EAT IT! ENJOY IT! NO INDIGESTION OR BAD STOMACH

Never any sour, gassy or acid stomach, heartburn or dyspepsia.

"Pape's Diapepsin" makes weak stomachs strong and healthy at once.

You can eat anything your stomach craves without fear of indigestion, acidity or dyspepsia, or that your food will ferment or sour on your stomach if you will take a little Diapepsin occasionally.

Your meals will taste good, and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes belching, dizziness, a feeling of fullness after eating, nausea, indigestion (like a lump of lead in stomach), biliousness, heartburn, water brash, pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used.

Should you at this moment be suffering from indigestion or any stomach disorder, you can get relief within five minutes.—Adv.

THE other day a man said to us, "Great Scott, everybody in Harrisburg must read your Want Ad Page. About a week ago, I had some furniture in the house for which I had no further use and put a Want Ad in the TELEGRAPH to see if I couldn't sell some of it. Well, sir, I could have sold a carload of furniture from that one little Want Ad."

And this man is well known in Harrisburg—his name is withheld on request.

Hundreds of others are taking advantage of these little money-savers. Is your attic or basement overloaded with a lot of useless furniture, an old stove, or perhaps a carpet or two? Turn 'em into cash, the Want Ad way. Just call 4100 and let us help you word your ad. It'll cost but a penny a word. What this other man has done, you can do, with a TELEGRAPH Want Ad.

HIGH SCHOOL GIRL

Run-down, Weak and Nervous—Made Strong by Vinol.

For the benefit of Harrisburg school girls who overwork and get into highly nervous, weak and run-down condition, we publish this letter from Dorris Coppler, of Fort Worth, Texas: "I go to the high school and take music lessons, and became run-down, weak and very nervous, so I could not do anything. I would shake all over and could have screamed at times, and was really unfit to keep on with my studies. Mother purchased a bottle of Vinol for me and within a week I was better, and in two weeks I had gained five pounds and felt fine."

It is the curative, strengthening elements of the true cod liver extract aided by the blood-making, revitalizing effect of peptonate of iron and beef peptonate, contained in Vinol, which made it so successful in building up health and strength and overcoming the nervous condition of Miss Coppler, and we ask every school girl in Harrisburg who is in a like condition to try Vinol, on our guarantee to return their money if it fails to benefit.

Did 2-Weeks-Old "Peep" Lay Little Egg at Dauphin?

Dauphin, Pa., March 27.—One of the most progressive "peeps" ever raised is owned by Miss Julia Shultz, of High street. In fact, this "peep," just two weeks old, has copied after its elders and—has laid an egg. Yes, it is a really, truly egg, a trifle small, perhaps, but nevertheless an egg. It is about three-fourths of an inch long and half an inch thick. The shell is a light shade of brown and the egg was found last Wednesday by Miss Shultz on the pillow which her eleven young chickens are accustomed to occupy.

BREWERS' TRIALS TO START MAY 1

Smaller Companies Said to Be Ready to Open Books to Federal Officers

Pittsburgh, March 27.—The next move in the prosecution of seventy-two brewing companies which are accused of violating the Federal corrupt practices act will be the jury trials, which start on Monday, May 1.

Judge W. H. S. Thomson's refusal at Erie Saturday to meet lawyers for indicted brewing companies to consider smaller fines in return for wholesale pleas of guilty pleased government officials, who believe that the breaking up of organized activities in politics by the breweries is now only a question of time.

Reports continue to come to District Attorney Humes of dissensions among the brewery associations and it is said that several of the smaller companies have offered to throw open their books and help the government prosecute the brewery associations and their officials. United States Attorney Humes is inclined to take all possible advantage of the situation for the government.

For new prosecutions against leaders in the so-called "State liquor ring" the government believes it has laid a good base. Officials of the State and national associations have refused to testify before the Federal grand jury on the plea that to do so might involve them in criminal proceedings. This admission the government considers the most valuable result of the investigation.
