# TO PUT ON FLESH AND INCREASE WEIGHT

## GOOD ADVICE FOR THIN PEOPLE

"I'd certainly give most anything to be able to gain a few pounds and stay that way," declare many thin men and women. Such a result is usually not impossible despite past failures. Most thin people are victims of mal-nutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood much of the fat and flesh producing elements stay in the intestines until they pass from the body as waste. To correct this condition and to produce a healthy, normal amount of fat the flesh-making food elements must be so prepared in the digestive processes that the blood will accept and distribute them throughout the body. There is a preparation called Sargol, which works on this basis and which is sold by nearly every druggist.

On a positive guarantee of weight increase or money back. Hundreds have testified to weight increase from its use. Sargol does not of itself make fat but is simply a combination of ingredients of acknowledged merit that, taken with meals seems to better enable the digestive organs to separate the fattening elements of the food and to prepare them in a form which the blood can readily absorb. Sargol comes in tablet form, is pleasant and easy to take and its action is perfectly natural and harmless. Sargol is sold by G. A. Gorgas and druggists everywhere who are authorized to refund the full purchase price if weight increase is not obtained. NOTE:—Sargol is recommended only as a flesh builder and while it has produced excellent results in cases of nervous indigestion and general stomach disorders care should be taken by those using it who do not want to increase weight.—Advertisement.

## Are You Ready For the Celebration

On September 23rd, 24th and 25th thousands of people from outside of this city will join us in celebrating the completion of the many improvements that were started several years ago.

It is up to each one of the many merchants in this city to do his share in making this event one long to be remembered both by residents and strangers.

Harrisburg is now known as the White Way City and the only way of retaining this title is for every merchant to see that his place of business, the interior, exterior and windows, are properly illuminated.

You will need an Electric Sign sooner or later. Your neighbor in business has purchased one. Why don't you have one?
