### APPLICATIONS TO BE FILED EARLY

**Cunningham Makes Announcement Again Concerning the Automobile Tags**

Applications for 1916 licenses are coming into the State Highway Department in great numbers but State Highway Commissioner Cunningham to-day issued a statement in which he again called upon owners and operators of automobiles to get their applications for license tags in at an early date. The statement particularly urged those owners operating five or more cars to hurry their applications along. Prompt action by these owners will do away with much of the congestion which has arisen in previous years in the Automobile Division of the State Highway Department.

Another class of owners to whom the Commissioner particularly addressed his appeal are those operating jitneys. The enormous increase in automobile traffic in congested centers the last year is due largely to the operation of jitneys causing the State Highway Commissioner to lay great stress on this in the statement issued to-day.

While the statement is so worded as not to express threats of what will be done to those who fail to make their applications in time, yet, the commissioner made it plain that a rigid enforcement of the provisions of the automobile act would be undertaken and that those who neglect to apply for licenses need expect no leniency.

#### CITIZENSHIP RIGHTS OF WOMEN BEFORE COURTS

By Associated Press

Washington, D. C., Nov. 12.—Citizenship rights of American women who marry foreigners but who continue to live in the United States was placed to-day before the Supreme Court for decision. Emphasis was laid on the importance of the case because of the war.

Mrs. Ethel C. MacKenzie, of California, wife of Gordon MacKenzie, a British subject, who has resided in California ever since his marriage, was attacking through attorneys the attempt to make applicable to her the expatriation act passed by Congress in 1907. Election officials in San Francisco refused to permit Mrs. MacKenzie to register on the ground that she had become a British subject by reason of her marriage. She resorted to the state courts for writs to compel the officials to permit her to register, claiming that the act of Congress did not apply to women remaining in this country, and that it was unconstitutional. She was denied the writs and appealed to the Supreme Court.

#### FIRE MARSHAL WILL PROBE MUNITIONS FIRES

Another will be sent to Edgystone to-night or to-morrow, while others have been active in the western and central parts of the State where fires have occurred in powder and similar plants. In addition the fire marshal has certified to the attorney general names of owners of buildings in several counties which have been considered fire hazards and which owners have declined to remove. None of these buildings, however, is in neighborhoods of plants manufacturing munitions, but are separate actions.
