Three Entertainments of Dickens Portrayals

The engagement of William Sterling Battis in this city by the Young Men's Christian Association, Second and Locust streets, has created considerable interest. Mr. Battis has fairly earned the title of the Dickens Man and he will appear in Fehnestock hall Wednesday evening, January 12, Thursday evening, January 20, and Thursday evening, January 27 in "Life Portrayals" and "Nicholas Nickleby." "Life Portrayals" is a masterpiece of interpretative impersonation. Mr. Battis possesses a voice of great range and flexibility and in this number presents a dozen or more characters, complete in costume and make-up with appropriate monologues in one evening. Each character is developed in full view of the audience, as an artist would develop a picture. Mr. Battis showing the audience how the actor makes up for the character to be presented, by the use of grease, paints, powder, wigs and costumes. The change from one character to another is made complete, yet with great rapidity, and the living prototype of Dickens' creation with all the characteristic mannerisms, is presented.

Course tickets are now on sale at the Y. M. C. A.; the issue is limited to five hundred. The engagement of Mr. Battis in the notable Dickens characters will be one of the events of the season.

Here Newell Albright in a Fine Piano Recital

The third of the Stief concerts complimentary to the public through the courtesy of Frank Bass, their local representative, was given last night in the grand room of the Stief building by Newell Albright. His program was interesting in its departure, especially in the latter half, from his usual choice of compositions. There were four characteristic pieces by Moszkowski, that most distinctive and popular of the composers of the elegant art of salon music, the "request" Gondollera, the Joyous Moment, the Melody in G and the well-known brilliant Spanish Caprice.

An interesting Chopin group, commencing with the infrequently played, lovely second ballade, a waltz, three Etudes and three Scotch dances opened the program. Then the Forest Murmur and Dance of the Gnomes by Liszt. It is needless to say the playing disclosed as usual Mr. Albright's grasp of the refinements of tone color, phrasing and in the expression of individualities of interpretation. It is in this direction in fact that Mr. Albright's energies seem to be directed to the cultivation of the nuance, the color, the atmosphere, the results he obtains of a remarkably beautiful distinguished tone.

Reuter's correspondent at that point, all bearing traces of shock and hardship. Most of them had badly bruised and bandaged limbs. One woman is in a hospital with a broken leg.

One young woman described her experiences as follows: "I was just sitting down at the table when the explosion occurred. I ran at once to my cabin for a life preserver and twice was thrown down in the passage by the rocking of the ship. I leaped heavily and I fell. Although badly shaken and bruised, I quickly managed to adjust the life belt and jumped into the sea where I was rescued fifteen minutes later."

Two bank clerks going to Westport pushed to the bridge and dived into the water from which they were rescued. Others who went in quest of their children were saved. Only two children were saved.

The chief officer is said to have been in his cabin at the time of the explosion. He rushed to the bridge and did all that was humanly possible. He went down with the ship but was rescued from the water. He thinks the captain sank with the ship.

Although some passengers said they saw the captain swimming.
