MUST BUILD NEW DRAIN UNDER GAP

Blasts Shattered Old Iron Storm Sewer Pipe at Market Street

WILL BE 30-INCH JOB

Placing Forms For "Steps"—Slow Work on River Dam

Before the gap in the River Front wall at Market street is finally closed an eight or ten-foot section of thirty-inch concrete storm sewer will have to be constructed between the "stringers" to replace the big iron drain that had been shattered by the blastings on the old dock wall.

The sewer is the old Market street storm outfall which emptied into the river a few feet above the Market street bridge. Repeated blasting has been necessary to lift the solid reinforced retaining abutment from its place in the foundations, and a few days ago one charge battered the pipe. The broken section will be encased in concrete and carried out to the water's edge under the wall. It will be necessary to lower the grain a few inches incidentally so that the "stringers" construction and the steps can be continued over the top of the outlet.

Forms were placed yesterday and today for the setting of the material for the steps. Footwall has been finished to within twenty feet of the end of the gap and all the stringers are in place. While the closing of the gap is not progressing as rapidly as might be expected, perhaps, little slip-ups such as the breaking down of machinery, lack of men, etc., have caused minor delays. A vital piece of mechanism in the steam pump that is used to draw the water from the cofferdam, cracked yesterday and this work was held up until the part could be replaced.

The placing of the concrete slabs on the top tier of the river dam has developed into a pretty slow job, too. Not more than seventy of the big blocks have been swung into place as yet.

What To Eat And Prevent Indigestion

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, should try a meal of any food or foods in moderate amount, taking immediately afterwards a teaspoonful of bisurated magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisurated magnesia is doubtless the best corrective and antacid known. It has direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. Do not dose an inflamed and irritated stomach with drugs but get rid of the acid—the cause of all the trouble. Get the bisurated magnesia from your druggist, eat what you want at your next meal, take some of the bisurated magnesia as directed above, and note remarkable results.—Advertisement.

DUTCH BULBS

The Largest Shipment Ever Brought to This City

A lady very prominent in Harrisburg social circles, whose taste in matters floral is conceded to be that of an expert in speaking of our bulbs last season said:

"I always bought my bulbs in Philadelphia, until last year, when I was influenced by their appearance to buy my supply from you. I am happy to say that the result was highly satisfactory and I had the finest flowers this year from your bulbs that I have ever seen. I shall take pleasure in turning all of my patronage in this line in the future to you and shall recommend your bulbs to all of my friends."

We say to you unhesitatingly, that the bulbs this year, consisting of Hyacinths, Tulips, Crocuses, Narcissus and all other varieties, excel even those which last year so pleased the customer to whom we refer.

Come in and look at them. We will tell you how to plant or we will at small expense, plant them for you. We will be open Saturday evenings.

A Short Talk On Pretty Autumn Dresses

As the season advances there's a more marked tendency toward combination affairs—the majority having sleeves of sheer fabrics.

It's a delight to go through the various assortments and note how many different and novel ways these combinations are effected.

Out of the better grades we call your attention to—

- \$35.00**—Georgette crepe combined with charmeuse, beaded from collar to belt along line of vestee; net and lace yoke.
- \$35.00**—Charmeuse and Georgette crepe (black) quaint beaded and embroidered front; charmeuse skirt with full pleated overskirt of Georgette.
- \$25.00**—Charmeuse and chiffon; gilded braid trimming; Castle Swirl model; net vestee and pleated sleeves; full flare skirt.
- \$20.00**—Charmeuse, Georgette crepe and white silk vestee and collar; plain model, with three wide bands around bottom of skirt; sizes up to 46.

Autumn Skirts Are Prone to Make Plaids Their Leader

So it seems. New patterns are coming in steadily and aside from saying there are shepherd checks, bars, Scotch plaids and novelties, a description would be a rarity.

"Novelties," however, carries a varied meaning. There are the quaintest plaids and checks and really odd color combinations; but striking!

Prices: **\$5.98** to **\$12.50**. **BOWMAN'S—Third Floor.**
