portrait of Frances E. Willard to the school.

The room was attractively decorated, and Mrs. Irwin, assistant captain of the district, presided, in the absence of Mrs. Sigman.

The program included a song by the school, a piano solo by Miss Genevieve Coleman, reading by Mrs. Violet Hoilar Bolan and a vocal selection by Mrs. Gus M. Steinmetz. Mrs. John DeGray in the presentation speech, gave a resume of the life of Miss Willard and its value to school girls and boys along moral and educational lines. The portrait was received by one of the students, Miss Frances Willard Grove in a sweet and gracious manner.

The principal of the school, G. Herman Goetz spoke of the value of temperance work from a hygienic standpoint and the exercises closed with all singing "America."

When You Wash Your Hair Don't Use Soap

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just common mulsified coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats soaps or anything else all to pieces.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, lustrous, fluffy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

You can get mulsified coconut oil (it must be mulsified, plain coconut oil will not do) at any pharmacy, and a few ounces will supply every one in the family for months.

Operation Not Needed

Mrs. W. A. Barnes, who lives in Ballard, Calif., has sent to the Pinus Laboratories a very strong endorsement of Fruitola and Traxo. In her letter, Mrs. Barnes says:

"Doctors say gall-stones cannot be cured without an operation, costing much money as well as unnecessary suffering. I am cured, I know, and this is proof positive, and my friends know that such is the case."

Fruitola is a powerful lubricant for the intestinal organs, softening the hardened particles that cause so much suffering and expelling the congested waste in an easy, natural manner. A single dose is usually sufficient to clearly indicate its efficiency. Traxo is a splendid tonic after-ative that acts on the liver and kidneys, stimulates the flow of gastric juices to aid digestion, and removes bile from the general circulation. Traxo should be taken three or four times a day following a dose of Fruitola to strengthen and restore the weakened, run-down system.

For the convenience of the public, arrangements have been made to supply Fruitola and Traxo through leading drug stores. In Harrisburg they can be obtained at Gorgas, the Druggist, 14 North Third street, P. R. R. Station.
