BIRD STUDY VERY POPULAR IN STATE

Clubs Have Sprung Up in All Sections to Carry It on Systematically

Efforts on behalf of the birds that either are native in Pennsylvania or spend a part of the year within the borders of the State which were begun a number of years ago by Prof. H. A. Silliman, an economic zoologist of the Department of Agriculture, and have been ably seconded by Dr. Jos. Kalbfus, secretary of the State Board of Game Commissioners, seem to be producing very satisfactory results rather suddenly.

It was stated at the offices of the Agricultural Department this week that bird life is by far the most popular form of nature study just at present, and while the number of those interested in birds was rather limited until quite recently now every important center in the State has an organization of some sort actively working in the interest of the feathered denizens of the Commonwealth.

Dr. Surface, who has just accepted an invitation to address the Altoona branch of Wild Life League of Pennsylvania on August 6, is constantly in receipt of communications from organizations and individuals who ask questions about birds. A question frequently asked is what kind of trees and shrubs should be planted to supply food for birds and as a result advice given to the women of Somerset apple trees have been planted in the streets of that borough.

Recently a club interested in bird study at Warren wrote to Prof. Surface that it contemplated making a bird exhibit at the county fair this fall and asked for suggestions along that line. The idea appealed to the zoologist and he went into considerable detail in his reply. Now the secretary of the club writes that the exhibit, which will embrace some of the Surface suggestions, is going to be a genuine feature of the fair.

The State convention of the Wild Life League will be held at Conneaut Lake September 6 to 11, and Prof. Surface has been asked to give a lecture on the relations between the farmer and bird life at it.

Examine the Label.—The Department of Industry and Labor has sent out a warning calling attention to the fact that the last Legislature passed an act prohibiting the use of a material in the manufacture of mattresses which might contain germs of disease; prohibiting the use of any second hand material until after it is properly sterilized and requiring that mattresses that may be legally sold must be properly labeled.

Thaw Wants Auto License.—Harry K. Thaw, of Pittsburgh, applied to the State Highway Department for an automobile license for a touring car, but as the application was defective in one detail it was sent back for correction. The application was made through J. W. Sherrer of Pittsburgh.

Rodgers for Judge.—Among the candidates mentioned for the vacancy on the Erie county bench caused by the death of the late Judge Benson is Chauncey P. Rodgers, Jr., clerk in the Bureau of Accounts and Expenditures in the Auditor General's Department.

Increase Bonded Debt.—The International Textbook company of Scranton has filed with the Secretary of State notification of an increase in bonded debt of from \$137,000 to \$1,370,000. Increases of capital stock will be made as follows: Reading Cycle Company from \$5,000 to \$50,000; Intercourse Light Heat and Power Company from \$25,000 to \$50,000; Speer Carbon company, St. Mary's, Elk county, \$200,000 to \$250,000.

BOND ISSUE FOR HALL

Special to The Telegraph
Wormleysburg, Pa., July 27.—At a meeting of citizens last evening it was decided to bond the borough of Wormleysburg for \$3,000 for the building of a town hall. Linwood Wambaug acted as chairman of the meeting and R. E. Schreck secretary. Council was instructed to look after the details of the bond issue and the construction of the hall.

HELD AS WIRE THIEF

Joseph Powley, colored, was held for court yesterday, by Mayor John K. Royal, for larceny. Powley was arrested last week with a quantity of copper wire in his possession. The wire was identified as part of 2,000 pounds taken from the Harrisburg Light and Power Company.

FIREMEN WANT MORE MONEY

Council will be asked by the Firemen's Union to increase the appropriations for each company. The committee named by the Union to draw up a report met last night. Wambaug the request may reach Council to-day. Only three companies are breaking even.

THE PRICE SHE PAYS

There is hardly an American woman nowadays who can keep pace with the demands made upon her time and energy without paying the penalty of ill-health. It may be that dreadful backache, dragging pains, headaches, nervousness or the tortures of a displacement. It is the price she pays. To women in this condition Lydia E. Pinkham's Vegetable Compound comes as a boon and a blessing. A simple remedy made from roots and herbs which brings glorious health to suffering women.—Advertisement.

Corns - Callouses

Can be removed and their cause absolutely eliminated with Mack's Foot Life—no matter how long standing. For all foot troubles, including corns, rashes and tired or aching joints, as well as chafed or chapped hands.

Crew Returns to Ship From Open Boats When Destroyer Disappears

New York, July 27.—Captain Humby, of the British steamer Turnwell, which arrived to-day from Swansea, reported that after sailing from Liverpool on June 15 he encountered a German submarine 35 miles off Tuskar. The submarine fired several shots from a rapid firer at the Turnwell and the crew of the latter took to their boats. The Germans then boarded the Turnwell, Humby said, exploded several bombs in the empty holds, and abandoned the steamer to attack the British coasting steamer Trafford. After sinking the Trafford the submarine crew returned to the Turnwell, but before they could do any further damage to the steamer patrol boats of the British fleet appeared and the submarine disappeared. The Turnwell's crew returned to their vessel after having spent four hours in open boats. The leaks were plugged up and with all pumps working the ship reached Milford Haven, where repairs were made. The Turnwell then continued to Swansea.

Norwegian Bark Is Burned by U Boat

Amsterdam, July 27, via London, 10.15 a. m.—The Norwegian bark Harboe was attacked and set on fire Sunday by a German submarine. The crew which had landed here, was given five minutes to get into the boats. The captain says he saw three other boats on fire near the spot where the Harboe was attacked.

AUSTRIANS LOSE HEAVILY

Geneva, July 26, via Paris, July 27.—The Tribune prints the following regarding operations in the Italian war theater: "The Austrians fight with utter contempt for death and the losses on both sides are frightful but those of the Austrians appear heavier, the Italian

British Casualties Have Reached 330,995 Mark

London, July 27, 11 a. m.—The casualties in the British army and navy have reached a total of 330,995, according to a printed statement issued by Premier Asquith. The total naval casualties up to July 20 were 9106 and the military casualties to July 18 were 321,889.

Fur Trade in Leipzig Practically at Standstill

Leipzig, Germany.—In common with London, Paris and Petrograd, Leipzig has felt the effects of the war on the

fur trade with extraordinary keenness. The business in this line is practically at a standstill and few if any firms are adding anything to their already over-large stocks. In previous years it has been just at this time that they have begun to load up.

Someone with access to figures in other countries than Germany estimates that there are now on hand in the fur concerns in London some 4,500,000 muskrat furs from North

America, 9,000,000 skunk skins, 54,000 Australian opossum skins, 127,000 civet skins, 34,000 fox skins and 17,500 polecat skins. London, neither, can dispose of this enormous number of pelts, nor can Leipzig avail itself of them. The heavy loss which the war has caused the fur trade is indicated by the fact that the price last year for a perfect black fox pelt, \$750, has dropped this year to \$100.
