INDOOR LIFE MAKES FAT
 TAKE OIL OF KOREAN TO KEEP WEIGHT DOWN, OR TO REDUCE SUPERFLUOUS FAT
 People who are confined within doors and who are deprived of fresh, invigorating air and exercise must take precaution to guard against over-stoutness, as fat acquired by indoor life is unhealthy and a danger to the vital organs of the body. Lack of exercise in the fresh air weakens the oxygen-carrying power of the blood, so that it is unable to produce strong muscles and vitality and the formation of unsightly and unhealthy fat is the result.
 If you are 15 or 20 pounds above normal weight you are daily drawing on your reserve strength and are constantly lowering your vitality by carrying this excess burden. Any person who is satisfied in their own mind that they are too stout should go to a good druggist and get a box of oil of korean capsules, and take one or two each meal and just before retiring at night. Even a few days' treatment should show a noticeable reduction in weight. Digestion should improve, energy return, footsteps become lighter and the skin less flabby in appearance.
 Oil of korean is inexpensive, cannot injure, helps the digestion and is designed to help the oxygen-carrying power of the blood. Any person who wants to reduce their weight 15 or 20 pounds should give the korean trial. There is nothing better. — Advertisement.

Suffered the Agony of a Dozen Deaths

Prominent Farmer in Canada Describes His Recovery and Escape From the Operating Table.

In a letter to friends at Saskatoon, Mr. F. Gifford, of the Ball Rock Farm, Maymont, Saskatchewan, Canada says: "Thanks to Fruitola and Traxo I am alive. I lay on my back for sixteen days, suffering the agonies of a dozen deaths. I began taking Fruitola and was relieved of a great many gallstones. My health is now fully restored.
 Fruitola possesses properties that act directly upon the intestinal parts. It is a great system cleanser, softening the congested waste and disintegrating the hardened particles that cause so much suffering, and quickly expels the accumulation to the great relief of the patient. Traxo is a tonic-alterative that acts on the liver and kidneys, stimulates the flow of gastric juices to aid digestion and removes bile from the general circulation. It serves to build up and strengthen the weakened, run-down system.
 Fruitola and Traxo are prepared in the Pinus laboratories at Monticello, Ill., and arrangements have been made to supply them through representative druggists. In Harrisburg they can be obtained at Gorgas, the druggist, 16 North Third St., and P. R. Station.
