These figures are net. All returned, unsold and damaged copies deducted.

THURSDAY EVENING APRIL 13

Wealth takes into itself the qualities by which it is won.—HOLLAND.

LOCAL OPTION

GOVERNOR BRUMBAUGH struck the keynote of the local option argument in his speech at the State rally last evening.

This is a Government in which the will of the people rules. The majority is the greatest authority.

Local option is more than a temperance question. It involves the rights of citizenship.

Local option is more than a temperance question. It involves the rights of citizenship.

TELEGRAPH'S PERISCOPE

—Henry Chaplin has just been elevated to the English peerage, but at what we bet his income isn't anything like Charles's.

—The Pennsylvania censors deny they are controlled by the "Rum Ring," which is not strange when it is remembered that the movie makers declare the only effect of the censor is to make the moving picture show dry.

—The colonel having discovered the national bird of Trinidad, it looks as though the national bird of America is about to rediscover the colonel.

—It has been found that 40,000 school children of New York are underfed, but then, what boy ever admits that he is ever overfed?

—"America," we are told in a newspaper dispatch from Amsterdam, "is regarded by many Europeans as having the end of the war," which is a pretty poor way of thanking us for some \$25,000,000 worth of supplies shipped over free for distribution among starving war sufferers.

—Maurer says he didn't, but it certainly did sound a lot like the kind of a noise he occasionally makes.

—Secretary Baker probably will resign soon; he shows entirely too much activity to be in perfect harmony with the "watchful waiting" idea.

—The nominating petitions for the candidates for Republican national delegates-at-large, their alternates, many of the district delegates and their alternates and for the Republican State committee will be filed by both sides in the Republican factional contest on Monday, according to present plans.

"I'M NO UNCLE SAM"

—From the Brooklyn Eagle.

DIXIE GOES AHEAD

Smoke in the Making

By Frederic J. Haskin

TAMPA, FLA.—If you want some inside information about the cigar business, come to Tampa and make a tour of the local factories.

The best cigars are always on top of the box. This is because they are sorted according to symmetry, the most symmetrical always being placed in the top layer.

One of the most comforting things you will discover is that it does not make much difference, so far as the actual quality of the tobacco is concerned, whether you buy your cigars at two or three for a quarter or pay a dollar apiece.

The difference in price is due partly to the difference in size; but needless to say a dollar cigar is not eight times as large as the two for a quarter size.

The real dividing line in quality comes between the shade-grown and the Havana tobacco. All five-cent cigars are of the very small ones, are of shade-grown, which means American tobacco, probably raised in Connecticut.

—A Washington dispatch regarding the Wilkes-Barre post office says: "President Wilson has decided to appoint Lawrence C. Casey, postmaster at Wilkes-Barre, Pa. This became known to-day following a conference of the President, Postmaster General E. M. Roderick and Congressman Wilkes-Barre, brother of the prospective postmaster, who recommended the appointment several months ago.

—The Philadelphia Press to-day says: "Municipal Court Judge Eugene C. Bonnell is scheduled to become the candidate of the Mid Guard faction of the Democratic party for United States Senator. The organizers, under A. Mitchell Palmer and State Committee Chairman Roderick, are in the last stages of their campaign."

—The Philadelphia Record to-day prints some interesting news about Philadelphia delegates. An agreement may be made on City Solicitor Connelly.

—John P. Stouch, Altoona city councilman, and John A. O'Brien, of Johnstown will be delegate candidates in the Nineteenth district.

—Efforts to make an agreement on Republican national delegates in Philadelphia are under way. Some pairs are suggested.

—The Philadelphia Inquirer to-day devotes considerable space to an editorial in commendation of Senator Penrose's Lansing speech. The Washington-Detroit combination is said to have candidates in opposition to him.

—Alderman M. J. Lewis, of Wilkes-Barre, and John C. Bucher, of Bolling Springs, have entered the contest for Congressman-at-large.

—Efforts to make an agreement on Republican national delegates in Philadelphia are under way. Some pairs are suggested.

Evening Chat

Officials of the Harrisburg Railway Company have something on their side when they declare that it is next to impossible to operate express cars out of Harrisburg on the principal suburban lines.

For some time past there has been a disposition among people who live in Middletown, Hummelstown, Linglestown and Rockville, to say nothing of those who live on the lines of the Harrisville and Carlisle roads, to complain of the manner in which people living close to the city or even within its limits crowd into through cars.

They practically turn them into local cars notwithstanding the fact that local cars are operated on the Hummelstown or the Rockville line, for instance, people will jam the people of the suburb crowded to the doors. On the Middletown line cars are sometimes half empty by the time they get through Steelton.

In both these instances there are cars which run into the city and out of it. "But you can't make people see it," they would say, "they are going to the city and back and will stand packed like sardines in the cars."

Another matter that will interest you is the sanitary conditions of cigar making. Even in the best factories, the cigar rollers do not wash their hands before beginning work and many of them frequently rub their fingers while rolling the cigars which you are to put in your mouth.

According to all that science knows in its most practical ways, this ought to make the cigar an ideal carrier of infection. Yet little or no human disease has been traced to them.

Here in the factories all of the employes smoke the freshly-rolled product, while it is still damp, at an amazing rate, and yet not so much as a lip blister is ever found among them.

The fact probably is that tobacco is in its most practical ways, this ought to make the cigar an ideal carrier of infection. Yet little or no human disease has been traced to them.
