HORSE THIEVES ARE CAUGHT WITH TEAM

Two Men Go to Sleep in Woods With Outfit Stolen at Frederick, Md.

Waynesboro, Pa., June 14.—Chief of Police S. W. Staley landed a couple of horse thieves on Saturday morning. Early that morning Chief Staley received a telephone call from a resident near Waynesboro telling him of a suspicious team being hid in the woods above Waynesboro. Upon leaving the telephone he got Constable W. E. Brezler and had him deputize Patrol-

man A. E. Rentzel. The automobile of Dr. Heffner was procured and the two officers left at once for Waynesboro. When they entered the woods they saw the team concealed in a thicket and two men asleep on the ground near by. The men were put under arrest and brought to town. The team, a fine bay horse and a runabout, was also brought to town. When the party arrived in Waynesboro the two prisoners were taken to police headquarters, where one of them was recognized as Dudley Miller, a former resident of this place. The other gave his name as J. J. Pittinger.

Chief of Police Staley learning that Miller was from Frederick, consulted police headquarters in that city, and a few minutes later word came that a team had been stolen about midnight from Mrs. Alice Koontz, of that city. Upon learning the description of the team Chief Staley sent word back that he had the team in his possession and two men under arrest.

NATURE, in giving tobacco "body" and cheering properties, has made it stronger than most other plants.

Nature alone—by patient ageing—can remove this extra strength or harshness, commonly known as "bite."

That's why you can't take the bite out of tobacco by "processing," without taking out some of the tobacco quality too.

So, after we have selected our pick of the Burley tobacco crop from the rich limestone section of Kentucky we place it in thousands of wooden casks.

These casks are dated and sealed and are not opened under two years. This natural ageing accounts for the distinctive smoothness and mildness of VELVET.

These are plain facts.

Eczema? A Torture Quickly Banished

Remarkable Results Follow the Action of a Famous Remedy.

The action of S. S. S., the famous blood remedy, is a wave of health from the stomach to every other part of the body. Any skin disease, no matter what its name, be it eczema, psoriasis, acne, lupus, or just plain boils, pimples, or a stubborn abrasion, must give way to the influence of S. S. S. Why so? Simply because there is in S. S. S. certain medicinal influences just as essential to blood health as are the elements of the grains, meats, fats and sugars of our daily food. Get a bottle today of any drug-gist and then write to the Medical Adviser, The Swift Specific Co., 111 Swift Bldg., Atlanta, Ga. He will tell you about skin affliction, such as you never before realized. He will clear up the mystery of why certain diseases of the blood make straight for the skin. He will also clear up your doubts as to the nature, cause and proper care of your-self in any form of blood trouble. His advice is perfectly free. There is scarcely a community in the U. S. but where you will find someone to enthusiastically tell you how they are now cured but at one time were sufferers from rheumatism, or catarrh, or some severe form of skin or blood trouble. Get a bottle of S. S. S. today, but refuse any and all substitutes.

DO YOU FEEL DEPRESSED?

The form of influenza commonly called "the grip" is not a respecter of persons. Rich and poor alike suffer from it.

The duration of the acute stage of the grip is short, a few days at most. What makes the grip so dreaded is the miserable condition in which it leaves its victims after the cold and fever have restored the weakened body. Some medical writers refer to this "after-effect" of the grip as a form of neurasthenia.

Depression of spirits, headache, tired blood, deranged digestion, over-sensitive nerves—these are the usual after-effects of the grip, and they will continue even for months and years until the blood is built up and made rich and red.

After an attack of the grip all the vital powers of the body are at a low ebb. Building up the blood with Dr. Williams' Pink Pills is the surest way to restore the weakened body. They have a special action on the nerves and every sufferer from the lingering effects of the grip should give them a trial. Your own druggist sells them.

Write to-day to the Dr. Williams Medicine Co., Schenectady, N. Y., for the free book, "Building Up the Blood." If you have stomach trouble ask for a diet book also.—Advertisement.
