

THE KIND OF TOBACCO YOU LIKE

"American Navy" Has the Delicious, Lasting Taste That Satisfies

FULL OF JUICY SWEETNESS

For purity, wholesomeness and delicious goodness, no way of using tobacco can equal chewing it—and no form of chew can compare with rich, mellow, juicy plug tobacco.

Take American Navy for example. There's a tasty tobacco for you. An elastic, lasting chew crammed full of juicy sweetness.

In American Navy you get all the qualities you like so much in "scrap" tobacco plus the richer, mellower, juicier flavor that only plug can give you.

American Navy has been the favorite of sturdy, steady chewers for years. You can't begin to get the same satisfaction out of any other tobacco.

Made of choice, ripe, whole leaf by the most modern sanitary processes, American Navy is better than many chewing tobaccos that cost you more.

Be sure you're equipped with a supply of American Navy before you tackle another day's work. In 5c and 10c cuts.

Rules For Fighting "Grip" and Pneumonia

If people would learn to breathe deeply and breathe through the nose instead of the mouth, cases of Grippe, Pneumonia, Diphtheria, Catarrh and other throat and lung affections would be few and far between this winter.

The air is filled with infectious germs of disease. Mouth breathers inhale these germs and their throats become a veritable incubator in which bacteria breeds and multiplies, simple coughs, colds, or grow worse and develop often into more serious, more dangerous diseases. To avoid contracting coughs and colds which may lead to something more serious, begin to-day to breathe deeply, keeping the mouth tightly closed, sleep with windows open, walk in the fresh air as much as possible, draw it deep into your lungs and keep your mouth clean and antiseptic by dissolving in your mouth two or three times daily a little Oxidaze in tablet form. These Oxidaze tablets are made from a physician's prescription and will knock out the average cough or cold inside of twenty-four hours. A few tablets taken in this way almost invariably prevent the cold becoming Grippe, pneumonia or something worse.

WITNESSES AND JURORS CARED FOR

Compensation Will Be Given if They Are Hurt in the Commonwealth's Service According to a ruling made last night by the State Compensation Board, all persons summoned to serve the Commonwealth as jurors or witnesses for the State in a criminal prosecution are within the provisions of the workmen's compensation act. Thus every man who in any way is connected with the payroll of the State, county or other civil division is a liability risk, only excepting those officers who hold positions by the suffrage right. The board also decided that the exemption of farmers made in the act shall not be classically applied. Thus a farmer who is operating a threshing machine, an ensilage cutter or any other implement for hire on a farm not his own is liable for compensation to his employees who may be injured. Twenty-five corporations, business firms and civil divisions were exempted from the necessity of insuring their liability risks. Among the exemptions was the Philadelphia National League baseball club and a dozen coal companies.
