The Success of the Evening-Trained Man Is Convincing

The first evening class in the Wharton School of Finance and Commerce of the University of Pennsylvania was graduated in 1907. Eight other classes have since been graduated.

What have these men accomplished? The record would fill pages. One is Assistant-to-the-President of the Pennsylvania Railroad. Another is Treasurer of the Pennsylvania Warehousing and Safe Deposit Co. Four cashiers, three trust officers, six prominent real estate brokers, Manager of Insurance of the Provident Life and Trust Co., Comptroller of the Pennsylvania Steel Co., Chief Auditor of the Atlantic Refining Co., Vice-President of the Union Transfer Co., Assistant-Secretary of the Autocar Co., President of the Ajax Tire Co.—these are random illustrations of the way in which our "Evening School" men have climbed.

But the best of the record, after all, is not the conspicuously successful few, but the uniformly gratifying progress of all our men. The average salary of the 1909 class, for example, increased from \$1003 at the time of enrollment to \$2700 four years later; that of the 1908 class from \$956 to \$3347 in five years; of the 1907 class, from \$1040 to \$3120 in six years.

Now is the time to enroll in a school whose record means success.

MORE FAMILIES FOR MT. UNION

Hotels and Boarding Houses Crowded Until New Dwellings Can Be Built

Mount Union, Pa., Sept. 20.—On Friday evening the Businessmen's Association held a meeting to lay plans for the accommodating of the many families moving to town. At present every boardinghouse and hotel is crowded and the Etma Explosive company has asked that the town take care of 300 families who will move here in the near future. Huntington has notified the businessmen of Mount Union that their Chamber of Commerce would provide houses for the families, provided they could secure a low rate on the Pennsylvania Railroad between Huntington and the Powder Plant. The businessmen of Mount Union, however, do not care to have the trade go to Huntington and they have appointed a committee to canvass the town and find all the available rooms possible so as to accommodate the incoming families. The businessmen can lay some plans for the erection of dwellings houses.

Dr. Stough Takes Part in Lebanon Mayoralty Fight

Lebanon, Pa., Sept. 20.—The Rev. Dr. Henry W. Stough took off his coat, rolled up his shirt sleeves and removed his collar yesterday afternoon in addressing at the tabernacle the largest assembly of the church ever gathered here at a religious meeting. It was the first of a series of meetings for men only, and there were 4000 present to hear the evangelist speak on "Winds and Whirlwinds."
Doctor Stough took an open stand for Edwin U. Sowers, present City Superintendent of Finance, for Mayor, who he declared had been elected by the liquor crowd for defeat because he marched in the parade held in opening the Stough campaign a week ago.

DR. G. A. MALISTER RESIGNS Leaves Central Presbyterian Church at Chambersburg

Chambersburg, Pa., Sept. 20.—The Rev. Dr. George A. Malister resigned the pastorate of Central Presbyterian church at the close of the morning service yesterday, bringing to a climax a situation that has stirred two factions of the church for almost a year. A physical breakdown compelled the pastor to rest for several months in a sanatorium. When he returned to his pulpit several families declined to remain in the congregation. Thinking a trip to his home in Ireland might give the factions an opportunity to become reconciled, Dr. Malister asked the church to grant him a three-months' leave of absence. He was returning to this country on the Arabic when that liner was torpedoed and narrowly escaped death. Arriving here last Tuesday he found no change in the situation and yesterday, just before pronouncing the benediction, he asked the congregation to unite with him in requesting the Carlisle Presbytery to dissolve the pastoral relations.

Carlisle Shows How to Enforce Traffic Ordinance

Three Harrisburg motorists were arrested this week for violating the traffic ordinance in Carlisle. One was for driving on the wrong side of the street and cutting short corners, the other for having cut-out open and a third for having car turned the wrong way. These are such common errors that a motorist has no redress whatever but to pay the fine without protest. J. Clyde Myton in discussing the report of these arrests said that such violations were ignored so frequently by those who should enforce the ordinance that it is discouraging to even attempt to better traffic conditions here like they do elsewhere. Mr. Myton quoted one instance where an officer does everything in his power to make motorists comply with regulations, but his efforts are frowned upon frequently and usually ignored by those who should encourage alertness on the part of traffic officers.

EXCURSIONISTS IN BOX CAR

Mount Union, Pa., Sept. 20.—Eight hundred persons came to Mount Union Saturday night from along the East Broad Top Railroad and event with the excursion to Niagara Falls. The General Says:

I believe in men. Organization is as important as money or mills to an industry. Know-why and know-how are essential to any success. Every one of us has to acknowledge that the same sort of military preparedness that fits a nation for its defense is the most effective principle in making an industry of any kind serviceable and profitable both to manufacturer and consumer.

This great roofing organization is trained like an army

Three enormous mills—officered and manned by the best-trained force ever enlisted in an industrial army—three huge factories that are run like clockwork—
Military exactness in the securing and selection of raw material, and in every step from then on until the finished product is distributed and sold—
Constant readiness—being prepared every minute for the work to be done the next—
Right there you have your finger on the great, essential reasons for the unfailing satisfaction every user finds in

Certain-teed Products

Certain-teed Roofing simply has no superior. It is the best roofing that can be made by anybody anywhere, and we are justified in saying that it is the best made in the world. We guarantee the one-ply for five years, two-ply for ten years, and three-ply for fifteen years.

And that guarantee means the minimum life of Certain-teed Roofing. It will outlive its guarantee, you may believe.
We also make Standard Quality and Competition Quality at lower prices. If you want a cheaper roofing, that cannot bear the Certain-teed Guarantee, you can get it of us—and get a better value, too.
A manufacturer's guarantee is worth just as much as that manufacturer's standing and history indicate. The General Roofing Company is the largest institution of its kind in the world. It has a bigger and better equipment than any other concern in the business. When it began business, roofing cost two or three times as much

as it does today—and wasn't of as high quality. In other words the General has raised quality and lowered prices—and today out of every five rolls of roofing sold one of them bears the Certain-teed label, and the General's sales represent 30% of the total volume of all makes of asphalt roofings and building papers.
So we look back at the past with satisfaction and we look ahead to the future with confidence. And we want every dealer in and user of our products to share that satisfaction and confidence, because we know we have the plants, the men and the goods to justify every bit of it.
Your dealer will show you the Certain-teed Label. It means just as much to him as it does to you.

Why Not Brand Coffee Properly?

A Philadelphia restaurant keeper was arrested under the pure food laws for serving adulterated coffee. His lawyer claimed coffee was not a food.

Leading food experts uphold this contention—that Coffee is NOT a Food, but a Drug Beverage

Under its true colors most every pound of coffee sold should carry the truthful warning: "This can contains about 100 grains of caffeine."
Caffeine is a powerful habit-forming drug. Its daily use hinders digestion, irritates the nerves, causes headache, heart flutter and many other ailments.
The way to play safe with health is to quit coffee and use

POSTUM

It is made of choice whole wheat and a bit of whole-some molasses. Postum has a delicious java-like flavour yet contains no caffeine or harmful element.

There are two forms of Postum. The original—Postum Cereal, requires thorough boiling, 15c and 25c packages; Instant Postum—the soluble form—is made in the cup at the table with boiling water. Both kinds are equally delicious, and the cost per cup is about the same.

Ten days off coffee and on Postum shows clearly
