Help Nature to throw off the toxins of a heavy Winter diet by eating **Shredded Wheat Biscuit**, a real whole wheat food that is prepared in a digestible form. Follow Nature's plan — get your strength from a simple, natural food that is thoroughly cooked and easily digested. Try it for breakfast with milk or cream; eat it for luncheon with berries or other fresh fruits; make it your "meat" for the Summer days. Made at Niagara Falls, N. Y.

**OLD GRADUATES AT DICKINSON**

Sermons and Addresses by Prominent Men Who Went Out From College

*Special to the Telegraph*  
Carlisle, Pa., June 5. — With the baccalaureate sermon to the combined classes of the college and school of law, the one hundred and thirty-first annual commencement at Dickinson College, the tenth oldest educational institution in the country, opened yesterday and will continue throughout the first part of the week, closing on Wednesday with the exercises to accompany the presentation of diplomas and degrees.

The sermon yesterday was delivered by Bishop Luther B. Wilson of the class of 1875, resident bishop of the Methodist Episcopal Church in New York City. In the evening, at a joint meeting of the various Christian organizations, an address was made by Bishop William Perry Eveland, resident missionary bishop at Manila, Philippine Islands. He was a graduate of the college in the class of 1892. This afternoon the Class Day exercises were held.

This evening the annual concert by the combined musical clubs will be held to be followed by the Junior Promenade on the campus and a series of fraternity dances and entertainments. For tomorrow the program consists of the annual commencement game with Franklin and Marshall, a presentation of the "Twelfth Night" by the Dickinson College players on the college campus, to be followed by the president's reception. Class reunions and meetings of the governing bodies of the college and school of law will also be held.

The exercises close on Wednesday with the graduation exercises when an address will be delivered by Dr. Francis D. Gamewell of the class of 1881, now located in China. Many alumni are here for the exercises and a series of social gatties including dances, banquets, smokers, and the like will be interspersed among the numbers of the set program.

**GOV. BRUMBAUGH AT GETTYSBURG**

Delivers Baccalaureate Sermon to Graduates of College at Christ Lutheran Church

*Special to the Telegraph*  
Gettysburg, Pa., June 5. — Commencement exercises of Gettysburg College began yesterday morning when Governor Martin G. Brumbaugh preached the baccalaureate sermon to the graduating class, the services being in Christ's Lutheran Church. The seniors, headed by President Granville and Dean Bickle, all in academic garb, marched from the college to the church in a body and occupied the front seats, the church being crowded, with many persons standing, to hear the discourse of Pennsylvania's favorite son. The Governor took as his text the thirty-second verse of the fourth chapter of Luke, "And they were astonished at his doctrine; for his word was with power." The discourse was a strong appeal for the graduates to have a purpose in life and to stand for what they believe to be right and good; that they should speak the truth and stick to what they say, not say one thing one day and something else the next day, but that their life should be consistent both in words and deeds.

In the evening the discourse to the Young Men's Christian Association was delivered by the Rev. Dr. Augustus Pohlman, of Philadelphia.

**Impossible To Get So Much Motor Car Value For The Money**

**WE FIND** this is the attitude of many people who come into our salesroom—before they know anything about the Maxwell.

Not until the Maxwell is shown and demonstrated to them—until they sit in it and examine the finish—until they ride in it—or perhaps not until they drive it themselves, do they realize what a tremendous value is offered in the Maxwell car.

It is not unusual that Maxwell value should not be known to everyone, because it is uncommon to find such a car for a good margin more than the Maxwell price.

The Maxwell stands absolutely alone in a highly competitive field, for the amount of value it offers for the price.

**Appearance**—The lines of the Maxwell are decidedly attractive. There is no break in the contour from the radiator to the back of the car. The fenders are gracefully shaped. All metal parts are enameled or nickel-plated. The upholstery is deep and well-finished. From any angle it is a car that the owner can be proud of.

**Motor**—The engine in the Maxwell car is not equalled by any other four-cylinder engine of its size. And we know of larger and more expensive cars that have less able power plants. The Maxwell engine carries its load through mud and sand or over the steepest grades without a falter.

**Quality**—The materials in the Maxwell car are the best that can be bought and the workmanship that turns them into finished parts is no less excellent. It is only the large production of the Maxwell factories that makes it possible to put such quality of materials and workmanship into a car selling at the Maxwell price.

**Economy**—With its other attractive features, the Maxwell is a most economical car to own. Owners get 22 to 25 miles per gallon of gasoline and 8,000 to 12,000 miles per set of tires. And the car is so durably built that repair expense is negligible.

We are sure you want a car such as we have described the Maxwell to be. If you will give us a few minutes of your time we are sure we can convince you that the Maxwell Car is an exceptional value. Come in today.

**River Is Expected to Crest at 10 Ft. Tonight**

According to Forecaster E. R. De-main, in the local United States Weather Bureau office, the Susquehanna river will probably crest late to-day or to-night at 10 feet and slowly recede to-morrow. Little serious damage will result, it is believed, and if the river does not pass the 10-foot mark the scaffolds and other supports of the Cumberland Valley Railroad bridge, now being completed, are not expected to give way.

Part of the time this morning was spent in strengthening unprotected parts of the network on the second half of the bridge. The rapid rise yesterday, however, caused several hundred dollars' damage and endangered the lives of a number of persons who ventured out on the river in canoes.

Dr. B. M. Garfinkle, resident physician at the Harrisburg Hospital, yesterday swam to shore when his canoe capsized. Two other boys who were canoeing narrowly escaped drowning when their craft overturned.

**Escape TOOTH Troubles**

—by keeping your teeth REALLY CLEAN. "But," you say, "I brush my teeth regularly, yet they decay." Yes, you brush them, but do you REALLY CLEAN them? Tonight, after brushing your teeth, examine them closely. You will likely find an accumulation of tartar on the enamel and bits of food deposit hiding in the crevices.

Decay, as well as the dangerous gum disease called Pyorrhea, usually develops only in the mouth where germ-laden tartar is present. SENRECO, the formula of a dental specialist, keeps the teeth REALLY CLEAN. It embodies specially prepared soluble granules unusually effective in cleaning away food deposits. Moreover, it is particularly destructive to the germ of Pyorrhea.

Go to your dealer today and get a tube of Senreco—keep your teeth REALLY CLEAN and protect yourself against Pyorrhea and decay. Send 4c to Senreco, 304 Walnut St., Cincinnati, Ohio, for liberal-sized trial package.
