Today's Beauty Helps

COMPLEXION BEAUTIFIER

Nothing is more repulsive than to see a woman with her face all daubed with face powder in her desire to hide marks of age. Instead of using powder, which clogs and enlarges the pores, it is far better to use a good face lotion that will improve and permanently benefit the skin. By dissolving four ounces of spumax in one-half pint of hot water you can make an inexpensive lotion that will do wonders as a skin whitener and complexion beautifier. It removes all shininess, sallowness and roughness, and gives the skin a smooth, velvety tone, while it does not rub off easily like powder, nor does it show on the skin.

MAKES HAIR FLUFFY

By washing the hair with a teaspoonful of canthrox dissolved in a cup of hot water, afterward rinsing thoroughly with clear water, one finds that it dries quickly and evenly, is unstreaked, bright, soft, and very fluffy, so fluffy, in fact, that it looks more abundant than it is and so soft that arranging it becomes a pleasure. This simple, inexpensive shampoo cleanses the hair and scalp thoroughly of all dandruff and dirt, and leaves a clean, wholesome feeling. All scalp irritation will disappear, and the hair will be brighter and glossier than ever before.

OFF FOR AN OUTING

Mr. and Mrs. Charles C. Linton and son, Tom Linton, of 109 North street, with Mrs. Daisy Kuhn, of North Second street, leave Saturday for a stay at Bushkill, Pike county. Mrs. Linton and Tom Linton will remain there until September.

Just One Application and the Hairs Vanish

(Modes of Today)

A harmless, yet very effective, treatment is here given for the quick removal of hairy growths: Mix enough powdered delatone and water to cover the undesirable hairs, apply paste and after 2 or 3 minutes remove with the skin and the hairs have vanished. One application usually is sufficient, but to be certain of results buy the delatone in an original package.
