Marietta Man Is 93 Years of Age Today

Special to the Telegraph. Marietta, Pa., Jan. 14.—E. Barr Spangler, the oldest man in Marietta, is to-day 93 years of age. He is the senior member of the B. and C. Spangler store, where he daily attends to business and waits on customers. Mr. Spangler began his wonderful career when 12 years of age, being engaged with his brother, William Spangler, who often left the store in charge of the boy, who rose rapidly in the details of business, and later the firm of Sterrett and Spangler was started in 1834. Mr. Spangler was born in Marietta, and has always lived here.

TO REMOVE DANDRUFF

Get a 25-cent bottle of Danderrine at any drug store, pour a little into your hand and rub well into the scalp with the finger tips. By morning most, if not all, of this awful scurf will have disappeared. Two or three applications will destroy every bit of dandruff; stop scalp itching and falling hair.—Advertisement.

WOMEN SHOULD GET THIS HABIT AS WELL AS MEN

Don't eat bite of breakfast until you drink glass of hot water.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists, you should see a virile, optimistic throng of rosy-checked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal and more putting more food into the stomach. Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sawy complexion and who get constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Advertisement.

ACID IN STOMACH SOURS THE FOOD

Says Excess of Hydrochloric Acid is Cause of Indigestion.

A well-known authority states that stomach trouble and indigestion is nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acrid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, waterbrash, or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescent, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices. Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.
