Light On A Dangerous Habit

Prominent periodicals everywhere are daily exposing the harmful effects of the drug, caffeine, in coffee. Physicians, food experts, medical writers and editors largely agree that the cumulative effect of the 2 1/2 grains of caffeine in the average cup of coffee is responsible for the many troubles, such as sleeplessness, nervous prostration, heart palpitation, indigestion, etc., that subtly beset most regular coffee drinkers. Some people seemingly hold up under regular coffee drinking without serious results, but modern thinkers, with respect for the fundamentals of health and longevity, are daily changing to

POSTUM

It is a pure food-drink made from wheat and a little wholesome molasses—contains no caffeine or other injurious drug. When properly made, Postum has a flavour and aroma so much like Old Gov't Java that one is inclined to forget coffee within a very short time. Postum comes in two forms: The original, Postum Cereal, requires thorough boiling, 15c and 25c packages; Instant Postum, the soluble form, is made in the cup with boiling water, 30c and 50c tins. Both kinds are equally delicious and the cost per cup is about the same. Better appetite, steadier nerves, brighter days are scheduled for those who quit coffee. A 10 days' trial shows.

"There's a Reason" for POSTUM Sold by Grocers everywhere.

Final Week of Hillis Campaign at Enola

Enola, Pa., Oct. 11.—More than 2,000 persons crowded into the Hillis tabernacle here last evening and listened to what is said to have been the most powerful sermon ever delivered at Enola. Evangelist C. E. Hillis preached on the subject "What Is the Unpardonable Sin?" At the conclusion of the sermon an invitation was extended to the audience to "hit the trail" and nine responded. The great number of conversions during the several weeks' services of the Hillis campaign speaks well for Enola. It is said that a great many Enola people are now paying up old debts and the businessmen of the town are pleased with the results of the revival. This will be the final week of the campaign the closing service being held next Sunday evening. When Evangelist Hillis announced his subject for the men's meeting next Sunday afternoon as "Ten Enola Men Exposed" there was a mild sort of consternation observed in the audience. MUSCULAR BACKACHE

The muscles of the back do the heavy work of the body. When they are overworked or ill nourished they ache and people who are looking for trouble begin to worry about their kidneys.

Backache may be due to lumbago, which is rheumatism of the muscles of the back, but more backaches are caused by overstrain, overwork and muscle starvation due to thin blood than by any other cause.

Dr. Williams' Pink Pills build up the blood and sufferers from backache would do well to try this treatment before giving way to worry over a fancied organic disease. Rest and the tonic treatment with Dr. Williams' Pink Pills will correct most forms of backache, even rheumatic.

For people who work too hard or dance too much and sleep too little, better habits and a course of treatment with Dr. Williams' Pink Pills are all that are needed to drive away the pains and aches that are warnings of a coming breakdown.

Two books, "Building Up the Blood" and "Nervous Disorders" will be sent free, if you are interested, by the Dr. Williams' Medicine Co., Schenectady, N. Y. You can get Dr. Williams' Pink Pills at the nearest drug store or by mail at 50 cents per box; six boxes, \$2.50.—Advertisement.

"Dry" Sunday Causes No Excitement in Chicago

Chicago, Ill., Oct. 11.—Chicago's first dry Sunday in forty-three years passed off yesterday with hardly a ripple of excitement and unattended with any of the predictions made by the "wet" leaders. But twelve violations, most of these of a minor character, were reported at police headquarters. There are 7,150 saloons in the city. The percentage of violations falls below the average percentage chalked up on election and primary days. Hardly an intoxicated person was seen in the streets. "This," said Chief Healy, after a 100-mile automobile tour of inspection of the city, "is the best record in the history of the Chicago police department. While full reports are not available, sufficient data was in hand, the Chief said, to warrant the belief that the day will establish the minimum record in the number of arrests for all causes.

Railroads Are Storing Coal

Coal operators are storing coal and every progressive coal dealer is keeping his yards filled to the limit. It costs money to store coal and load it up again to ship to other points. You may depend upon it that there are serious reasons why all this coal is being put at convenient point above ground. Trouble is brewing in the coal regions. Men are scarce. Foreigners are going home to fight. As most coal miners are foreigners few experienced men will be left when cold weather comes. We are advising all our customers to put into their cellar as much of our high grade SUN-GLOW COAL as they conveniently can. Late in the winter it may be impossible to get good coal.
