A PENNSYLVANIA MOTHER'S ADVICE

"Every Young Girl Should Use It"

McKeesport, Pa.—"When I was 15 years old, my mother being dead, a lady insisted on my using Dr. Pierce's Favorite Prescription. I cannot tell you how glad I was of this and how I suffered every young girl would use it at this time. I am now 45 years of age, have had 13 children, seven of whom are well, strong boys and girls. With the first four children I used 'Favorite Prescription' as well as 'Pleasant Pellets,' according to directions, both before and after and had very little trouble. Occasions come now when I turn to Dr. Pierce's remedies for help and they never fail. The 'Pleasant Pellets' have been a 'stand-by' with me for years for sick headache, constipation, etc. They do all you claim for them." Mrs. FRANK H. MELBURN, 2323 Fifth Avenue, McKeesport, Pa. Heed the warnings of nature. Backache, headache, low spirits, lassitude and pains are hard enough to bear. Act! Don't wait! If you are a sufferer, if your daughter, mother, sister need help get Dr. Pierce's Favorite Prescription in liquid or tablet form from any medicine dealer to-day. The medicine that every woman needs when passing through the changing days. It is not a secret prescription, for its ingredients are printed on the wrapper; it's a temperance medicine. Not only does it build up the entire system and make it strong and vigorous enough to withstand the organic disturbances, but it has a quieting effect upon the feminine organism. Book on Women's Diseases sent free. Write Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for free confidential advice. Constipation causes and seriously aggravates many diseases. It is thoroughly cured by Doctor Pierce's Pellets. One laxative; two or three a cathartic.

BEST LIVER AND BOWEL LAXATIVE FOR FAMILY USE

"Cascarets" regulate women, men and children without injury. Take when bilious, headachy, for colds, bad breath, sour stomach.

Instead of nasty, harsh pills, salts, castor oil or dangerous calomel, why don't you keep Cascarets handy in your home? Cascarets act on the liver and thirty feet of bowels so gently you don't realize you have taken a cathartic, but they act thoroughly and can be depended upon when a good liver and bowel cleansing is necessary—they move the bile and poison from the bowels without griping and sweeten the stomach. You eat one or two at night like candy and you wake up feeling fine, the headache, biliousness, bad breath, coated tongue, sour stomach, constipation or bad cold disappears. Mothers should give cross, sick, feverish or bilious children whole Cascarets any time—they are harmless and safe for the little folks.—Adv.

IDEAL AGE TO MARRY IS THIRTY

Marguerite Mooers Marshall, in the New York Evening World

No man should marry a girl more than sixteen years younger than himself. No woman should marry a man more than eight years younger than herself. The ideal marriage is when the man is 21 and the girl 18. Couples who wed at 21 and 28 have had too much chance to become cynical and worldly. These truly sapient sallying orders for men and women who would embark on the sea of matrimony have just been issued at the ninth International Purity Congress meeting in San Francisco. According to all reports, the congress was composed largely of those persons of whom Emerson said: "They are a little more sane than the insane do; their motives may be pious, but their methods are profane. They are a buzz in the ear." The particular buzz in the ear is emanating from Dr. Albert E. Snowy, of the Hospital College of Medicine, Chicago. Mrs. Christopher's Age Limit. "You know," he wants his marital time card made compulsory by national legislation. I wondered just how his idea of the proper age for marriage would impress an intelligent modern woman. So I went to Mrs. Sarah Christopher, for several years trustee of the National Christian League for the Promotion of Purity, but whose interest in the newest theories of social morality has not destroyed her sense of humor and of human nature. "The proper matrimonial age limits which Mrs. Christopher suggests: A man should always be from five to twenty years older than the woman he marries. The woman who marries a man younger than herself is robbing the cradle. In the ideal marriage the girl should be at least 25 before she becomes a wife, the man at least 30 before he assumes the role of husband. Experience Taught Shakespeare. "Why even Shakespeare tells us that a woman should marry a man years older than herself," she exclaimed. "Don't you remember the passage in 'Twelfth Night' which proclaims that the girl who marries is near the age of her prospective husband? "Shakespeare probably knew what he was talking about, she commented. His heroine, Anne Hathaway, several years older than himself, and his marriage is reputed to have been unhappy. Doctor Mowry thinks that a woman should not marry a man more than eight years younger than herself. If she takes one that much her junior she's robbing the cradle. And why should she want to do it? The average man is a fool until he's 30. Based on Physical Attraction. "How can any thoughtful person suggest that a girl of 18 should make the most important decision of her life, the choice of a husband? At that age she is looking for a combination of Apollo, Solomon and Croesus. She ends by eloping with the plumber's assistant—if she is foolish enough to elope with anybody. Generally speaking, the intelligent woman of 30 wouldn't touch with a ten-foot pole the boy she worshipped in high school, wouldn't pay for burying him except for the joy of getting rid of him. I am opposed absolutely to early marriage," Mrs. Christopher continued with earnestness. "They are and must be based altogether on physical attraction, for between 16 and 25 the physical lure is strongest. But to be ideal the union between a man and a woman must be a 'marriage of true minds.' That can only come after the minds have developed; after, that is, the period of extreme youth. Twenty-five is the very youngest age at which a girl should marry; 30 the lowest limit for a man. No Morality in Early Marriage. "So often people wonder why any couple is divorced after ten, twenty, twenty-five years of married life. I don't wonder at it at all. They have simply reached the limit of their endurance. They married when they were too young to know that they were not suited to each other. They were too young to exercise for self-control. The quarrels were little ones at first, but they grew more serious and the gulf between widened constantly. They grew apart instead of growing together, and in my opinion the former is much more likely to happen than the latter when very young persons marry. "The bridegroom dominates the choice in early marriages. The bridegroom of 21 thinks he's caught a star—and wakes up to find that he has a box of chocolates tied with silver gilt." "The argument which the advocates of early marriage consider most important is that it safeguards morality," I suggested. "Anybody who gets married in order not to go to the devil will get there just the same," she retorted. "To advocate or to use marriage as a safety device is to insult the highest ideals of the laymen's missionary movement in the United States and Canada. The other speakers will include Charles A. Kunkel, the Rev. Dr. Lewis Manges, Prof. W. W. Hartman, Prof. John Ferguson and the Rev. A. M. Stameis.

HIS CONDITION WAS SERIOUS BUT...

Theo. Fox resorted to Quaker Herb Extract and he is now well

Great numbers of people ask the Health Teacher at Keller's Drug Store this question: Does Quaker Herb Extract actually cure catarrh completely or does it merely relieve for a time? An answer to this question is clearly given to-day by Mr. Theodore L. Fox, of this city, in the report which he made on Friday night. He said:

"I am 61 years old and had been afflicted with catarrh ever since I was quite a young man. Years ago I began to notice it in my head, when mucus began to drip, it seemed, back in my throat causing me to hawk and spit a great deal. I seemed to catch cold very easily, and as I kept getting worse I consulted a doctor who pronounced my case catarrh, and he prescribed for me various medicines but they did not cure me. From week to week I noticed I kept getting worse. Then a noise like escaping steam started in my head. It never stopped day or night and oh! it was surely annoying. My hearing became affected, my sight grew bad, my tongue became coated and my breath was most offensive. I used atomizers, inhalers, salves, oils, ointments and I paid out dollar after dollar for different medicines but it seemed there was no help for me. After a few years the catarrh also affected my stomach and then I was miserable indeed. I was told time and again that there was no cure for me and I believed it. Ever since the year 1909 I took no more medicine at all and I just continued to suffer. Last October curiosity, more than anything else, prompted me to call and have a talk with the health teacher at Keller's drug store. He realized the seriousness of my condition and did not give me much encouragement, but he begged me to just try the Quaker treatment for a few weeks and see if it would not help me. He insisted that my case was the worst he had ever come across. He also told me if the remedies failed to help he would refund the price, as he feared failure. So during the first week in October I commenced the Quaker treatment and took it as follows: After each meal I took a dose of Quaker Extract and at night I used the Quaker Mineral Salts as directed. In less than 10 days I noticed a big improvement. This encouraged me to continue. Each day I improved and early in December I reported myself entirely cured. The health teacher however insisted that I continue with the remedies another month to be sure that my cure would be complete. To-day I can say that there is no sign or symptom of catarrh about me. I hear well, have no more head noises and my stomach is in excellent condition." Now the health teacher asks, Does Quaker Extract cure catarrh? If you are a sufferer call for or send for the treatment at once. Get it at \$1.00 per bottle.
