YOUNG PEOPLE IN CONVENTION NOW

Baptist Y. P. U. Opens 12th Session; Follow Sunday School Meet

The Pennsylvania State Baptist Colored Young People's Union opened its twelfth annual convention this morning in the First Baptist Church, of this place. Immediately following the closing sessions of the State Sunday School convention.

Reuben Garnett made the address of welcome, which was responded to by L. J. Richardson, Homestead. The annual sermon was delivered by the Rev. R. C. Fox, of Pittsburgh. Shortly after the morning session closed.

The afternoon was spent in clearing up routine business of the convention. District reports, field secretary reports and the announcements. Officers for the 1915-1916 year were elected for the following year.

This evening the following will speak: J. T. Harris, Pittsburgh, on "The Importance of a Mission Study Class in a B. Y. P. U.," Mrs. Frances Garnett, Philadelphia, "What to Use in a Mission Study Class," and J. T. Harris, Philadelphia, "How to Develop Systematic Giving For Missions." Committee reports will be made following the addresses.

Three sessions will be held to-morrow before the convention has adjourned. Missionary addresses and conferences are among the important business items of the convention.

Last night the officers for the coming year for the Sunday schools were installed by Dr. W. G. Parks.

Delegates after a short discussion selected the Shiloh Baptist Church, of Pittsburgh, for the twenty-first annual convention of the Sunday school to be held next summer. The B. Y. P. U. will meet at the same place.

The Rev. D. E. Russell, pastor of the Shiloh Church, extended the invitation from his congregation.

PENNSYLVANIA STEEL GETS MORE ORDERS

To Supply 1,600 Tons of Steel For Pier at Panama Canal

Pennsylvania Steel is coming in for a greater share of business. The company made the low bid for supplying 1,600 tons of steel required for a pier at the Panama Canal according to the bids opened at Washington.

The company has been awarded a contract by the Reading Railway for the construction of superstructure for new bridges Nos. 35 and 36 across the Schuylkill river at Milton, Pa. The new bridges will consist of fourteen spans of through plate girders, length of spans being 85 feet and 96 feet, the total length being about 1,300 feet.

First Presbyterian Church Plans 30th Anniversary

Plans are under way for a week's celebration of the thirtieth anniversary of the First Presbyterian church of this place, to be held, beginning October 17. The program will extend over eight days.

All former members of the congregation now living outside of the borough will be invited to participate in the jubilee. Former pastors will also be asked to take part.

PAXTON CREEK JOB ACCEPTED BY CITY

[Continued From First Page.]

ent of streets and public improvements.

Official inspection of the work—one of the biggest operations provided by the improvement loan of 1910—will be made early next week by Council members of the Board of Public Works, City Engineer J. D. Cowden and Principal Engineer J. D. Justin who had charge.

Begun by Karl T. Opperman to whom the contract was awarded nearly three years ago, the creek job was completed by the West Construction Company of Baltimore to whom the unfinished contract was sublet by Maryland Casualty Company, Opperman's bondsmen. Opperman was able to finish only a small portion of the job.

Work was hindered by the vote of the people \$100,000 was provided to improve the creek and Opperman's bid of \$81,000 was accepted. The whole operation however cost much more it is figured, and at least \$28,000 of this was lost by the West Company.

High water, severe rains, the unfavorable condition of the weather in the late fall and early spring all these elements entered into the general delay. At that, however, the West company pushed the work as consistently possible and to-day the completed job is considered another one of Harrisburg's splendid public improvements.

From Maclay street to Iron alley that was once a continuously overflowing, odorous, slimy, mosquito breeding stream made stagnant at intervals by the accumulations of fifth—is now a smoothly rolling stream of surface water, flowing the length of the city through a deep open concrete invert.

The stream incidentally is entirely free of sewage as the sewer has been diverted into the interceptor that parallels the creek.

One section of the invert yet remains to be put in. This is under the State street bridge where City Commissioner Bowman will lower the big city water mains, to cross under the creek.

GERMANS' ADVANCE HALTED BY RUSSIANS

[Continued From First Page.]

ments in the direction of the Polish capital have been checked and they specify when and where. The Berlin announcements do not dispute Petrograd.

Going into details, the latest Russian report recites the favorable outcome to advance guard engagements near Mitau, in Courland, Russia, and says the Germans are continuing their efforts to cross the Narew river at a point near Novgorod, north of Warsaw. The line on the left bank of the Narew from Ostrolanka to the river Prut has been spirited fighting, but remains unchanged, and to the right of the Narew German attacks have been repulsed.

1,500 GERMANS CAPTURED

Between the Vepzr and the Bug there has been stubborn fighting, in which the Russians claim success and the capture of 1,500 German soldiers. At Grubecow, a point close to the Galician frontier north of Lemberg, the Germans made determined attempts to advance, but were driven back, according to the Russian war office, and a little farther to the south, at Sokal, the Russians declare they have begun a successful offensive movement. Desperate fighting is still going on at this point.

The French official statement of today reports minor activity but no fighting of any importance, while the latest Italian announcement says the progress of the Italian forces on the Carpi plateau has been satisfactory and that they have been successful in minor encounters at other points.

FRANCE SPENDS \$1,280,000,000

Paris, July 29.—The first five months of the great war cost France exactly \$1,280,000,000. This is shown by the report of the budget committee on supplementary military and naval credits just issued.

BRUSSELS FINED \$1,000,000

Paris, July 29.—Another fine of one million dollars has been imposed on

RUSS HAVE NOT YET BEEN PUT TO SEVERE STRAIN

London, July 29.—Telegraphing from Petrograd the Morning Post correspondent says:

"There is a marked difference in the manner in which the Russians are dealing with the attacks on the northern and southern fronts. The latter is the scene of hard fighting, inch by inch, and the Germans have made no general progress here but are making prolonged pushes over the greater portion of their front in order to detach reinforcements for the purpose of bringing into line the back sections."

"They are also fighting in tropical heat which makes even existence burdensome. The Russians have not yet been put to any severe strain and deal with the German attacks faithfully wherever they are delivered."

TWO AVIATORS KILLED

Issy-Les-Moulineaux, France, July 29.—A French aeroplane carrying a pilot and an observer fell to the ground from a height of about 1,000 feet while making a flight here last night. One of the men jumped as the machine was falling but was killed on striking the ground near a railroad track. The other occupant of the machine was burned to death as the motor exploded when it hit the ground.

DEALINGS CAUSE EXCITEMENT

London, July 29.—Mild excitement prevailed in Throgmorton street this morning when dealings in the new war loan with the rights of conversion were started. Brokers rushed to the Bank of England to obtain scrip certificates before parting with their holdings.

BULLER SPEAKS

Fisheries N. R. Buller spoke last night at Wilkes-Barre on what the State has done to check pollution of streams and what he hoped to be able to accomplish soon.

BIG DEMAND FOR TAGS

A big demand for hunters' license tags has been reported by the State Game Commission. County treasurers say they have had many requests for reservations.

REQUISITIONS GRANTED

The State has honored a requisition from the Governor of Virginia for return to that State of John West, who has three other names, on a charge of murder. He was arrested in Northampton county. Harry Hertz, wanted in Caldwell county, Texas, on a robbery charge, has also been extradited.

SPENDING UP SETTLEMENTS

Auditor General Powell estimates that as a result of the speeding up of settlements for State taxes from corporations approximately 28,000 settlements have been sent out. The State should begin to get the money from them in the next two months. The balance in the State Treasury is now less than what it was in the general fund alone at this time last year. The establishment of new funds has depleted it considerably and no school districts have been paid.

WATER COMPANY GETS BUSY

Advices were received by the Public Service Commission from counsel for the Johnstown Water Company stating that at a meeting of the directors of that company held yesterday the superintendent was authorized to at once secure the pipes and facilities necessary to supply the residents of that part of the Seventeenth ward of the city of Johnstown, known as the Walnut Grove section, and also to secure without delay the necessary rights of way for the construction of these facilities in order that the work may be proceeded with at once. Heretofore residents of the Walnut Grove section have been obtaining their supply of water for household use from various

ASK STROUP TO STOP RIVER ROAD SPEEDING

[Continued From First Page.]

question of so grading the roadway as to make it convenient and satisfactory for pedestrians to keep off the roadway and in this way eliminate the danger to people who travel a-foot.

"Speeding on the river roadway certainly must be stopped," declared the district attorney to-day. "Numerous accidents have occurred in this section due to collisions between automobiles or motorcyclists and these are caused in many instances by exceeding the proper limits."

"Many autoists, however, are annoyed by young men, usually from the city who step out into the roadway in the way of passing autoists for the express purpose of stopping them. Now because of the condition of the roadway—there are really no sidewalks you know—many people must use the highway to walk upon."

"Autoists have no more privilege on the roadway so far as this is concerned than pedestrians and vice versa. The roadway is there for the equal convenience of both and not for either to the exclusion of the other. If both autoists and pedestrians could keep this in mind there would be reason to complain."

DIAMOND IMPORT PROHIBITED

London, July 29.—A royal proclamation prohibits the importation into the United Kingdom of unset diamonds except under special license. This step has been taken presumably on account of the alleged sale recently of considerable quantities of German stones on the English market.

WARSAW SITUATION CRITICAL

London, July 29.—"Although it is possible the present German drive may fall as the attacks on Bolimow failed last January, the roar of guns and the arrival of wounded have convinced the population of Warsaw that the situation is critical," said the correspondent of the Times in that city in a dispatch filed Saturday.
