Members of the Public Service Commission Planning to Go to Madison Soon

Members of the State Public Service Commission are planning a visit to Madison, Wis., to make some inquiries into the valuation and other methods of the Wisconsin State commission in charge of public utilities. The matter has been under discussion for some time and the visit may be paid in May, when the calendar is cleared of cases listed for disposal. The Pennsylvania commission has been working out its own problems after some observations at Washington, Albany and other cities, but the Wisconsin visit will be the first for extensive investigation at such a distance.

The commission is sitting here to-day to dispose of calendared cases and will sit at Wilkes-Barre to-morrow. The remainder of the week the commissioners will work on cases assigned to them.

Anti-Tobacco Order.—As a result of informal complaints made to the Public Service Commission, a number of street railway systems throughout the State have begun enforcing the rule that lighted cigarettes may not be carried into trolley cars. This is a matter of local regulation, but from complaints made and answers filed thereto it seems that the objection has been lax. In every case complained of the operating company gave notice of intention to enforce the rule.

Will Certify Soon.—Certification of the names for the May primary ballot will be made by the department of the Secretary of the Commonwealth this week, the work of comparison of the having gone on day and night. The names will be certified in alphabetical order.

Heard About Strike.—Governor Brumbaugh was to-day informed of the conditions attending the strike at the Westinghouse works by Sheriff George W. Richards and other Allegheny countymen. The situation was talked over with the visitors by the Governor, Attorney General Brown, and the State Insurance Commissioner, Adjutant General Stewart. The Governor said after the conference that the visitors had come to tell him of the conditions and that they had not asked for his aid.

Appointed Captain.—First Lieutenant Thomas H. Atherton, Jr., Wilkes-Barre, was to-day appointed a captain and assigned to Company A, Ninth Infantry.

Milk Exchange Complains.—The Philadelphia Milk Exchange to-day filed complaint with the Public Service Commission regarding the rates for hauling milk charged by the Philadelphia and Reading Railway Company to Philadelphia from various points as far west as Gettysburg and Harrisburg.

Captain R. C. Williams Guest of Rotary Club.—Captain R. C. Williams, of the United States Army, was guest of honor at the Harrisburg Rotary Club luncheon at the Senate to-day, over which Paul A. J. Atkinson, of the New York Rotary Club, interested in boys' welfare work on the relation of the boy to the community.

Annual Egg Rolling Held on White House Grounds.—Washington, April 24. — The annual Easter egg rolling, an event looked forward to with keenest interest by the children of Washington, was held on the White House grounds to-day. NERVOUS BREAKDOWN

Stamford, Conn., Nurse Tells How She Found Relief

Stamford, Conn. — "I am a nurse and suffered from a nervous breakdown for several years. I could not sleep at night, and nothing seemed to help me. By chance I heard of Vinol, and after taking the first bottle I noticed an improvement, and four bottles made me well and strong. It gave me a hearty appetite, so I can sleep soundly night or day. I consider Vinol a wonderful tonic." Edith R. Forbes, Stamford, Conn.

The reason Vinol is so successful in overcoming such conditions is because it is a constitutional remedy and goes to the seat of the trouble. It is the greatest strength creator we know of to the extractive medicinal elements of fresh cod livers without oil, combined with peptonate of iron and beef peptone, all dissolved in a pure medicinal wine.

We have seen so many wonderful recoveries like this right here in Harrisburg caused by Vinol, that we feel perfectly safe in offering to return money in every such case where Vinol fails to benefit.

WILL NOT GIVE EIGHT-HOUR DAY

(Continued from First Page)

of meetings held last week after the employees of a number of shops had demanded an eight-hour day and it had become known that other demands were in preparation. Included in the list are the Westinghouse Electric and Manufacturing Company where approximately 13,000 men are already on strike and the Union Switch and Signal, the Westinghouse Machine and the Westinghouse Air-brake companies where efforts are being made by the electrical strikers to bring the men out.

Deputy Sheriffs Use Clubs to Get Through Mob of Strike Pickets

Pittsburgh, Pa., April 24. — Deputy sheriffs, guarding the plant of the Westinghouse Electric and Manufacturing Company at East Pittsburgh, where 13,000 men are on strike, used their clubs this morning to force a way through the crowds of strike pickets for workmen trying to enter the shops.

The principal fighting was at the Talbot street bridge where the pickets linked hands across the street along which the workmen passed. There were much disorder before the deputies were called, but it was said that between 2,000 and 3,000 men succeeded in getting inside the works. Entrances to the works is by a bridge owned jointly by the electric company and the Pennsylvania Railroad. Threats to dynamite it were heard on the streets, and a strong force of railroad detectives was at once scattered over the structure.

All saloons in the village were closed as the result of a conference

between Burgess A. H. Snyder and the saloonmen, who agreed to keep their places closed until this evening. This precaution was taken as this is payday and some \$700,000 is to be distributed among the workmen.

Machine Co. Men Out.—Strike leaders declared that the trouble had spread to the plant of the Westinghouse Machine Company, and fully one-half of the 3,000 men employed there were not at work. Officers of the company admitted the full force was not in the shops, but said that many had been compelled to go home because not enough had reported to operate all departments.

Sixty Mines Tied Up by Suspension of 24,000 Men, Through Disagreement

Pittsburgh, Pa., April 24. — Work was suspended in more than sixty mines owned by the Pittsburgh Coal Company, employing 24,000 men in this vicinity to-day as a result of the order issued Saturday by President Van Bittner and the executive board of district No. 5, United Mine Workers of America.

The suspension results from a disagreement over the local application of the recent Interstate agreement made in New York allowing miners a five per cent. wage increase.

Militia Guards Manitions Plant as Work Resumes; Strikers Are Still Out

Hastings On Hudson, N. Y., April 24. — With State militia guarding the approaches to the munition-making plant of the National Cordite and Cable Company, the shops re-opened to-day after being closed several days

because of rioting attending the strike of its employees. None of the strikers returned and the plant was operated by the workers, who had remained loyal, assisted by a few new men. No attempt was made by the strikers to interfere with work.

The strikers demand a wage increase of five cents an hour. They have refused a compromise offer by the company of 2 1/2 cents.
