MATERIAL GAINS IN WAR STOCKS SHOWN

New York, Aug. 23. — Support was seen in the course of today's early trading, important issues showing material gains. United States Steel was again the keynote, opening after some delay at 70 1/2, against Saturday's close of 70, but soon recovering to 71 1/2. War shares were variable, but the only feature of note, the latter advancing from points to 23 1/2. As the session progressed, many offerings forced back to 70 1/2, with increasing irregularity elsewhere.

Bids must contain the right to accept or reject any or all proposals as may be deemed for the best interests of the Commonwealth.

HENRY F. WALTON, President.

CAPITALS OF ENTENTE ALLIES ARE JUBILANT OVER VICTORY

England Has More Than Systematic Interest in Result of Naval Battle at Riga, According to Official Report

London, Aug. 23. — The capitals of the entente allies are jubilant to-day over the unexpected naval victory which the Russians, according to their accounts, have won in the Gulf of Riga. England had more than a sympathetic interest in the battle, as a British submarine accounted for the German battle cruiser Moltke, the loss of which, added to the destruction of two cruisers, eight torpedoed and four transports, constitutes the greatest naval disaster suffered by Germany during the war.

For the last week both Petrograd and Berlin have been sending meager reports of naval operations in the Gulf of Riga, which were interpreted to mean that Germany was attempting to land forces for the purpose of supporting the left flank of Field Marshal von Hindenburg in his efforts to overrun the whole of Courland and thereby establish his armies along the coast route to the Russian capital.

The official Russian report, claiming a decisive victory for the allies, together with the expulsion of the surviving units of the German naval forces from the gulf, contains few details in addition to an enumeration of German losses. It is assumed that inasmuch as Petrograd announced several days ago her large warships had retired from the gulf, the most-likely cause of the German losses, and that, assisted by submarines and land defenses, caused unexpected destruction to a part of the conveying German fleet and the transports.
