"ANTELOPE JOE" OFF FOR HIS OLD HAUNTS

Dr. Kalbfus Will Visit Western Town Where He Was Deputy Sheriff on Way to Fair

Special to The Telegraph Pittsburgh, Pa., Sept. 13.—Dr. Joseph Kalbfus of Harrisburg, secretary of the State Game Commission has started with Mrs. Kalbfus for the Panama-Pacific Exposition.

He will be gone a month. He had been attending the hunters' and fishermen's convention at Conneaut Lake. The sportsmen of Pennsylvania gave Dr. Kalbfus a purse of \$800 last week in Harrisburg. He refused it at first, but his friends insisted that he take it, especially to finance his trip to San Francisco, which he had been induced to undergo only upon the solemn promise by the Game Commission that "not even a dicky bird would be allowed to be shot unlawfully" during his absence.

The sportsmen of the State say that Dr. Kalbfus is the man who brought game back to Pennsylvania, for, while the Game Commission has been generally composed of men who accepted the office only for the good they could do in the way of upping the game, Dr. Kalbfus had the idea and it was his recommendations for legislation to protect game that the sportsmen consider responsible for the return of the deer, the wild turkey and the bear, the increase of quail and ruffed grouse and small game generally. At the last session of the legislature they could not succeed in putting through a bill to give Dr. Kalbfus a salary of \$5,000, payable from the hunters' license fund, instead of \$3,000, but Governor Martin G. Brumbaugh said he would not approve of the bill, so the salary still remains at the lower figure. Sportsmen were indignant and started a subscription to raise a secret fund for Dr. Kalbfus. He was surprised when the \$800 was handed to him last week.

Dr. Kalbfus was born in Pennsylvania, but went West when he was a boy, and became a deputy sheriff at 17 at Fort Collins, Col. He was a famous rifle shot and was known as "Antelope Joe" because no antelope ever got away from him while he was in the West. Game Commissioner John M. Phillips visited with Dr. Kalbfus the Fort Collins neighborhood several years ago. He had never heard of Dr. Kalbfus, but expressed his interest in the career, and was much impressed with the reputation which the "old-timers" of Fort Collins gave to his friend.

Dr. Kalbfus will visit Fort Collins on his return from the Exposition. Mr. Phillips will write to the Fort Collins "old-timers" so that they may surprise "Antelope Joe" with a reception.

U. S. MAY LOSE TRADE UNLESS SOME CHANGES ARE ORDERED

By Associated Press Washington, D. C., Sept. 13.—Officials here in touch with current export conditions expressed the view that unless American merchants were willing to extend the time now given for the payment for goods sold abroad, the United States might lose much of the business now being developed by the European war. Steps to meet such a situation it was pointed out had been taken by the Federal Reserve Board by modifying regulations governing the rediscount of bankers' acceptances. Authority now is given for renewing acceptances under certain rules which, it is believed will permit the granting of time extensions demanded by many foreign buyers.

WILL TAKE UP NEW MEASURES

By Associated Press Rome, Sept. 12, via Paris, Sept. 13.—The next meeting of the Italian cabinet will deal with new measures upon which the quadruple entente allies have decided for the future conduct of the war, according to the correspondent in this city of the Turin Stampa. These measures are said to be analogous to those employed by the Germans to assure their recent military successes.

BANKRUPT NERVES

Each of us has a certain supply of nervous energy. Every act, even every thought, uses up some part of this energy. During rest and sleep the supply is increased by the blood which gets the needed elements from the air we breathe and the food we eat. Your nervous energy is like a bank account. If you use it up faster than you add to it you overdraw your account. Neurasthenia is the name given to nervous bankruptcy. It means that the power to recuperate is gone. The blood can be built up so that it will increase the supply of needed elements to the wasted nerves and this is the only way that the nerves can be reached. Dr. Williams' Pink Pills are a tonic that especially builds up the nerves because they supply to the blood the elements that the nerves need. Many nervous disorders, sometimes chronic ones, have yielded to this tonic treatment with Dr. Williams' Pink Pills when other methods failed to give relief. They are certainly worthy of a trial in every case of weak nerves and thin blood. Dr. Williams' Pink Pills are sold by druggists everywhere or will be sent by mail postpaid on receipt of price, 50 cents per box, six boxes \$2.50 by the Dr. Williams Medicine Co., Schenectady, N. Y. Write to-day for free booklet on the nerves.—Advertisement.

THE COST OF EUROPE'S WAR

An eminent economist of France made a calculation a few weeks ago, based upon such trustworthy statistics as were then available, that the first year's cost of the European war has been about \$17,400,000,000—for the seven allies, approximately \$10,000,000,000; for Germany, Austria and Turkey, approximately \$7,400,000,000. This does not include such items as estimated trade losses, property damage, and decreased productive power.—The World's Work for September.
