BAPTISTS PLAN FOR MIDDLETOWN CHURCH

Appoint Committees at Virginia Conference to Study Situation Here

Efforts are being made by members of the Colored Baptist Church in this vicinity to establish another Baptist Church at Middletown. A committee from the annual conference will come to Middletown in the near future to study the situation.

At the forty-third annual conference of the Colored Baptist Association held at Millwood, Va., the week of August 16, two delegates from this vicinity were present. They were George H. Brown, of Rife's Extension, and Charles Layton of Harrisburg. Both represented the Royalton Baptist Church.

During the past six months there were six members who withdrew from the Royalton Church, and two of them, Richard Lane, of town and Earnest Corbin, of Harrisburg, attended the meeting at Virginia, and presented a letter petitioning them to a church to be erected at Middletown. The letter was accepted from five of the members who had withdrawn, but Mr. Lane was rejected on the grounds that he did not comply with the rules of the church.

A committee of three, consisting of Elders S. W. Brown, of Virginia, C. Robinson, of Carlisle and M. Ball, of Harrisburg, were appointed to come to Middletown and make an investigation into the matter of establishing a church here on or about October 21.

George Brown, pastor of the Royalton church, was one of the ministers who preached at the meeting. He delivered his sermon on Saturday afternoon at 3 o'clock.

Mount Morris church, Farquar county, Va., was selected to hold the next association meeting.

CHILDREN TAKE PART IN BIG CELEBRATION

Fireworks Display of Celebration to Surpass Any Ever Seen Here

Surpassing any display of its kind ever given in the city will be the exhibition of fireworks to be made during the water carnival September 24 during the great Municipal Improvement celebration.

Scenic reproductions of the American flag and the Niagara Falls will be leading features of the display. The flag with the stars and stripes will be produced in a set of 75 feet square. Plans call for the setting off of nearly 200 pieces. Announcement of the start of the display will be given by the simultaneous discharge of eight nine-inch artillery shells, making terrific reports.

The display will be given from floats on the river between the island and this shore. During the water carnival in the afternoon, a number of bombs will be exploded. These will emit parachutes and designs of animals.

Fireworks Pieces—The list of pieces as announced by Chairman Hoffert, of the carnival committee, will be as follows: Opening salute: Simultaneous discharge of eight nine-inch artillery shells, making terrific reports.

Discharge of three 12-inch combination bombshells, one break; shell of aneroid blast, one break; shell of three 15-inch bombshells, one break; shell of green and amber stars.

Evening sunset piece of forty inches with blue and change of color. "Cluster of jewels" set of forty inches, with change of color.

Discharge of four 9-inch combination bombshells, one break, shell of green stars.

Six 4-pound rockets, exploding in air with unusual effects.

The canopy of the starry flag produced by the discharge of four 12-inch bombshells, three breaks, showing red, white and blue stars.

Display of six National colored baton rockets, one break, shell of green stars.

Flight of two "flying eagles" or gliderons. Rising slowly from the ground, these pieces give a beautiful cascade display, finally reaching a height of at least 300 feet and then breaking into a canopy of golden rain fifty feet wide, and at the finish dart heavy electric flashes.

Starry flag set piece of 300 square feet with seven 40-inch electric sun wheels with a change of red, blue, green and silver coloring.

American flag set piece, 100 feet square.

Scenic display of six heavy rockets. Discharge of three 12-inch, one break, National color stars.

Combinational display: Discharge: Three 15-inch and nine 9-inch shells, all one break, with different color effects.

Electric flash curtain with 250 small reports and 75 electric flash lights in set piece 50 feet square.

Rocket display of six pieces with various effects.

Sun wheel set piece consisting of eight extra large saute shells, making a terrific report at great altitude.

Rocket display of twelve pieces.

Sun wheel set piece to nature. Set piece 75 feet square.

Glondola display: Flight of three which rise slowly from the float and give a gorgeous cascade display, breaking into a canopy of golden rain at 100 feet.

Display of eighteen rockets.

Bursting of two 18-inch shells, with three breaks.

"Good-night" set piece, with eruption of fifty heavy shots in wind-up.

TO INCREASE MEMBERSHIP OF RECEPTION COMMITTEE

The committee on invitations of which W. M. Ogelsby is chairman met late this afternoon to complete the list of names of guests who will attend the kind and will go on the automobile trip over the city.

Chairman Donald C. McCormick, of the Committee on Reception, has been authorized to increase the membership of his committee to 40. As soon as he has selected the additional members a meeting will be called and arrangements made for the reception at Chestnut Street Auditorium, Thursday night, September 23.

PROGRESS MADE IN CITY SCHOOLS WILL BE SHOWN JUST PRIOR TO CELEBRATION

Dr. F. E. Downes, superintendent of the city schools and chairman of the school publicity and school exhibit committees of the great Municipal Improvement Celebration has announced that an open meeting will be held in Technical High school Wednesday evening, September 22, at 7:30 o'clock, the night before the official opening of the celebration.

At this session music will be furnished by the combined Technical and Central High school orchestras, and vocal selections in charge of Professor E. G. Rose. President Harry A. Fager, of the city school board, will have charge of the program. Dr. Downes is preparing a paper in which he will give a chronological review of the public school work and improvement during the last fifteen years.

Professor J. Howard Wert will be invited to speak during the evening. Professor E. G. Rose, instructor of vocal music in the public schools, and George W. Updegrave, in charge of instrumental music, will arrange their part of the program.

At 8 o'clock the open meeting will close and the corridors of the school opened to the crowds to see the school exhibits. Dr. Downes has appointed the following committee to take charge of the various exhibits: D. D. Hammett, secretary of the School Board, who will have charge of the photographic and statistical exhibit showing the progress of the city schools; E. E. Fager, Jr., principal of Technical High school, who will have an exhibit showing the work done in that institution; Dr. Charles S. Rebeck, medical in-
