Ostrander Bill Changes the Regulations For Registration and Reduces the Fees

Governor Brumbaugh has approved the Ostrander bill, codifying the regulations for registration of births and deaths and placing the business solely in the control of the Commissioner of Health. The bill repeals all other acts and states specifically that no system except that provided by the bill shall be enforced. Reductions of fees are also provided. This bill will clear away any misunderstanding or questions such as occurred in Philadelphia last year.

The Governor also announced approval of the bill presented by Senator Charles A. Snyder to complete the State's supervision of employment agencies. A few days ago a bill was approved to establish a state bureau and the bill announced as approved gives the State supervision over all private agencies and requires a state license.

Other bills announced as approved include: Senate bill regulating the plotting by first class cities of parks and parkways in built-up sections. When any parkway or park has been put on the city plan it is to be considered an appropriation at the end of three years. Certain allowances are given for five years to those desiring to make alterations to buildings under direction of the city.

Senate bill regulating notices for application for second class charters. Senate bill authorizing erection of garages fronting on highways ten or more feet in width in first class cities.
