Paul Simonon at Second Reformed Entertainment

Fifty young people assembled in the Social Room of the Second Reformed church last evening as guests of the Young Men's Bible class. Games were enjoyed and refreshments were served at the close of the entertainment.

A pleasant feature was the presence of an ex-president of the class, Paul Simonon, now a resident of Great Falls, Montana. Much credit is due to the committee in charge of the affair, which consisted of the following: J. Edward Hoy, chairman; Claude Bretz, Harry Belsel, Preston Smith, Joseph Campbell and John Frennie.

The Toll Of Traffic

Being Article No. 3 on the subject of Jitney Regulation

Every day brings its tale of an accident—of some new toll exacted by traffic.

It may be in life, or in limb, or in property.

And as traffic increases, the more toll will be collected.

Today a stranger pays—tomorrow the grim collector may halt you, or your wife or your child.

So it's well that you consider how dangers may be minimized.

Not all accidents are avoidable—those due to recklessness are.

Hence it becomes imperative to public weal, that the citizens of the community be surrounded with every possible safeguard.

Since the advent of the jitney, traffic has more than doubled.

With this new industry speed is an important factor. The quicker passengers are discharged, the more trips can be made, the greater will the earnings be.

It's not difficult to understand how such conditions will encourage reckless driving on the part of irresponsible drivers.

How can it be overcome?

Easily and effectively.

Let each jitney operator file a suitable bond with the city—that will encourage careful driving and offer redress to its citizens in case of unavoidable accident.

This, of course, does not apply to responsible jitney operators any more than it does to this company whose property in itself secures the interests of the public.

Yet, despite the fact that it is responsible—despite the fact that it carefully trains its motormen—despite the fact that it enforces strict regulations regarding the careful operation of its cars—this company realizing that many accidents are unavoidable, voluntarily sets aside two cents out of every dollar it earns to take care of damages that may accrue therefrom.

If WE, as traffic operators, voluntarily give such important consideration to YOUR safety, don't YOU owe it to yourself to demand equal consideration from this latest and greatest contributor to traffic dangers—the jitney?

Then, there's another thing to be considered—but we'll talk of that tomorrow.

Harrisburg Railways Company.
