

When Your Crew's Called—

some of these days you're going to find yourself up against it because of defective eyesight. Then, what are you going to do about it?

The sharp particles of whirling dust—the constant rush of driving winds, in nine cases out of 10 eventually cause eye disorders among railroad men. The lives of hundreds depend on YOUR eyesight—can you afford to take a chance?

If your eyes are irritated after your trips, consult an optometrist or an optician with years of successful practice behind him. Such a man is J. S. Belsinger.

WILSON TO SPEAK TO PEACE LEAGUE

Women Ask Him to Call Conference of Neutrals Soon

By Associated Press

Washington, D. C., May 18.—President Wilson to-day accepted an invitation to speak on either Friday or Saturday of next week at a meeting here of the League to Enforce Peace, of which former President Taft is president. The President in speaking to an antipreparedness committee recently suggested that after the war all nations might combine in a league to preserve peace with a common police force.

In celebration of the anniversary of the first Hague conference, representatives of the Women's Peace Party to-day urged President Wilson to take immediate steps to call a conference of neutral nations to make efforts to end the war in Europe. He was told meetings celebrating the first Hague conference which was held in 1899 are being held to-day in many neutral countries.

Mrs. W. Thompson Burch, chairman of the local branch of the Women's Peace Party, and Mrs. Charles Edward Russell and Mrs. John J. White, vice-chairman informed the President they believe the only thing delaying peace in Europe was the belated action of the movement by neutral nations.
