The "Gold-Standard" in Tires. VALUES spring from Conditions that are logical as the Laws of the Universe. The best-intentioned Tire Manufacturer cannot AVOID being heavily handicapped when competing against: 1st—The longest Experience in Mfg. the Product. 2nd—The greatest Leverage on purchasing of Raw Materials at lowest prices, through ability to take largest quantities. 3rd—The lowest Cost of Manufacturing, through largest VOLUME of Output. 4th—The clearly-demonstrated INTENTION to give Consumers and Dealers the full benefit of the large ECONOMIES resulting from possession of three Cardinal Advantages above defined. PLACE behind this set of Conditions a 47-year Record for Dependability. — Good-faith, — Initiative, — and you have a Summary which fits no other Tire Mfg. Concern in the American field, than the B. F. Goodrich Co., which is: 1st—The largest Rubber Factory in the world. 2nd—With a 47-year Experience in Rubber-Working. 3rd—With a raw-material Purchasing-Power indicated by the 130,000,000 pounds of Rubber Goods made, and marketed, during its latest fiscal year. 4th—With the Manufacture and Sale, during its latest fiscal year, of 50% MORE Motor-Car and Truck Tires combined, than were produced and sold by the next largest Tire Concern in America. THE Product of such a Tire and Rubber Concern,—when marketed under such conditions,—giving the benefit of such huge Economies to Consumers may well, and logically, be considered — The "GOLD-STANDARD" in Tire Values. Therefore: —When you pay MORE than the Goodrich Fair-List prices here printed, for ANY Fabric Tire, you are merely "contributing" the difference. Because,—You CANNOT get "better" Fabric Tires,—at ANY price! Test them thoroughly,—and see! THE B. F. GOODRICH CO. Akron, O. Goodrich "Fair-List" Prices (SAFETY-TREADS) 30 x 3 Ford Sizes \$10.40 30 x 3 1/2 \$13.40 32 x 3 1/2 \$15.45 33 x 4 \$22.00 34 x 4 \$22.40 35 x 4 1/2 \$31.20 36 x 4 1/2 \$31.60 37 x 5 \$37.35 "Black-Tread" TIRES
