

NEW AMERICAN NOTE ON WAY TO GERMANY

Flashed Over Cables to London During Night; May Reach Berlin Tonight

EXTRA SESSION MENTIONED

Another Disaster Would Likely Mean Reassembling of Congress

Washington, D. C., July 22.—The new American note to Germany is on its way to Berlin. It cleared from Washington over the telegraph wires during the night and to-day was being flashed over the cables to London and thence to Copenhagen, where it goes by land wires again to the German foreign office.

Secretary Lansing announced that the text of the note will be given out here Friday afternoon for publication in morning papers of Saturday.

Concerning future conduct of German submarines, the note does not necessarily call for an answer, as it announces the intention of the United States to regard any further violation of international law resulting in the loss of American lives as unfriendly.

On the other hand, the American demands for disavowal of any intention to sink the Lusitania and the request for reparation are renewed in the new note and very likely those, with other points, such as the willingness of the United States to act as an intermediary between the belligerents to adjust rules of maritime warfare, probably will be the basis for further discussion by Germany.

No Immediate Answer

An answer is not expected for at least two or three weeks on those phases. It is generally agreed among officials here, however, that any loss of American lives in the meantime would in itself raise the question of reprisals, irrespective of any formal reply from Germany.

The American note is in the nature of a final statement on the principles involved in which the United States takes the unalterable position that the accepted rules of international law must govern the rights of neutrals in respect of the conduct of war.

What action would be taken by the United States in the event of further violation of American rights is not disclosed in the new note nor was it specially commented on otherwise here to-day, but a general understanding

EXPRESS COMPANIES TO INCREASE RATES

Interstate Commerce Commission Finds Present Revenues Are Inadequate

Washington, July 22.—The Interstate Commerce Commission decided today that the revenues of the principal express companies of the United States are inadequate and modified its former order to provide additional income.

The express companies are expected to increase their gross revenues about 3.86 per cent. The commission's reports show that the net operating revenues of the four big companies have decreased to a deficit of \$1,132,811 in the year 1914-1915 and in the same period operating income decreased \$2,449,863.

"While the financial condition of certain of the petitioners is more favorable than that of others," says the report, "it clearly appears that as a whole they are operating at a loss."

The commission declined to change the basis of rates in zone No. 1, the territory east of the Mississippi and north of the Ohio rivers.

"TIME TO PREPARE FOR WAR IS NOW"

So Says Hudson Maxim in Stirring Address Before Chamber of Commerce

"The time to prepare for war is now, not when the enemy is upon us," said Hudson Maxim, the famous inventor of war material, to-day. Mr. Maxim was the speaker at the noon-day luncheon of the Harrisburg Chamber of Commerce.

His subject was "Things We Lack to Make This Nation Safe Against Invasion and Able to Maintain Its National Honor Abroad by Force of Arms if Necessary." Mr. Maxim in an impressive manner referred to the tremendous loss this country would incur by reason of a conflict brought on because our present inadequate army and navy encouraged other nations to provoke us and said the amount would pay for a dozen armies and navies.

In the opening of his address the famous inventor said: "A most intelligent spirit is awakening in this country, and the people are becoming stouter and stronger in the belief that there is danger in delay."

"We should do something to prepare against that day," said the famous inventor. "There are two ways of meeting the enemy. One is taught us by Carnegie and Bryan, who would meet the invader and preach peace to him. If I cannot understand why men are so blind as to think for a moment that we do not need preparation. What other nations have failed to do in time of peace should be an example for us. If we are to arm against war, now is the time. If we are to insure against war, now is the time to take out our policy."

"After war is begun is no time to start preparation. England and France did that. France before the present war was urged to prepare 800,000 men

GERMANS CHECKED IN CLAIM OF RUSSIANS

Czar's Forces and Teutons Engaged in Desperate Struggle Near Warsaw

FORTRESS PROVES EFFECTIVE

Austrians Say Height Taken by Italians Has Been Recaptured

Desperate fighting continues between the Teutonic armies pressing upon Warsaw and the Russian forces defending it with the issue still in the balance. Advances along all the fronts are claimed in the latest German and Austrian official statements, but Petrograd while not denying the closer drawing in of the Austro-German lines in some sectors, asserts that these lines are being held stationary or hurled backward at vital points.

On the important front south of Lublin, a serious breach in which would mean the cutting of the Lublin-Chelmin Railroad line and a division of the Russian armies to the north and the south, the Russian resistance seems to be strongest. The Petrograd statement claims the Teutonic offensive has been arrested there.

Counter attacks have driven the Germans along the line of the river Narwo to the north of Warsaw, the Russians declare. They assert also that their lines on the left bank of the Vistula to the southeast of the city are holding.

The fortress of Nowo Georgievsk seems to be giving effective help in keeping the Teutons in check to the northwest, for the time at least. In the Baltic provinces the German advance is progressing with their outposts barely twenty miles from Riga, their immediate objective.

Along the Austro-Italian front Rome claims the gain of a part of the heights commanding Gorizia and the Isonzo bridges from the right bank of the river. The latest report from Vienna declares all attacks on Gorizia have been checked and that a height that the Italians had captured was retaken.

TWO MEN DEAD AND SIX BADLY INJURED DAY'S STRIKE TOLL AT TWO OIL PLANTS

STATE TROOPS PREPARED

Heavy Rain Helps to Quiet Rioters After Many Hours of Trouble

New York, July 22.—Two dead and six seriously injured, one probably mortally, was the harvest reaped by rioters at the Standard Oil and Tidewater plants in Bayonne to-day as the result of attacks on the inside deputies guarding the property. Two fires also occurred, one in the Standard plant where a watchman's house was virtually destroyed, the other in the yard of the Tidewater Company where staves and lumber were stored. This last fire was started by means of burning oily waste thrown over the walls by rioters. It was speedily checked with trifling loss.

Those killed in the fighting were Stanley Murefko, 29 years old, and Nicolay Iwanski, 19, both of whom were shot through the heart by Winchester rifle bullets apparently fired by the guards. The men were killed during an attack on the barrel works of the Tidewater plant which began at 11:40 a. m. and lasted for half an hour. A sudden heavy down-pour of rain had much to do with stopping this fight.

A feature of this attack was the defiance by the strikers to keep Sheriff Eugene Kinkead, who has labored patiently with the men to keep order and to bring an end to the strike. He rushed up to the rioters when the melee was at its height and commanded the men to desist. He was greeted with jeers and left the scene.

ASKS FOR TROOPS

Later it was announced that he had asked for troops and companies from Newark and Redbank were expected soon to be on the scene as all preparations had been made for such a call. Sheriff Kinkead's call was made direct to the governor by telephone and later he dispatched a written oration.
