AMERICA FIRST, PLEA OF WILSON TO FOREIGN BORN

Most Important Address of His Tour For Preparedness at Milwaukee

SPEAKS FROM THE CAR

Delivers Talks in Three Small Towns; Back to Chicago Tonight

By Associated Press. Chicago, Ill., Jan. 31.—President Wilson passed through Chicago early to-day enroute for Milwaukee where he delivered an address which some of his party believe was one of the most important of his tour of the Middle West to advocate the speedy up-building of an adequate national defense.

His special left Cleveland at midnight and arrived in Milwaukee at noon to-day. The trip from Chicago, where the President did not leave his car, to Milwaukee was broken by the first of several brief addresses by the President from the rear platform of his private car. Three such addresses were at Waukegan, Ill., Kenosha, Wis., and Racine, Wis.

During the ride from Chicago to Waukegan the President devoted most of the time to correspondence and preparing material for his Milwaukee address. Because of the large foreign-born population of the city, it was thought he would touch on the duties of naturalized Americans in their adopted country in connection with the preparedness policy.

President Wilson expects to leave Milwaukee soon after his address is ended. His train is due to reach Chicago at 6 p. m. to-night, two hours before he is to address an audience at the auditorium here.

The train to which was attached the special car bearing President Wilson and his party, reached Chicago at 8:15 a. m. The run from Cleveland was accomplished without incident.

Crowds Gather. President Wilson was up early this morning and was eating breakfast with Mrs. Wilson when his train passed through the La Salle street station. Several thousand people were gathered at both the La Salle station and Northwestern stations in the hope of catching a glimpse of him.

A few minutes after Mr. Wilson arrived at the Northwestern Station he alighted from his private car and walked up and down the platform accompanied by a guard of secret service men. He remarked on the freshness of the air.

President Wilson has not changed his stand on the question of the right of Americans to travel on merchant ships of belligerent nations. The statement that the La Salle station now favored the passage of a bill barring American citizens from such vessels, which was published to-day, was denied by Secretary Tumulty.

The President's coming to-day just where he always stood on that question," said Mr. Tumulty.

Raps Quibblers. Milwaukee, Wis., Jan. 31.—President Wilson threw his private car and to-day to opponents of national preparedness who have declared that the movement sprang from the desires of munitions and armament manufacturers to make money.

"I for my part have all along advocated and always shall advocate that the government as far as possible shall manufacture these things for itself, in order that at any rate we may control the prices at which these articles will be sold to the government. If it is necessary to protect ourselves against foreign munitions, we must have the necessities of the nation, there are adequate means of defending ourselves and we will use these means. But I don't believe the impulse comes from those who are patriotic."

The President's declaration was delivered from the rear platform of his private car at Racine, Wis., half an hour before he reached this city.

New Circumstances Have Made It Necessary For U. S. to Arm, Wilson Declares

Special to the Telegraph. Cleveland, O., Jan. 31.—New circumstances have arisen, President Wilson declared Saturday night which make it absolutely necessary that this country should prepare for adequate national defense.

"I should feel that I was guilty of an unpardonable omission," he declared, "if I did not go out and tell my fellow countrymen that new circumstances have arisen which make it absolutely necessary that this country prepare herself, not for war, not for anything that smacks in the least of aggression, but for adequate national defense."

America's improvident neglect to build merchant ships, the President said, in explanation had left the country dependent upon other nations to carry its commerce, nations now at war, all friends of America, but preoccupied, suddenly steadfast in the maintenance of their main purpose.

"TOO TIRED TO BE GOOD HUBBY" COURT IS TOLD

Klinger Just Loafed 'Round in Shade After His Wedding, Says Witness

PRETTY WIFE WORKED

End of Story of 22 Years Also Related in January Divorce Court

L. Guy Klinger, Millersburg, has never been a very good husband; he's always been "too tired."

So a next door neighbor told Additional Law Judge S. J. M. McCarrell in January divorce court to-day when pretty Mrs. Teenie Klinger asked the law to untie the marital knot.

Up until the Klingers' wedding day June 1, 1912 Klinger's work-a-day industry had never been in question although, as one witness put it, he'd never been exactly noted for hustling. His bride had a pretty good job in the shoe factory at the time; so did Klinger. The echo of the wedding bells hadn't died away before Klinger settled down to loaf.

He quit his job and hasn't done much since but liquor up in the bar-rooms when he could get a little money together; other times he just laid around on the grass in the shade," a witness said.

He's "Too Tired". And Mrs. Klinger retained her old job and worked away to keep the house of Klinger together. January 14, 1914, Klinger took his wife to visit his folks at Dalmatia. Mrs. Klinger returned one Sunday evening; to this day Klinger has never returned. And an indignant neighbor, a bosom friend of Mrs. Klinger expressed her opinion of the wayward husband very forcibly when Attorney Robert Stucker asked her what "kind of a husband Klinger made."

"Not very good — he's too tired!" briefly explained the witness. Leaves Him After 22 Years. Just twenty-two years ago the story of Mr. and Mrs. Joseph P. Pownall began. [Continued on Page 6.]

PARIS IS VICTIM OF ANOTHER BIG ZEPPELIN RAID

Bombs Fail to Cause as Much Damage as in First Sweep

AEROPLANES ATTACK

Five Rise to Repel Invaders Without Success; Two Score Dead and Injured

By Associated Press. Paris, Jan. 31.—Several bombs were dropped by a Zeppelin which flew over the outskirts of Paris last night, but they produced no such deadly effect as on the occasion of the raid of Saturday.

The official press bureau gave out the following statement this morning: "A German dirigible set out in the direction of Paris, where it arrived soon after 10 p. m. It was bombarded by our special batteries and attacked by our aeroplanes. Before returning northward it dropped a number of bombs, which, according to the news received so far, did no damage."

Representatives of the Mail who visited the scene of the raid said no damage was done by the bombs. Three of them fell on a piece of waste ground and three others in a field. A police inspector saw the three which fell in the field. They did not sink deep in the soil. They were covered with a cotton-like substance which burst into flame. The inspector characterized them as incendiary bombs.

There have been no further additions to the list of casualties from [Continued on Page 12.]
