TIED LOOKING WOMEN
Some women always wear a worn, tired look. It is the outward sign of nervousness, neurasthenia perhaps, with its characteristic symptoms of worry, headache and sleeplessness. Overwork, grief, undue excitement, the late hours and nervous strain of a strenuous social season, lack of outdoor exercise, any or all of these may be responsible for the trouble but the most common cause at this season of the year is the grip.

Walter the cause, if you feel the need of more strength, the great non-alcoholic tonic, Dr. Williams' Pink Pills. As the nerves get their nourishment from the blood the treatment must be directed toward building up the blood. Dr. Williams' Pink Pills act directly on the blood and with proper regulation of the diet have proved of the greatest benefit in many cases of neurasthenia. A tendency to anemia, or bloodlessness, shown by most neurasthenic patients, is also corrected by these tonic pills. Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail on receipt of price, 50 cents per box; six boxes \$2.50. Write for the free booklet, "Diseases of the Nervous System" and a diet book. Address: Dr. Williams Medicine Co., Schenectady, N. Y.
