### SUNSHINE PLANS A MOUNTAIN HOME

Roberta Disbrow Lloyd Sunshine Society Takes Up Large Summer Work

At the regular meeting of the Roberta Disbrow Lloyd Sunshine Society yesterday a plan was formed to send many of Harrisburg's crippled, convalescent and sick children to the country. A home has been procured where a number of children can be taken care of at a time, and absolute care, good food, pure air, and clean spring water are assured. Several of the Sunshiners' crippled children have spent summers at this home and always returned fat and rosy-checked. It is situated in Manassas Gap and six miles from the trolley so the children can roam the hills safely. Year coats and fresh bedding and other necessities will be provided by the Sunshine Society, swings and slides will be erected on the grounds and a rainy day play house furnished with games, boxes and toys. The children will have good, plain wholesome food, with an abundance of milk and eggs. They will be taught the proper table manners and the use of tooth brush, soap and water.

There are many children in the city to whom a vacation of two weeks spent in this delightful spot will mean a new lease on life and a happy time to look back upon and to talk about. Special care will be given the crippled children, some of them get along, run around with their rubs and they all get the loving, thoughtful care of a real "mother."

The Sunshine Society has done and is doing many helpful things in the community remembering the sick and shut-ins and spreading cheer abroad, but it is hoped by the members that this Sunshine Summer Home for Children will prove to be one of its best efforts.

Don't you want to help?

"If you've had a kindness shown, Pass it on." "Twas not meant for you alone, Pass it on." Let it travel down the years, Let it try another's sorrows, Till in Heaven the deed appears, Pass it on."

The Rev. Dr. James Fry Bullitt, of Bellevue, spent yesterday in New York City.

Mrs. Roy Galbraith Cox, of 2424 North Second street, has returned from New York City, where she was the guest of Mrs. William Friedman and Mr. and Mrs. Ross David.

## Supremacy in Diamonds

We have been generously complimented on the magnificence and worth of the diamonds loaned by this store and worn by Miss Crawford at the Fashion Show at the Majestic Theater, last week.

Many have said that it is highly creditable for Harrisburg to have a store that handles such beautiful gems, on such an extensive scale. Such expressions please us very much. We have aimed to make Claster's "The Diamond Store." The fifty thousand dollars' worth of gems worn by Miss Crawford represented only a portion of our stock. While she was appearing on the stage resplendent in their magnificence, other diamonds to the value of many more thousands of dollars were on display in our windows and show cases.

The diamonds worn by Miss Crawford, while not notable for size, were remarkable for quality and for the beauty and delicacy of the designs. Each piece was the creation of Mr. J. Mehrlust, of New York, who is conceded to be the foremost designer of diamond jewelry in America, if not in the world.

Mr. Mehrlust designed much of the beautiful diamond jewelry presented to Miss Alice Roosevelt, daughter of President Roosevelt, as wedding gifts. He also designed several beautiful pieces presented to Mrs. Woodrow Wilson.

However, we do not specialize on such high class goods, as dealers, we carry them along with our large assortments. Our immense stock has been selected to meet the requirements of everybody and includes a wonderful variety. We can sell you

### Diamonds From \$5 to \$5,000 Each

Whether you pay \$5 or \$5,000 for diamonds at Clasters you will get the fullest value for your money—more than that, you will get a lower price and a better bargain all 'round.

Handling diamonds in such large quantities gives us big advantages in buying. We buy direct from the importers and get the lowest cash prices. Few, if any firms anywhere get lower prices. We save all middlemen's profits and give our patrons the benefit of the saving. We have a standard of prices, based on small profits and large sales, and in many instances sell for less than many dealers can buy for at wholesale.

There are many grades of diamonds. Size, color, brilliancy, shape, cut, etc., are factors, which largely determine their value.

It requires an expert to be a good judge of prices.

When you come to Claster's you have the benefit of our long experience. We will tell you frankly and truthfully all about any article you may consider purchasing. Our reputation for strict integrity maintained for nearly a quarter of a century is a guarantee that you will be treated fairly.

The thousands of people who have purchased diamonds from us will vouch for our reliability.

It is to your advantage in every way to buy Diamonds here.

### Well Known Remedy Relieves Chronic Case

Important to Dispose of Waste from the Stomach With Regularity.

People frequently attribute to failure of the digestive organs conditions that are primarily due to inactive bowels, and apply remedies that from their very nature are more apt to aggravate than to relieve the disorder.

When the bowels act regularly the stomach is in better shape to perform its allotted tasks and can usually be depended upon. To keep the bowels in condition there is no more effective remedy than the combination of simple laxative herbs known as Dr. Caldwell's Syrup Pepsin which is sold in drug stores for fifty cents a bottle.

Dr. Caldwell has prescribed this remedy in his practice for over a quarter of a century and it is to-day the standard household remedy in thousands of homes. Mr. Thos. DeLoach, with the Department of Interior, Office of Indian Affairs, at Washington, wrote Dr. Caldwell recently that "Dr. Caldwell's Syrup Pepsin is the best laxative I have any knowledge of and the cleaning up guaranteed by its use relieves every organ."

A bottle of Dr. Caldwell's Syrup Pepsin should be on hand in every home for use when needed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Ill.

### WHAT THE SHOPS ARE SHOWING

For formal occasions nothing can excel the trim smartness of patent leather footwear, for it is always correct with any color or kind of afternoon frock or evening dress. The urge for speed has made patent leather pumps an unusual popularity for white spats are especially good-looking with patent leather pumps, and the Gorgas special, complexions, 22-Market street is showing now, a new and most distinctive model, "Advance" in name as well as in design, with high, graceful heel and long beautiful lines, so that it can be most attractively worn with spats, and will be perfectly up-to-date in style for all summer wear. The price of this model is \$4.50.

At the Studebaker Grocery Store, Second street at the crossing of State, beside luscious figs and dates by the pound, they sell figs and dates stuffed with nut goodies, delicious spiced figs, preserved figs with a rich delicious syrup, and figs in jars, baskets and boxes of various sizes and kinds.

### "A Penny Saved"

"A penny saved is a penny made" is a saying we all believe, but just how and where do you figure your savings? Do you realize that the price of a stove, for instance, which will wear out in a year or two, is really twice as dear as the price of a stove which will last almost a lifetime even though the actual price in figures is the same? It is because the Penn Hardware Store, 10 N. Market Square, are so durable and so well constructed that they have gained their splendid reputation and while the price is comparable numerically to many other stoves, it is actually a great deal cheaper since one gets so much more for the money.

### Modes and Money

Style is the one elusive quality which cannot be judged by price, and the millinery shown by Astrich's, Fourth and Market streets are shining examples of this fact. Each hat has a unique and distinctive style of its own, and in spite of the fact that high-priced designers create and fashion these models, the hats are sold for just the value of materials with no added charge for that indefinable French "touch" that makes Astrich hats so desirable. A profuse assemblage of charming styles, both large and small makes selection, especially in the French room, a real pleasure.

### Diamond prices will advance

at an unheard of rate in the next few years, because the war has stopped Diamond mining completely and it will be years before the normal supply can be put on the market. These stones were bought for cash before a sharp advance to dealers and are being sold at very close margin. Each stone is a big bargain now and an A-1 investment. Prices range from \$50 to \$400.
