SPECIAL STOCKS GOVERN TRADING

Bethlehem Steel Rose Ten Points This Morning Above Yesterday's Close

New York, Oct. 23.—Special stocks governed the trading again today, with addition to recent high records, while rails and other former favorites were relatively dull but firm. Baldwin Locomotive rose 1/2 to the new quotation of 15 1/2 after some slight wavering at the outset. Maxwell Motors was 2 1/2 higher at 7 1/2, and United States Industrial alcohol made a new maximum on its two-point advance to 12 1/2. Bethlehem Steel rose 1/2 above yesterday's close at 8 1/2 and General Motors 1 1/2 at 31. Other issues of this group were higher by 1 to 2 points. United States Steel rose only a fraction and Canadian Pacific led the railroads with a rise of 1/2 to 12 1/2.

TO DISCUSS STATE PAINT INSPECTION

Secretary Patton Will Have Conference With Manufacturers and Dealers

Representatives of the paint manufacturers and dealers of Pennsylvania will discuss the new State paint inspection act with Secretary of Agriculture Patton and the officers of the department within a short time so that there will be a mutual understanding in regard to the operation of the new law. Under the terms of the act the secretary of agriculture is to have charge of the supervision of the paints sold in the State and a system of inspection will be worked out. The State now supervises under "purity" acts the foods, cattle feeds, fertilizers and various other products, practically all of the work being under the direction of the secretary of agriculture. The new act will take effect on December 1 and there are \$3,000 available for the first inspection work, which will be through purchase of samples and analysis at the department's laboratories in this city. Mr. Patton will also arrange for the enforcement of the new law. Inspection act which is to become operative January 1.

Stock Tax. Immediate steps will be taken by the Auditor General's Department to publish the regulations of the new stock transfer tax act which will go into effect on January 1. The contracts have been placed for the stamps and the regulations are now being drafted. The present activity in the stock market has aroused much interest in the details of the new tax, numerous inquiries being received at the Capitol as to the requirements. Some brokers have already written contracts and stamps. The tax will be the first stamp tax in the part of the Commonwealth for many years.

Commission Plans.—No sessions will be held by the Public Service Commission, but several of the members of the board will be here for informal conferences and will make inspections. The commission adjourned last night to meet here on November 3 when contracts and applications for charters will be presented. The next day the hearing on the full crew cases will be held and the same day Commissioner Monaghan will sit at Kittanning to hear the application of the borough for a certificate to enable it to build its own water works. The following week the commission will sit in Pittsburgh to take up the "slag rate" and other water and sewerage railroads and water company cases. Meetings will be held later in the month in Harrisburg and likely in Bethlehem and Philadelphia, although not yet determined.

Pardon Board.—The October meeting of the State Board of Pardons scheduled for October 20 will be held next Tuesday, October 26. An effort may be made to postpone some of the cases involving first degree murder. To Discuss Dependents.—Superintendents, trustees and officers of the State's Insane Hospitals and officials of the State Board of Public Charities will meet in Philadelphia next Thursday, October 23, to discuss dependents on the State. The subject will be considered from the experience of the officials. Governor Brumbaugh has been asked to address the meeting.

Hargest Gives Opinion.—In an opinion given to-day to Dairy and Food Commissioner James Foust, Deputy Attorney General W. M. Hargest holds that the State laws covering the "bleaching of flour" do not only prohibit the sale of flour so treated, but also forbid anyone having it in possession within Pennsylvania for purposes of sale. The opinion was given on an application of a manufacturing company for a ruling whether it could manufacture and "bleach" flour in Pennsylvania for sale outside of the State.

Want Gas Kept On.—Complaint has been filed with the Public Service Commission by residents of Gaines, Potter county, in which it is declared that the Potter Gas Company has given notice of intention to discontinue service of gas. It is contended that discontinuance of the service would render great hardship and constitute discrimination.

New Inspectors.—John H. Malley, Northumberland; George E. Ammerman, Danville and James McCluskey, Washington, were to-day appointed additional factory inspectors. They will assume their duties at once.

Van Baman Resigns.—Adjutant General Stewart to-day accepted the resignation of Captain W. Van Baman, the veteran commander of Company K, Eighth Regiment, of York. He desires to retire from active service.

Lykens Valley Certificates.—The formal notices of the financial arrangements of the Lykens Valley Light and Power Company have been filed at the Public Service Commission offices. Announcement is made that \$150,000 bonds of an authorized issue of \$1,000,000 will be made and issuance of \$15,000 of common and \$60,000 preferred stock.

To Speak at Unveiling.—Governor Brumbaugh will speak to-morrow at the unveiling of the monument to Christopher Dock, the first schoolmaster in Pennsylvania. The monument is erected at Skipack. Ex-Governor Pennypacker and Dr. N. C. Schaeffer will also speak.

Would Keep "the Lower Lights Burning" Till Nov. 1

Sufficient funds to keep the lower lights on the river front wall burning throughout the same period as the lamps in the park along the top of the bank were not made for in the 1916 budget by City Commissioner M. Harvey Taylor, superintendent of the parks and public property. The latter are turned on about the middle of May and burn until November 1. The lower lights have been turned off for this year because no more money for maintenance is available. The park lights of course will burn until November 1 as enough money remains for the current for these lamps is at hand. When the lower lights were switched on, it was expected to have them a glow for the week of the celebration and as much longer as the funds would permit although it was doubted if current could be provided for more than ten days at most. City Commissioner Taylor, however, by careful economy, managed to keep the lights in service for a month. The standards will be removed in the near future and stored away for the winter.

The same type of vandal that had chipped and nicked the concrete surface of the steps and river front walk by rolling or throwing rocks over the embankment, has evidently been pretty busy with the globes of the lamps. Of the fifty-four along the wall at least a score have been battered by stones.

A TRAGEDY--- How to Avoid It

ONE of life's greatest tragedies is a widow left with children and no income. This pathetic circumstance occurs all too frequently. Your wife and children, how about them? That's your problem.

It's a simple little question in arithmetic, but because it carries with it so much responsibility, the average man evades it. Take your pencil, add up your present available assets; deduct your indebtedness. The remainder safely invested at 5% will be the approximate income from your estate that your family will have for their support if you die to-day.

Note the word "safely." If the principal be lost the tragedy comes right home.

You can avoid this possibility by consulting a trained, reliable life insurance man. He will show you how a small annual deposit will guarantee to your dependents a Monthly Income for twenty years or for life as you may elect.

And don't forget this: Their income will be free from expenses such as administrators' fees, court costs and taxes, and the principal will be as safe as a government bond.

This emblem identifies members of the National Association of Life Underwriters who are pledged to the highest standards of Life Insurance practice.
