SHAD RUN LIGHT IN STATE'S STREAMS

Commissioner Buller Makes Statement Regarding Conditions and Blames Pollution

COMMISSIONERS AT WORK

Public Service Board Considers Contracts; News of the State Government Offices

Officials of the State Department of Fisheries say that the pollution of the Delaware and other streams of the State has been the cause of the light run of shad this season. Investigations have shown that the number of shad in the Delaware has been small this year and that the cold weather has not been the sole cause.

The department is making efforts to collect all the shad eggs possible at the Torresdale hatchery, but thus far not many have been secured and the capacity of the hatchery has not been reached.

An agreement has been reached by Commissioners N. R. Buller, of Pennsylvania, and Ernest Napier, of New Jersey, for co-operation and they will issue joint permits to collect eggs for the State hatcheries, but only those who have aided and give assurance of help will be given the permits.

Can Order Exams.—An opinion has been given to Dr. Nathan C. Schaeffer, State superintendent of public instruction, by Attorney General Brown that school authorities have the right to require teachers to pass a written reading and to take examinations. This question came up in some correspondence with officials in northeastern Pennsylvania and Mr. Brown holds that authority is granted by the school code. The tests must be reasonable and appropriate to the character of the teaching required. The attorney general says that sufficient time should be allowed for preparation and such examination "should be conducted with absolute fairness and impartiality, and in writing, the questions should be plainly and easily understood and the teachers should be known by numbers and not by names."

Mr. Brown suggests that in case of dispute the course of reading should be submitted to the superintendent of public instruction.

ACNE BROKE OUT ON NECK AND JAW

Big Pimples Came. Itched Nearly All Time. Could Not Go Anywhere. Face Awful Looking. Used Cuticura Soap and Ointment. In Six Months Face Well.

Clarks Green, Pa.—"About two years ago acne broke out on my neck and jaw bones. Great big pimples would come and they would look awfully. They would itch nearly all the time. I had to scratch them. Sometimes I could not go anywhere for my face would be sore and awful looking.

"I was given some salve and told to get green soap and use it. I did that for a while and it went away but came back just as bad. Last spring I thought I would try Cuticura Soap and Ointment. My face stopped itching and in three weeks it began to clear up. I would wash my face with just as hot water as I could stand and use the Cuticura Soap, and I applied the Cuticura Ointment every afternoon and evening before going to bed. In six months my face was entirely well." (Signed) Mrs. Earl White, June 19, 1914.

Besides soothing and healing skin troubles Cuticura Soap and Cuticura Ointment are superior toilet preparations.
