NO EMERGENCY SENATE FINDS

President Directly Authorized to Draft Militia Organizations Into Federal Service

Washington, D. C., June 27. — Emaculated and amended, the Senate last night passed the Hay joint resolution of the House authorizing the President to draft members of the National Guard into the militia service of the United States.

Two important provisions of the original measure over which the House fought are eliminated from the resolution to which the Senate agreed. The Senate struck out the clause which expresses the opinion of Congress that an emergency exists and which was so framed as to place responsibility upon the Senate and House and directly authorizes the President to draft the militia organizations into Federal service.

The word "draft" is defined to include wife, children, dependent mother, father, sisters or brothers under the age of 14 years. The action was taken to-night after the measure had been under consideration by the Senate for seven hours.

Favored War Declaration Senator Sherman, of Illinois, offered an amendment just before the final vote was taken in favor of the resolution a virtual declaration of war against the de facto government of Mexico.

Private advices here to-day said that several hundred men of the force of ten thousand Mexican troops, which have been concentrated at Bustillos, 75 miles west of Chihuahua City for the ostensible purpose of blocking any attempted American advance down the Mexican Northwestern Railway.

SPIRIT OF EIGHTH REGIMENT HIGH "QUITTERS" HAVE TO WALK HOME

Presents of Tobacco From Troopers

[From a Staff Correspondent.] Camp Brumbaugh, Mt. Gretna, Pa., June 27. — The Eighth regiment will send considerable more than the peace strength to the border when the order comes to leave the latter part of the week and will have a husky lot of recruits in camp.

Colonel Finney yesterday promoted Sergeant Major J. Wheeler to first lieutenant and an adjutant to succeed Ralph Crow who was advanced to captain and commissary. Henry Gross, of Company I, who was made a commissary sergeant recently, is detailed to the quartermaster corps along with Lieutenant G. H. Roberts, of the Governor's Troop, to take charge of motor trucks, both being familiar with this line.

The men in charge of the guard are taking steps to provide additional trucks and in a few days motor transport will be on a fine basis, which, it is felt, it has not been. This has been one source of criticism, but trucks are in demand, and cost money.

The men of the Eighth received a number of presents of tobacco and a number of gifts from home has been keeping up to the great satisfaction of everyone. The regiment's property is in fine shape and if the order comes to-day to move instead of having to be able to load and entrain in short order.

In the Governor's Troop the men are looking forward to getting horses. The troop is quartered near the Colebrook, far from the Fourth, but the men are managing to get back and forth for visits.

Compares Present Crisis With German Trouble

Rio Janeiro, June 27. — The keen interest with which Brazil is following the developments of the crisis between the United States and Mexico received a new impetus to-day when the first discussion in the Chamber of Deputies during which an opposition deputy made a bitter attack on the United States.

The discussion was opened by this deputy, who commenting on the last note sent to Mexico by Secretary Lansing, declared he was astonished that the United States should make difficulties in carrying out the obligations of Mexico, while promptly accepting those of Germany in regard to the submarine war.

House One in Lake; Drum Another Out of Camp; Ready to Move

[From a Staff Correspondent.] Camp Brumbaugh, Mt. Gretna, Pa., June 27. — The most unfortunate people in the camp are those who refuse to sign enlistment papers. A number of guardsmen who refused to take the oath yesterday because of objections of one kind or another were subjected to some pretty rough treatment, although in other instances the reasons which impelled the militiamen to decline to go further were respected.
