CHURCH ADVERTISING

IN Chicago on Sunday the pulpits of thirty churches were occupied during some period of the day by an advertising man of national reputation who spoke on church advertising. The talks were a part of the program of the convention of the Associated Advertising Clubs of the World.

Church advertising is one of the big things in the religious world of the future. Wherever it has been tried it has been pronounced a success. The Telegraph is proud to have been one of three newspapers in the United States that were pioneers in this field.

Many a lover who calls his sweetheart "honey" later finds he has been stung in getting her.

GERMANY AND LUXEMBURG

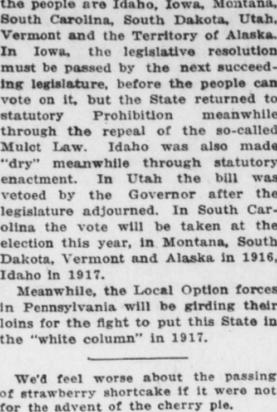

GERMANY has assured the world, with mock solemnity and pretended sorrow, that had the Belgians only permitted, they would have gone through Belgium without raising a hand against soldier or civilian.

Had we suspected the treaty-breaking intentions of the Prussians, we should have rushed to arms. If we had had forty-eight hours' notice, we should have put at least 25,000 men on our eastern frontier.

TEMPERANCE GAINS
IT is not likely that the offer of a wealthy citizen of West Virginia to assume liability for the payment of the State debt of more than \$12,000,000 in ten years if he is given a monopoly on the sale of liquor in that Commonwealth will be taken seriously.

MATRIMONY AFTER THE WAR

WHEN the war is over, a great problem is facing the men and women of England, and that is the matrimonial one.

The women of England are passing through a great transition period. The old order of things is being swept away and a new one is taking its place.

Lady Troubridge, a prominent figure in London society and well-known novelist, can only see one solution of the riddle, and that lies in the stand which the women of England must take.

"Work is the panacea for every evil under the sun, and whatever women may lose of life's deepest joys and sorrows, no woman who is economically independent or earning her own living honestly need be unhappy.

"When death has to be faced, a man knows why he really cares for. There is an end to nonsense and self-deception. As in a great picture

That Harrisburg playgrounds have attracted much attention from officials of other Pennsylvania cities?

A VEIL-WEARING ARMY
The patriotic activity of the women of South Africa (I hear from a correspondent) takes the form of making veils for the soldiers of Boer's army.

TRUTH IN ADVERTISING

Out in Chicago they're meeting—Ten thousand men who believe honesty stands above all things, and that 'tis wrong to deceive. Truth is the thing that they stand for Down to the very last man, and upon fake advertising Swiftly they're putting the ban.

BOSTON'S NEW FIELD OF RICHES

[From the New York World.]
New England's reputation of being able to see 10 per cent. off from any other section of the country has, therefore, Boston reports that investors thereabouts are beginning to buy stock in Atlantic tin-mining yards. R. MAY, however, other Americans to conclude that the war is forcing upon us an unparalleled opportunity to get back into the ocean-carrying trade.

TELEGRAPH PERISCOPE

—Since it had to be war with somebody, we are thankful that it is with the Yaqui Indians.

—"War is an international nuisance," says Mr. Bryan. True! However, mentioning no names, we pause long enough to remark that there are others.

—The Sunday school superintendent who can pick a clear day for the annual picnic is an officer worthy of his job.

—"Ice cream freezers so cheap anybody can buy one," says an advertisement. Yes, but the purchase price is the cheapest thing about an ice cream freezer.

—Times change. People used to boast if they owned a parlor organ. Now they're named if they do not have an automobile.

—Slang advice to young men—If she can't can, "can" her.

—It has been some time since we heard Connie Mack referred to as the "Wizard of Shibe Park."

EDITORIAL COMMENT

NEEDED KIND OF MILITARISM
[Pittsburgh Dispatch.]
The steel army Europe needs most now is the Salvation Army.

PLAUSIBLE EXPLANATION
[Atlanta Journal.]
Doctors say that worry kills more people than work—probably because more people worry than work.

PRACTICE WHAT WE PREACH
[Pittsburgh Post.]
After what Americans have been saying about the carnage in Europe, it is up to them to hold a sane Fourth this year.

BIRDS AS SENTRIES

Birds have become useful in Europe as sentries to warn men of the approach of the enemy before the hostiles are perceptible to the human eye. The birds are acutely sensitive to the presence of aircraft, and therefore they have stationed a number of these birds on the top of the Eiffel Tower in Paris in order to warn the sentries of the approach of German taubes.

The service is not restricted to caged birds, however, or even to those of the land. At sea, the gulls are almost as great service, as they are quick to betray the presence of a submarine which rises to the surface.

STRAIGHT AMERICAN

[From the New York Sun.]
On June 11, the day of the publication of the note to Germany which had been made the pretext of the ignominious Skeddadle of the Chauvinistic Secretary of State, appeared this patriotic American utterance of Samuel Gompers, president of the American Federation of Labor.

"The influence of the American Federation of Labor, the workers of the country, will be exerted for the maintenance of peace, and yet we cannot permit to be challenged the insistency that the lives of Americans shall not be unnecessarily and unwarrantably jeopardized."

On June 20, the day after the horribly-prepared and extended ultimatum, the ignominious Skeddadle to a local coterie of alien sympathizers and neutral foreigners, appeared a letter of Mr. Gompers in which he reiterated the broad American patriotism of his great organization, lovers of peace, but resolute not to sacrifice for the essentials of national honor and self-respect.

"I am not willing to have either the labor movement or our men and women placed in a false position. The United States will not voluntarily enter into the night and gloom of that of that I am confident. We shall keep out of it if we possibly can with any degree of faithfulness to the fundamental principles of justice, freedom and safety."

"If despite our reserve and self-control we shall be dragged into it, whether we like it or not, there will be no question of our position for us to take, and that is to be true to the end, true to our fellows, true to the highest ideals of humanity for which our movement stands."

Mr. Gompers speaks and nobly speaks the American sentiment of the American Federation of Labor; and not of that alone. He speaks the sentiments of American in general. Bitter reading to the runagate Chauvinist.

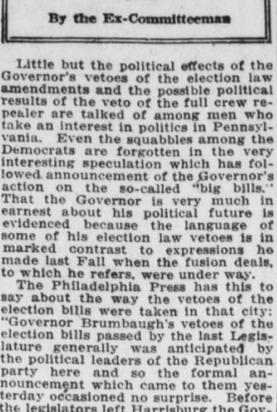

WE ALL KNOW HIM

If Adam were still alive he would be about the same age as R. E. Morse. Adam met him after he was banished from the Garden of Eden. Eve also knew him after she ate the forbidden fruit. Pharoah met him when he was well acquainted with him, as he met him repeatedly. He was with Joseph's brethren a long time after they sold Joseph into Egypt. Saul, David, Solomon and all the kings of old knew him well. And in the New Testament we find men who also know him. Judas, who betrayed the Lord and afterward killed himself, Peter who denied his Master. And so on all the way through the Bible and up to the present time. We all know him or have met him. Could we by any power annihilate R. E. Morse, how happy are we should make the world! But no one cares to profit by the experience of others, and therefore all must learn by the one teacher, whose lesson is bitter in the extreme.

Experience! If our conscience were not hardened, and we would listen to its dictates often, we might become less familiar with R. E. Morse. Looking back is the time we see him. R. E. Morse is always right there behind us. If he could only come out into the open, so we could see him as he is, we might avoid his acquaintance; but the outlaw, REMORSE.—The Christian Herald.
