Flowers and Candy For "Jimmy" Lentz, His 37th Birthday

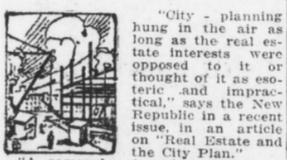

COUNTY RECORDER LENTZ

Deeds, mortgages and other musty old papers didn't occupy the entire attention of the clerical force of the County Recorder's office to-day; flowers—sprays and bunches of roses and carnations—candy, and cigars occupied some of the time of the staff and its chief, James E. Lentz, the County Recorder. For to-day is Mr. Lentz's thirty-seventh birthday and the office force, to say nothing of a host of the county official's friends among the baristers, real estate men, etc., helped make the day a very pleasant occasion for him.

REAL ESTATE CITY PLANNING REALTY FACTOR

New Republic in Recent Issue Deals With Problem of High Buildings

"City-planning hung in the air as long as the real estate interests were opposed to it as esoteric, and impractical," says the New Republic in a recent issue, in an article on "Real Estate and the City Plan."

"A comprehensive city plan is a challenge to the property owner," continues the writer, "and as long as our laws give him protection against the community, organized opposition on his part can defeat such proposals."

"City-planning has taken its place in the great movement towards public control of private enterprise for the purpose, not of strangling private interest, but of increasing its effectiveness."

"Uniformity of purpose in buildings makes for harmony of design. Owners may find, as public taste improves, that ugliness is a nuisance and a factor in the depreciation of values."

TO-DAY'S REALTY TRANSFERS The biggest realty transaction recorded to-day was the recent transfer of a property in Derry township

by Samuel S. Shope to Frank L. Hock, for \$5,950. Other transfers included: A. H. Sadler et al. to Daniel Burbar; Squehanna township; C. Cranford to Jens Clausen; Paxtang; J. Hummel to Sarah Hummel; Susquehanna, John Cook's heirs to Loretta F. Law, 1020 Paxton; D. W. Bollinger to J. Reicher, 1450 Walnut, and G. A. Werner to George M. Spangler, 233 Emerald, all for \$1 each.

TO BUILD BRICK GARAGE Charles Lampas to-day got a permit to build a brick garage in the rear of 330 South Sixteenth street. It will cost \$150.

American Ambassador to Turkey Plans to Send Ship of Food to Palestine

Washington, March 8. — Henry Morgenthau, American ambassador to Turkey, took up at the Navy and State Departments to-day the question of sending a collier with food to sufferers in Palestine. He said a group of men in New York were willing to supply about 900 tons of food.

Americans in schools and other institutions in Constantinople, Mr. Morgenthau said, are well supplied with good at present, but will need more in the fall. He refused to discuss reports that Turkey desired a separate peace.

MORE BANKS OFF THE STATE'S LIST Only Three in Dauphin Shown to Have Had State Deposits on February 1

HEAVY PAYMENTS MADE News of the Day Found About the Departments of the State's Capitol

According to the advertised statement of the deposits of the funds of the Commonwealth of Pennsylvania on February 1, only three banks in Harrisburg had deposits on that date. No banks in the county outside of the city had any deposits, the Mechanicsburg National, had any deposit, and it had \$20,000 of the sinking fund. The printed statement shows 96 inactive depositories for all funds exclusive of the State Compensation Insurance Fund. There are six active depositories. In Dauphin county the Harrisburg and Commonwealth Trust Companies, active, held respectively \$488,629.13 and \$230,175.78 on February 1, but these sums were heavily reduced by payments the latter part of the month and the end of this week. The only other bank in the county to have State money was the Commercial, which showed \$5,000 of the sinking fund.

While the statement showed the general fund to contain \$2,187,269.77, largely because of heavy payments in the last fortnight, the resumption of the work of the Department of the Departments have put a crimp in the cash and the end of March will show it reduced.

NEWS OF STEELTON DIRECTORS OFFER USE OF GROUNDS

School Board Boosts Playground Movement; Sets Commencement Date

Hearty co-operation on the part of the Steelton School Board with the Municipal League and Civic Club and the borough council in the movement to provide an adequate system of playgrounds was assured at a meeting of the board last evening.

The board expressed its willingness to do everything possible to make the movement a success and by a unanimous vote decided to offer the use of school grounds in various parts of the borough for use as playgrounds. Council at Monday's meeting appropriated \$100 for playgrounds work, which assures an auspicious launching of the movement here.

Other matters disposed of by the board last evening included the authorization of appointment of new janitor and the setting of dates for commencement and other spring events.

On the recommendation of the building committee it was decided to employ the extra janitor so that he may be trained to take the place of any of the present janitors when ill or otherwise unavoidably detained from duty. He will alternate at the various buildings, familiarizing himself with the work at each.

It was decided to hold transfer exercises on Friday, May 26; commencement, Thursday, June 1, and the alumni banquet, Friday, June 2. Other routine business was disposed of.

BE PREPARED TO FIGHT

Nature is always fighting to keep us well. Under normal conditions the forces of health within our bodies keep the disease germs in subjection. They are not expelled entirely but they are kept harmless.

Some indiscretion in diet and the digestion is upset; overwork or worry perhaps disturbs the nervous system, the blood gets thin and the ever-present disease germs assert themselves. The blood fights the body's battles. Whenever a wound is received, whenever there is congestion or inflammation, to that point the blood quickly carries the elements needed for repair—if it has them. But when the blood is thin and watery it lacks these elements itself.

Dr. Williams' Pink Pills are a tonic that supplies the blood with the elements needed to build up the tissues, to repair waste, to revitalize nerves, to stimulate digestive action, to burn up the poisons in the blood. In this way, by building up the blood, they are useful in rheumatism, neuralgia, sciatica, lumbago, neurasthenia, nervousness, St. Vitus' dance, and in anemia in many forms.

The free book, "Building Up the Blood" tells all about the treatment. Send for copy today to the Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire elementary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.—Advertisement.

KEEP URIC ACID OUT OF JOINTS

Tells Rheumatism Sufferers to Eat Less Meat and Take Salts.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water.

Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid, which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate uric acid, which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent, lithia-water drink which helps overcome uric acid and is beneficial to your kidneys as well.—Adv.
