

# WOMEN AND THEIR INTERESTS

## Making Over Wives and Husbands

By DOROTHY DIX

One of the most interesting phases of the matrimonial problem, and one that no young couple in love ever stops to consider, is the influence that a husband and wife have upon each other's character and destiny. This is shown out of the discussion all consideration of whether they will be content or not or make each other happy or miserable, and dealing only with the bare fact of whether the stronger one will be able to lift the weaker one up, or the weaker will have dead weight enough to pull the higher down.

To a degree this question is a distinctly American one, since in other countries the man automatically settles the position of the family socially and lifts his wife to his rank. The barmaid, or the chorus girl, who marries an English aristocrat, entitled to precedence even over gentlemen who have in their veins the blood of a thousand knights and a hundred generations of culture.

But in this he is mistaken. She will not fit in; she will go back to her own, and he will find before he knows it that he has followed her. Socially the wife makes the position, and what she is the husband becomes also.

Intellectually a woman has far greater influence over a husband than he has over her, because the woman makes the atmosphere of the home. If she is cultured she fills the house with books, papers, pictures, music, all the refinements of life, and she draws about her educated people, and he the husband ever so uncultured himself, he unconsciously acquires a certain relish from his home life.

On the other hand, no matter how brilliant a man may be or how learned he cannot make a refined home if his wife is ignorant. She will regard the money that he spends on books as wasted, the learned friends he brings home as bores, she will yawn in his face when he tries to talk to her of literature or art, until, at last, in sheer despair, he will adopt his conversation to her own dull level of platitudes and gossip.

Why a woman should influence her husband morally more than he does her is inexplicable but it is true. When a broad, generous-minded man marries a stingy and niggardly woman, he will narrow down to her far oftener than she will broaden out to him. If a refined man marries a coarse and vulgar woman, what is fine within him will grow coarse to sympathy with clay far oftener than she will spiritualize to meet him. It is one of the pathetic weaknesses of human nature that evil rules oftener than good, and that the nobler of a married couple is the one to give in.

It is often remarked that people who have been married a long time come to look like each other physically, and it is even more true that they come to be like each other spiritually. It is one of man's illusions that he will be able to make over the woman he marries to his own likeness, but in reality it is woman's hands that does the altering, and this makes it so important that a man should not choose as a wife a woman according to whose pattern he does not wish to be altered.

For when a woman gets done making over her husband, he is so changed that even his own mother doesn't know him.

**WANT BIRD LAW UPHOLD**  
By Associated Press

Washington, D. C., Oct. 12.—Bills were filed today in the Supreme court by the Boone Bird Club, the New York Zoological Society and the Camp Fire Club of America, urging that the constitutionality of the Federal migratory bird law be upheld.

**FIGHTING CONTINUES STUBBORNLY**  
Paris, Oct. 12.—Although Belgrade had been evacuated the Matin's correspondent at Nish, in a dispatch filed Sunday, said the fighting continued stubbornly on the hills surrounding the city, some of which had been taken and re-taken several times.

**Genuine Prescription For All Rheumatism**  
Pain Disappears and Swelling Vanishes in a Few Days

Rheuma—that is the name of the scientific prescription that is putting rheumatism out of business.

Rheuma cures by driving the uric acid from the blood. It also acts directly on the kidneys and is better for them than most so-called kidney cures.

Says Samuel Powell of Geneva, Ky.: "For several years I was such a sufferer from rheumatism I could not straighten out my right arm or leg. After taking one bottle of Rheuma my limbs are supple and free from pain."

Gratifying relief comes in a day, because Rheuma acts at one time on the kidneys, stomach, and bowels, and sends a bottle of H. C. Kennedy and all druggists.—Advertisement.

**SALTS OF LEMON AND GRAPES STOP PAIN IN KIDNEYS**

Says Bachache is sure sign you have been eating too much meat.

Salts best to clean kidneys and overcome any bladder irritation.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Clean your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 50 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacy about four ounces of Juvalta; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it is longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clear and active. Try this, also keep the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Advertisement.

**ARMENIAN MASSACRES Renewed With Vigor**

Washington, Oct. 12.—Armenian massacres in Asiatic Turkey have been renewed with vigor since Bulgaria's entrance into the war as Turkey's ally. This information reached the State Department today from Ambassador Morgenthau who stated that the majority of the Armenians in Asiatic Turkey had been killed.

Although representations were made by this government some time ago warning Turkey that further atrocities against the Armenians would alienate the sympathies of the American people, no answer has been received.

Although \$100,000 from private subscriptions has been placed at Ambassador Morgenthau's disposal for distribution among the Armenian refugees now banished to desert towns, no arrangements have been made for bringing Armenians to this country as was originally planned, except where friends or relatives send for them.

**HAGERSTOWN FAIR OPENS**

**GERMANS AND FRENCH IN Battle Near Clouds**

Paris, Oct. 12.—A battle between a French aeroplane loaded with 90 millimetre bombs and a fast double-engine German plane was one of the incidents of the battle in the Champagne when the allied offensive was at its height. The French machine had just set out to destroy a line of railroad back of the German lines when the German craft emerged from a cloud. The air battle began immediately.

The machine plunged in a swift curve, but the Germans, no less prompt, dived too and continued to fly around the French machine, which was hampered by the weight of the bombs it carried.

The pilot was hit in the eye by a piece of the propeller which had been knocked off by a bullet. Again he was wounded in the abdomen and fainted. Then the observer seized the levers and guided the machine into the French trenches.

Both the observer and pilot have survived their wounds and the names of both have been proposed for the Legion of Honor.

## Opposes Elimination of State Regulation of Commerce Matters

San Francisco, Oct. 12.—At the twenty-seventh annual convention of the National Association of Railway Commissioners in this city to-day, Clifford Thorne, president of the National Association of Railway Commissioners, made an address on "The Great American Experiment," in which he discussed the question of the elimination of state regulation of commerce, and strongly opposed the movement in favor of its elimination. He based his arguments on the success of the combined national and State authority, which has been the fundamental basis on which the American government has rested since the constitution was adopted. He cited instances in which the states have originated progressive steps in the matter of railroad legislation and declared that the removal of State control in the matter of commerce would not solve the problem. He claimed that state government is closer to the local needs and traffic conditions than the national government and closed with the statement that "the makers of government must set as their goal, not the creation of
