Mayor Meals Decides Patrolmen Need Safety First Instruction

TECH BOYS TO ATTEND Resuscitation Methods Will Be of Special Importance to Bluecoats

Harrisburg's policemen are to be instructed in the principles of "safety-first" by the State Department of Labor and Industry.

Mayor Ezra C. Meals has decided that the police force shall witness the safety first moving pictures to be exhibited by the Department in co-operation with Harrisburg manufacturers.

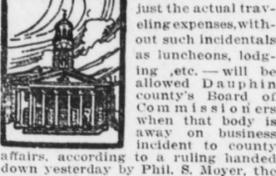

The first of the series of entertainments to be given to-night in the Technical High school auditorium when the employees of the Moorehead Knitting Company and the Blough Manufacturing Company will be the guests of the evening. The series will continue at intervals during the next two weeks. To-morrow afternoon a special performance will be given at 2 o'clock when the night patrolmen of the police force, the Tech High School students and night workers of Harrisburg newspaper will attend.

Mayor Meals will distribute tickets of admission among the day patrolmen in order that they may attend evening exhibitions of the safety films during the coming week. Films showing the proper methods of resuscitation of drowned persons or persons who have been struck by lightning or electric shocks will be of special value to the policemen. Fire prevention films, the films of the first aid course of the Bethlehem Steel company's safety work and the films showing accidents from unguarded machines in industrial plants will be of exceptional value to the High School students who will later follow industrial work.

Those attending the movies will be given pamphlets telling them of the slaughter of human life as a result of careless driving. It is noted that 29 persons have been killed and more than 28,000 have been injured in the industries of Pennsylvania.

**COMMISSION TO DRAW ONLY FARE**

Actual Price of Ticket Alone May Be Charged by County Authorities

Car fare only—just the actual traveling expenses, without such incidentals as luncheons, lodging, etc.—will be allowed Dauphin county's Board of Commissioners when that body is away on business outside of the county.

According to a ruling made last night by Phil S. Moyer, the county solicitor, the commissioners heretofore had been expected to charge the actual price of the fare, meals, lodging, etc., but when the new administration took hold of county affairs the solicitor was asked to give an opinion on the question of just what the governing board could and could not charge for. The views of the attorney were expressed in connection with the many trips to nearby towns the commissioners have been making in sitting to hear assessment appeals.

To Act On Bridge Test.—Definite action relative to testing out the new Nineteenth street bridge across the Philadelphia and Reading tracks will likely be determined by the County Commissioners to-morrow. The Ferro-Concrete Company has firmly declined to test the bridge with trolley cars on the ground that it is not required by its contract to do so.

City Commissioners Absent.—City Commissioner William H. Lynch, superintendent of streets and improvements, and City Engineer M. B. Cowden left last evening for Pittsburgh to represent Harrisburg at the annual meeting of the Motor Club of Harrisburg, completed the local delegation. The party will return to-morrow. City Commissioner W. L. Gorgas, superintendent of public works, and the Philadelphia to-day to attend the funeral of George W. Kendrick, Jr., a past worshipful master of the Pennsylvania Grand Lodge of Masons.

**NEWS OF STEELTON**

**BOYS TO BUILD HOMES FOR BIRDS**

Professor J. L. Folker to Instruct Scholars to Conserve Bird-Life

Professor J. L. Folker, head of the manual training in the Steelton public schools, has notified Secretary of Agriculture Charles E. Patton that he will shortly inaugurate in the grammar schools here a course in bird house construction.

Secretary Patton a short time ago urged the teachers of the public schools of the State to take up the question of competitive bird house contests in the schools as a means of conservation of the native birds and a help to the agricultural interests for their pest destruction. There has been a general response throughout the State, but Professor Folker has instituted a plan that promises to make the local schools stand out prominent in the movement throughout the State.

Professor Folker says that he will make the construction of bird houses part of the regular manual training course for grammar school boys and will have them set out the boxes and keep a record of their tenants. The project is to be a friendly rivalry among the Steelton boys in the construction of the bird houses and in reporting on the first nestings in the houses of the respective birds for which the houses were intended.

**WILL PROSECUTE PURCHASERS**

Charged with stealing wheat from cars on the siding of the Hoffer Flour Mill in the West Side, three small boys were arraigned before Squire Frank Stees last evening and fined. The arrests were made by Pennsylvania Railroad officers, who declared that they should prosecute the boys who buy the grain from the boys who are prosecuted.

**CYRUS LYTER DIES**

Cyrus Lyter, aged 61, North Third street, died at the Harrisburg Hospital early this morning from a complication of diseases. Funeral arrangements are incomplete.

**18 BARS GO DRY AT 12 TONIGHT**

[Continued From First Page.]

bars are among the most widely-known hosteries in the city.

In addition to these old licensed places, applications for new privileges at the Lenox, Market street, applied for by Samuel Fishman, and for 945 North Seventh street, applied for by Benjamin A. Striplin, proprietor of the Leroy are still pending.

Tales of the Aldine

Most of to-day's session of license court was taken up with the tale of the Aldine. The stories that were related of the Aldine's winery and grillrooms were similar to the tales that have been heard for the last few weeks in the Dauphin county courts.

Clyde Lynch, a Lebanon Valley college student, and an investigator for the American Civic Reform Union, probably caused the biggest sensation when he related his experience last September with a fellow investigator in the winery of the Aldine. A waiter he said had piloted himself and companion to a table where a "Mrs. Clark" and "Mary Webber" were sitting.

Then the lights will shine

Lynch said he glibbed the conversation "round to the question of whether or not Harrisburg was a slow town."

"Well," said Mrs. Clark, "explained Lynch, "just now Hutchison has the lid down pretty tight but we expect meals to be in before long, and then the lights will shine again."

The women "made a date" with his companion and himself, Lynch pointed out, and before the evening grew very old the quartet left for one of the South Third street houses which figured conspicuously in the testimony of the Savoy.

Ticked His Palm

An incident of the Aldine grill as related by Lynch caused a slight titter in the courtroom. Lynch said he placed his hand on the table whereupon Mrs. Clark had remarked as to its whiteness and smoothness and to evident lack of contact with hard work.

"Well," said Mrs. Clark, "explained Lynch, "just now Hutchison has the lid down pretty tight but we expect meals to be in before long, and then the lights will shine again."

In all the hearings E. H. Dodge the investigator has contended that he never drank any intoxicants and on cross-examination to-day the Aldine applicant tried to discredit the witness by bringing several men to swear that they had seen Dodge drink a standard brand of whisky. Among these was a bartender at the Aldine and a former bartender at the Savoy.

Not a Dauphin Practice

The statement during the morning by the Rev. Mr. Klaer that he had frequently seen a woman with a court record in the Aldine winery, led to an inquiry by the court. "Tiz" the minister said he was surprised at the appearance of the woman because he understood she had been convicted in court and that her sentence was committal to the Dauphin county court.

"We want that understood by all within hearing of our voice," said he.

**Germans Gather Huge Stores of Arms For Eastern Advance in the Spring**

Petrograd, Feb. 29.—Announcement was made to-day that tremendous activity has been observed over the whole length of the German front in the East. There are various indications that Spring will see another great effort by the Germans on the Russian front.

Enormous quantities of incendiary explosive bombs have been collected by the Germans and are being prepared in preparations for aerial warfare on an increasing scale. Aeroplanes are being law in other communities as a means of the observation of the mw in our own county.

**TERRIFIC ARTILLERY FIRE ON FORTRESS**

[Continued From First Page]

were penetrated, the Germans being almost immediately driven out.

The German announcement shows the taking in the Verdun battles of nearly 17,000 prisoners, together with 78 guns, 7 of them modern heavy pieces, 86 machine guns and quantities of war material.

The heaviest infantry fighting of the night seems to have been in the Woivreux district, to the south of the fortress, where the Germans attacked and captured the village of Manheulles. The French declare that in a counterattack they attained the western boundary of the village, which they now hold under their fire.

The comparative lull that prevailed for some hours before the renewal of the intense artillery fire reported to-day, indicates that a new phase of the battle might be developing. As a whole, the German attack, while still continuing, has apparently less driving power, while the pressure is being shifted from point to point.

Hunting Weak Spots

The possibility is indicated by military observers that the Crown Prince's armies are gathering their forces for a new concentrated attack at some selected point, and that the thrusts now being made here and there are for the purpose of picking out the weakest spot in the extended line. The Germans, it is noted, need time to replace their heavy guns and possibly even now may have brought them up behind their advanced infantry lines closer to the fortress for concentration on its permanent defensive works.

Deliver Vigorous Attack

Meanwhile the French are not idle and are delivering vigorous counter strokes. When attacked their lines in the stronger positions they now occupy are holding firm.

Estimates of the number of Germans engaged in the great battle are considered larger than 300,000 men believed to have been engaged in the initial operations. Some authorities now declare that there are as many as 750,000 troops engaged in the fighting on the German side, strong reinforcements having been sent to the scene.

**RUSSIANS CLOSING IN**

The Russians are energetically continuing their campaign against the Turkish forces in the Mediterranean. Reports from Petrograd to-day declare that the Turkish forces are hastily evacuating Trebizond on the Black Sea and other nearby towns in the coast in the Caucasus region. Recent dispatches declare that the Russians are closing in on Trebizond both from the east along the coast and from the direction of Erzerum, the captured Turkish stronghold.

Casualties of the British forces in the various sections of fighting are as published during February, 739 officers and 8,817 men. This was somewhat smaller than during January, when the published losses amounted to 1,079 officers and 19,224 men.

Italy Ready For War

Sinking of the French auxiliary cruiser in the Provence in the Mediterranean is announced in Paris. The number of survivors is estimated at 570.

Constantinople reports the repulse of a surprise attack by the British against the Turkish position at Pelahias, Mesopotamia, where General Aymer's army is trying to reach Kut-el-Amara to relieve the beleaguered garrison.

The Italian Government has requisitioned nearly all the German steamers interned in Italian ports, according to London announcement, taking possession of thirty-four of the total of thirty-seven. This announcement follows unofficial advice received by the Italian Government which was still undecided whether it would yield to the popular demand for a war with Germany.

**Verdun Fighter Says Germans Advanced Blindly Like Big Flock of Sheep**

[Continued From First Page]

pleaded with her and finally placed her in a wheelbarrow and wheeled her to the trench. The snow and mud to a place of safety.

**Germans Claim 16,575 Unwounded Prisoners in Fighting Around Verdun**

Berlin, Feb. 29, via London.—Progress for the Germans in their drive towards Verdun in the Woivreux district was announced by the war office to-day. The German troops have captured Dieppe, Abcourt and Bliez, and also have taken Manheulles and Chamillon.

The war office also announced that a small armored works northwest of Douaumont has been stormed by the Germans. The official announcement gives the total number of unwounded prisoners taken as 16,575. There have been captured also 78 cannon and 86 machine guns.

**Big German Flotilla Is Laying New Mines**

Copenhagen, Feb. 29.—The Aftonblad reports that a large German flotilla is engaged in laying mines south of Falsterbo, but outside of Swedish territory, and that it is under the protection of twenty German patrol ships.

Today Is Bicycle Day All Over the Country

"February 29 has been set apart all over the country by bicycle manufacturers, jobbers and dealers as bicycle day," says Ray Henry, of Heavy Bros., who is engaged in Harrisburg. "We expect it to be a big day, with results that will be felt all the year."

"The statement that close to half a million bicycles were made and sold in 1915 may be a surprise to some people. Yet it is absolutely true. The bicycle industry is neither dead nor even sleeping, and the slogan of the trade now is 'A Million Bicycles in 1916.'"

"Careful investigation shows that even in the so-called 'boom bicycle days' not more than three-quarters of a million bicycles were sold. That was some fifteen years ago. The increase of population and many other factors make the bicycle market much larger to-day than then. Bicycles cost less, and are better to-day than ever, for riding for pleasure. The services they perform, economically and well, in business are more numerous than ever. The great American boy is as great a bicyclist as he is a soldier. The bicycle helps to make boys strong, sturdy, manly and often helps them make money and cultivate habits of thrift and foresight."

"Moreover, women and girls are riding bicycles in larger numbers than in years before. Society women at the fashionable winter resorts have their bicycles and are out riding and enjoying the sport immensely."

"Bicycle racing has taken a new lease of life, too. At the six-day meet in Chicago recently the audience frequently numbered the 10,000 mark, and everything points to the fact that the bicycle is here to stay—and that the American people realize it, and buy and use the bicycle in great numbers."

"All over the United States during the week of February 29 there will be special window displays and other attractions and the million bicycle year will be given a fitting start."

**MISSIONARY TO SPEAK**

Christopher Knapp, a returned missionary from Spanish Honduras, will talk to-night and to-morrow night on his two years' work at that place, at Gospel Hall, Cameron street near Calder.

**GIVES BIRTHDAY PARTY**

In honor of his seventeenth birthday, Russell Johnson entertained a number of his friends at his home, 274 Myers street, Saturday evening. Among those present were Miss Laura Sides, Miss Myrtle Beck, Miss Daisy Presly, C. E. Ensminger, C. Bell, S. Dogar, L. Shelley, E. Yings, M. Taylor, L. Reist, E. Reist, Herbert Sides, C. A. Hand, M. Salingor, J. Sease, F. Muldoon, William Kohn, A. Beck, C. Presly, M. McCormack, B. Nangle, A. Wolf, E. Roberts, W. Freeburn, P. Freeburn, H. Swartzell, H. Johnson, Russell Johnson, Miss Venus Zimmerman, Mr. and Mrs. Thomas Johnson.

**WORKMEN REPAIRING OLD LOCHIEL BLAST FURNACE; MAY BE BLOWN IN SOON**

Workmen to-day began to repair the machinery at the old Lochiel blast furnace, South Harrisburg, owned by the Pennsylvania Steel Company and idle since 1911.

While there is no immediate prospect of blowing in this old stack, which is of only fifty tons capacity, officials to-day said, the furnace is being overhauled so that it may be blown in should the additional pig iron capacity be needed. The five stacks at Steelton are now being operated at capacity and the work on the old furnace is being remedied to increase its capacity, is being pushed.

**WILLIAM STEPHENSON**

William Stephenson, an old resident of Enhart, died at his home last evening from pneumonia. He is survived by his wife, Sara; sons, Harry and William, and daughter, Mrs. Harry Thumma, who is now seriously ill at the Harrisburg Hospital.

Funeral services will be held Friday afternoon at 1:30 o'clock in the United Brethren Church at Oberlin. The Rev. Mr. Keefe officiating. Burial will be made at Oberlin.

**TO STOP BAD COUGH**

SOOTHE DRY, IRRITATED THROAT, WITH PARMINT SYRUP. THIS OLD-FASHIONED COUGH REMEDY IS BEST

We are told that the old-time remedies are best and invariably contain less harmful yet better medicine than those which are in use to-day. This being so, undoubtedly the following old-fashioned recipe which is quick acting while still continuing, has apparently less driving power, while the pressure is being shifted from point to point.

Take 1 tablespoonful of the following ingredients: 1/2 ounce of licorice root, 1/2 ounce of marshmallow root, 1/2 ounce of wild cherry bark, 1/2 ounce of slippery elm bark, 1/2 ounce of mullein root, 1/2 ounce of plantain root, 1/2 ounce of yucca root, 1/2 ounce of ginger root, 1/2 ounce of cinnamon bark, 1/2 ounce of nutmeg, 1/2 ounce of cloves, 1/2 ounce of allspice, 1/2 ounce of mace, 1/2 ounce of cardamom, 1/2 ounce of aniseed, 1/2 ounce of fennel seed, 1/2 ounce of dill seed, 1/2 ounce of caraway seed, 1/2 ounce of coriander seed, 1/2 ounce of cumin seed, 1/2 ounce of flaxseed, 1/2 ounce of linseed, 1/2 ounce of poppy seed, 1/2 ounce of hempseed, 1/2 ounce of sunflower seed, 1/2 ounce of pumpkin seed, 1/2 ounce of sesame seed, 1/2 ounce of almond, 1/2 ounce of walnut, 1/2 ounce of pecan, 1/2 ounce of hazelnut, 1/2 ounce of chestnut, 1/2 ounce of pine nut, 1/2 ounce of macadamia nut, 1/2 ounce of brazil nut, 1/2 ounce of cashew nut, 1/2 ounce of pistachio nut, 1/2 ounce of walnut, 1/2 ounce of pecan, 1/2 ounce of hazelnut, 1/2 ounce of chestnut, 1/2 ounce of pine nut, 1/2 ounce of macadamia nut, 1/2 ounce of brazil nut, 1/2 ounce of cashew nut, 1/2 ounce of pistachio nut.

**DON'T GO TO BED WITH COLD FEET**

Says: "Often Brings on Attacks of Acute Rheumatism"

An ounce of prevention is worth a pound of cure, and people who are subject to attacks of rheumatism should never go to bed with cold feet. A whole lot is being said about taking salts and effervescent tablets for rheumatism and sciatica, but those who suffer sharp twinges and painful swollen joints need something powerful to overcome their piteous suffering.

Any broad-minded druggist will tell you that one-half teaspoonful of Rheuma taken once a day is driving more rheumatism out of afflicted people than all the salts on earth. Right in this neighborhood H. C. Kennedy and all druggists sell large quantities of it, and it's the simplest and most expensive remedy—about 50 cents a bottle.

**MAID PUSHES AGED VERDUN WOMAN EIGHT MILES IN SNOW ON WHEELBARROW TO SAFETY**

[Continued From First Page]

Paris, Feb. 29.—Reports from Verdun say that twenty-one persons of the civilian population have been killed by shells which fell in the city. A small remnant of the population were still reluctant to leave, but were urged by the authorities to go, and they crowded on open freight cars, used for the handling of artillery, and, exposed to the snow and the cold, aged woman had refused to go, stating that she was resigned to die, but her maid, who herself was 62 years old, pushed her in a wheelbarrow and wheeled her to the trench. The snow and mud to a place of safety.

**ENTICE GERMANS INTO WOODS, THEN FIRE MINE; TREES AND BODIES MIXED**

[Continued From First Page]

"When we saw the Germans coming on. They were in such masses that they looked like a flock of sheep. When our guns began to speak, their empty spaces showed among the gray of the advancing masses, but these were soon filled up by fresh patches of fire. The German troops were coming and when we looked through the periscopes we could only see heavy clouds of smoke shutting out the sky with jets of fire flying in the air. There were about a dozen of us in the trench and we felt the suppressed emotion so much that at last we all burst out singing, and yet none of us could hear a word spoken, even by himself."

"Then we saw the Germans coming on. They were in such masses that they looked like a flock of sheep. When our guns began to speak, their empty spaces showed among the gray of the advancing masses, but these were soon filled up by fresh patches of fire. The German troops were coming and when we looked through the periscopes we could only see heavy clouds of smoke shutting out the sky with jets of fire flying in the air. **COCONUT OIL MAKES A SPLENDID SHAMPOO**

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulified coconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two tea-spoons of coconut oil will cleanse the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulified coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.—Advertisement.

**BOMBARDMENT NORTH OF Verdun Is Continuing With Greater Intensity**

[Continued From First Page]

Paris, Feb. 29.—The bombardment to the north of Verdun is continuing with greater intensity. East of the Meuse last night there was a resumption of violent local attacks. Near the village of Douaumont the fighting came to a hand-to-hand encounter and the Germans were repulsed by French troops.

After intense artillery fire German forces captured the village of Manheulles, but a counterattack brought the French to the western boundary of this location. They now hold Manheulles under their fire.

In Lorain the Germans succeeded in occupying small sections of French trenches, but they were shortly driven out from these positions.

**TO REMOVE ROUGHNESS, CHAPS, FRECKLES, LINES**

If your skin is chapped, rough or harsh, dab a liberal amount of mercurochrome on the face and allow it to remain over night. When you wash off the wax in the morning, fine, flaky, almost invisible particles of cerium come with it. Repeating this daily, the entire outer film skin is soon absorbed, and so gradually, there is no swelling or inconvenience. Even the ugliest complexion yields to this treatment. The underlying skin which forms the new complexion is so fresh and youthful looking you'll marvel at the transformation. It is the only reliable way to actually discard an aged, faded, freckled, blotchy or weather-beaten complexion. One ounce of mercurochrome, procurable at any drug store, is sufficient in most cases.

If wind and cold make you squint and frown, you're bound to cultivate wrinkles and crow's feet. To overcome this, use mercurochrome. It is made by dissolving an ounce of powdered cerium in a half pint witch hazel.—Advertisement.

**HIGH SPIRE**

L. H. Leffler, Heaviest Man in Highspire, Dies

Levi H. Leffler, aged 54, who weighed nearly 300 pounds, died at his home in Highspire, yesterday following a three-week illness from a disease and dropsy. He was a great fisherman.

Mr. Leffler is survived by his wife, one son, Morris, and three daughters, Katharine, Mabel and Carrie. Funeral services will be held Thursday afternoon at 2 o'clock in the Church of God. The Rev. B. L. C. Baer, pastor, will officiate and burial will be made in the Highspire Cemetery.

**ARE MEDICINES LIQUORS?**

A certain class of prejudiced and jealous doctors call patent medicines alcoholic beverages. They will tell you that such and such a medicine contains as much alcohol as a glass of beer or a certain quantity of whiskey; but they do not mention that the beer or whiskey is swallowed at one draught, while only a small quantity of the medicine is taken at one dose. At the same time they will use alcohol quite as freely and many in four or five times as great proportions in their own prescriptions.

Such standard remedies as Lydia E. Pinkham's Vegetable Compound use barely enough alcohol to preserve the root and herb extracts, too little to have injurious effects; and the medicine can be had, if desired, in a non-alcoholic form.—Advertisement.

**EYE SERVICE**

As We See It!

We give service under the most liberal construction of the term. Belsinger service means the spirit of fair dealing, with our patron's comfort ever in mind. A pair of our glasses never fulfills their task until they render entire satisfaction to the wearer.

This is the theory and practice that has pleased thousands of people now wearing glasses made by us. Let us serve you? Then you will know the real meaning of high grade eye service.
