

WOMEN'S STOMACH TROUBLES

The Great Woman's Medicine Often Just What Is Needed.

We are so used to thinking of Lydia E. Pinkham's Vegetable Compound as a remedy exclusively for female ills that we are apt to overlook the fact that it is one of the best remedies for disorders of the stomach.

For stomach trouble of women it is especially adapted, as it works in complete harmony with the female organism, since it contains the extracts of the best tonic roots and herbs. It tones up the digestive system, and increases the appetite and strength. Here is what one woman writes showing what this medicine does:—

Newfield, N. Y.—"I am so pleased to say I can recommend Lydia E. Pinkham's Vegetable Compound as an economical and beneficial remedy in most ailments pertaining to women. At least I found it so by only taking two bottles. I had indigestion in a bad form and I am now feeling in the best of health and owe it all to Lydia E. Pinkham's Vegetable Compound."

Mrs. BURN WILLIAMS, R. D. No. 29, Newfield, N. Y.

MONKEYS WEAR GLASSES AND RUIN THEIR EYES

Hospital Experiment of Worldwide Interest

BALTIMORE, MD.—At Johns Hopkins Hospital, they are putting glasses on monkeys for the purpose of upsetting their vision. This will cause a severe eye strain and impaired vision, which in turn affects the thyroid glands and is expected to produce such diseases as nervousness, insomnia, melancholia, irritability, headache, goitre, palpitation of the heart, protruding eyeballs, and mild forms of tubercular affections. You must admit that if glasses on monkeys will cause such conditions, they will do the same on human beings.

Eye-glasses in many cases are unnecessary and even dangerous. Many think because they see well with their glasses that they fit, but this is not always true. Misfit glasses have ruined the eyes of thousands of people, for at times nearly every wearer of glasses wears glasses which do not fit. In the United States alone there are over 200,000 blind people, thousands of whom can trace their misfortune to neglect, as neglect has caused more blindness than any other one thing. You value your eyesight above everything, therefore you should know something about your eyes, and what to do to strengthen and preserve them.

Leading druggists are now authorized to distribute free to those interested, a valuable book pertaining to eyes and eye saving, entitled "How to Get Rid of Eye Troubles." This book should be in every home. It tells of a highly efficacious home remedy, which has enabled many to strengthen their eyesight 50 per cent. in one week's time, and so doing they are able to discard their glasses. Through its use, many others have avoided the necessity of resorting to these eye doctors who are a wear of glasses and want to get rid of them; if your eyesight is weak and you wish to strengthen it, you should like to test the remedy, go to any drug store and get 5 grain opton tablets. Put one tablet in a quarter glass of water, allow to thoroughly dissolve, and with this refreshing solution, bathe the eyes from three to four times daily.

Everyone, whether they wear glasses or not, will be greatly helped through the method of eye saving which this formula has been published. H. C. Kennedy, of this city, has been kept busy filling it. If you follow this method, your eyes will clear up perceptibly right from the start. It sharpens vision even in old eyes, and its use will tone and strengthen the eye muscles and nerves so they quickly become healthy and strong. You will not come bloodshot eyes and red lids, if you would have good eyesight, and be free from blurring, inflammation, smarting, itching, burning and aching due to eyestrain from overworked eyes. The solution of opton tablets put off until to-morrow, as delays are dangerous and the sooner you take care of your eyes, the better it will be for you.—Advertisement.

To End Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed. Sufferers who could scarcely hear a watch tick tell how they have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you will have been the means of saving some poor sufferer from perhaps total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Parmit (Double Strength), about 75 cents worth. Take this home and add to it 1/2 pint of hot water and 4 oz. of granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

Parmit is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, the results it gives are nearly always quick and effective.

Every person who has catarrh in any form should give this recipe a trial and free themselves from this destructive disease.

BIG BALLET FOR 'KNIGHTS TEMPLAR

Los Angeles Planning Big Entertainment Program For Conclave June 17

Los Angeles, Cal., June 9.—According to the estimates of the transcontinental railroad companies, Los Angeles will be hostess city to 45,000 Knights Templar from all parts of the United States and also from abroad for a week beginning June 17.

The thirty-third triennial conclave of this great Masonic body will be the most important delegate assemblage ever held in the Queen Convention City of the Pacific Coast, bringing here a most representative body of men, leaders in business, professional and social life from all parts of America.

Representatives of the commanderies in Alaska, Hawaii and the Philippines, as well as of the grand lodges of Ireland and Canada, likewise will be present.

The conclave will be made noteworthy from the fact that it will be the centennial gathering of the Templar Order of America. In recognition of this, a special devotional celebration will be held Sunday, June 18, which will be attended by the most distinguished body of Masons ever to assemble in the United States.

In preparation for the conclave, an eight-day program of entertainment has been provided, the most elaborate, probably, in the convention history of Los Angeles. Besides the great Knights Templar parade in which will appear commanderies from California to Maine and from Minnesota to Texas, there will be a dazzling series of electrical pageants and a floral professional in honor of Music, in which will appear thousands of school children. This last will be a production unique to America.

A series of brilliant social affairs will feature conclave week and Shrine auditorium will be the scene of a ballet in honor of the host of visiting Templars.

A wonderful scheme of decorations for conclave week has been adopted by the executive committee of arrangement. The city will be draped in black, white and red, the Masonic colors and welcome to air knights will flash from thousands of electric designs throughout the business section of the city.

Sessions of the grand encampment will be held at Scottish Rite Cathedral and the grand officers for three years, or until the next conclave, will be elected and installed. The executive sessions will be presided over by Lee Stewart Smith, Pittsburgh, acting grand master.

Sidelights on War Lands

It is said that the German Government has made provision whereby young women who were engaged to soldiers killed in action can legally take the name of their deceased fiance and also prefix the title of Frau. This law is to protect the "war babies" and make their births legitimate.

British soldiers discharged as "no longer physically fit for war service" will be granted temporary allowances while their claims for pensions are considered. The rate will be 2s a week for men with dependents; for other men 10s.

Berlin papers report that Count von Schlieffen, a captain in the White Cuirassiers, and his intended bride, Claire Haacker, an operatic singer, shot at one another with pistols, neither desisting to live in accordance with the refusal of the count's parents to consent to their marriage.

Having left a letter to their families expressing their wish to be buried together, the couple simultaneously at a few yards distance. Neither was killed, but the woman was hit in the cheek and the man in the forehead. Both are expected to recover, but the officer remains blind.

Dr. Barthe de Sandfort, a French surgeon, has perfected a treatment for the burns inflicted by the new boiling tar shells of the Germans. The cure sounds as painful as the wound. The patient's burns are sprayed first with sterilized water and then with almost boiling paraffin wax. Next day the wax is peeled off like a glove and a new layer is sprayed on. In from two to eight weeks an entirely new skin takes the place of the burned and destroyed tissues.

London letter in Manchester Guardian: "There are Bohemian cafes and restaurants in the heart of London where young men are persuaded to be conscientious objectors by enthusiastic women who feel and think dangerously. Such young men are talked to and flattered by fiery-eyed females until they more than half believe in the German as being more truly a brother than in the man in khaki. True courage, they are assured, lies not in fighting for their country—a poor thing not worth the sacrifice of a drop of young blood—but in refusing to fight; true nobility does not kill, but cherishes and preserves its young men with the glorious possibilities of youth still before them. And so on, and so on. Most of the young men capable of being influenced by this stuff are dreamy poetic creatures, actors and artists without much backbone.

On the crown of Dolis Hill Park, one of London's "hubs," there is a small mansion with an old-fashioned walled garden and a charming bowling green. Back in the eighties this was used as a summer residence by the Marquis of Aberdeen. Gladstone was then an old man, who needed an occasional quiet retreat as near as possible to Downing Street, and as he was an intimate friend of the Aberdeens, the house was placed freely at his disposal. In 1897, Lord Aberdeen gave up Dolis Hill House, and it passed into the possession of the late Sir Hugh Gibson Reid, a newspaper proprietor. One summer the house was occupied by Mark Twain. It is now used as a war hospital.

YOUR DAUGHTER'S CONFIDENCE.

The best way to shut a girl's mouth, when she comes to you with confidences about her lover, is to show that you are disturbed or offended by what she tells, says a writer in Farm and Home.

The very fact that she has told you is a thing to give thanks to God for, for it gives you a notion of what you must prepare to combat. If you object to what she has told you, convey your objections indirectly, make her condemn herself or him from her own mouth, call her own common sense into play, teach her to think for herself in this, as in other matters.

A hasty outbreak may cost you her confidence forever and a day. Patience and tact, and tender, everlasting love will do for you and her what no amount of storming and force could do.

SHOT SEVEN WEASELS. Special to the Telegraph. Blain, Pa., June 9.—Samuel Henry, of Jackson township, shot seven weasels, four of them at one shot, in a board pile. The bounty on weasels is \$1.00 each.

"The Live Store"

To the Man Who Is "On the Fence"

"Always Reliable"

Copyright 1916 The House of Kay Johnson

It's a threadbare old saying, but nevertheless true, especially as regards clothes, that the recollection of quality remains long after the price is forgotten.

There are miles and miles of clothes that depend mainly upon price appeal to find customers and many a man buys a suit built DOWN to a price instead of UP to a standard under the erroneous impression that he is saving money, when as a matter of fact he is more extravagant than the man who overpays for real quality. This is the "Live Store" where they sell

Kuppenheimer Clothes

True Economy avoids cheap goods as carefully as it does exorbitant prices, and steering a middle course arrives eventually at this "Live Store" where only merchandise of known high quality is sold—not at less than it is worth, but the best at the lowest possible price.

Ever Since Webster placed the world's supply of adjectives at the disposal of the public, clothes have all been pretty much alike in the newspapers. If there's any doubt in your mind as to where to go for that Summer Suit the only satisfactory way to settle that question is by personal investigation. Compare our suits with the highest priced garments you can find elsewhere.

Imagine you're from Missouri. Start out in a "show me" frame of mind. And don't buy anything, anywhere, until you've seen what this "Live Store" has to offer you. We invite comparisons and thrive upon them. Our most loyal and best satisfied customers appreciate the style, quality and price advantages found here, because they've been on both sides of the fence.
