

### Summer Complaint?

Yes, it's inflammation of the delicate membranes lining the bowels. The food you have eaten has fermented, made the membranes sore, and they get worse with every meal.

**Improve Your Digestion  
Clear Up Inflammation**

When your system is in shape again, you will not be subject to such attacks. Peruna aids digestion, corrects acidity, and allays inflammation of the membranes. These three will remove your trouble, let you eat with comfort, and restore your strength.

The verdict of the users is the best proof. We have thousands of grateful letters from sick people made well. Profit by their experience.

Liquid or tablet form—whichever is more convenient.

The Peruna Company, Columbus, Ohio

## UNISON KEYNOTE OF PLATTSBURG

Every Rookie Does Same Thing  
at Same Time; Little  
Time For Rest

Military Instruction Camp, Plattsburg, N. Y., July 16, 1916. Reveille at 5:45, early morning mess at 6:30, drilling with 40-pound packs and Springfield late model rifles from 7:20 to 11:30, and mess at 12, is, for the present, the morning program of the heterogeneous agglomeration of business and professional men who constitute the Sixth and Seventh regiments of the camp. In the afternoon there is more drilling. In fact, the men practically eat and sleep by drills. The exaggerated opinion is even held by some rookies that they brush the teeth (when there is time), blow the nose, et al, in unison and in response to a command.

Of course, mess formation is the one formation to which none is late. Mobilization at the hours of 6:30 a. m., 12 noon and 6 p. m. is speedy. Each company marches on "columns of twos" to their own "mess shack" and takes seats at the captain's command, given in a loud and emphatic tone, "Sit down!"

It is etiquette for the company to stop eating if a regular army officer enters; each individual becomes transfixed. One gulps convulsively; another closes his teeth over a sour pickle and arrests his chewing; another in his excitement spreads butter on his neighbor's hand instead of his own bread prior to "attention." Every salute is done with snap and precision.

It is really remarkable what progress has been made among men who have never before seen an army rifle or heard or obeyed the call to "fall in." And so far there has been no misinterpretation of the command, despite the fact that Lake Champlain is just beyond the company straits of our regiment.

The work is strenuous, but not too much so. The softness of the rookie is not into consideration and the hardening process is gradual but firm. Sturdy old men with gray and even white hair obey the commands of youngsters one-third their age but with previous experience of a month or more and do the heaviest work with the best of them. Prominent bankers are ordered about by their office boys and the essence of democracy. Only one exhaustion case has occurred, and it was but temporary.

Each company is in charge of a first lieutenant of the regular army. The under-officers and non-commissioned officers are taken from the experienced men in the ranks. Including the students' camp, there are four regiments here at Plattsburg for the present month, each regiment composed of three battalions of four companies each, or forty-eight companies in all. When one knows that there are between 100 and 150 men in each company, the total number of rookies may be estimated. And there are nearly 1,000 coast artillerymen camped here also.

The nights are extremely cold and the delicate rookie is not warm enough with two blankets. The days are warm, but not uncomfortably so. There has been very little rain.

To the uninitiated the apparently unceasing and variegated calling out of commands and blowing of whistles and bugles would seem like pandemonium let loose. The citizen rookie absorbs knowledge like a sponge, however, and learns in a month what it takes the majority of state militia a full three years to acquire, according to General Wood.

A bath is a luxury and a shave a disgrace until things settle down and efficiency reaches a high point, when the soldier gets a little time and has the opportunity of cultivating that which is next to godliness.

Sunday is a day of rest, and he it said that the majority of the 7,000 instructees are ready to observe the occasion when it arrives.

## RIVER NAVY ASKS COUNCIL SUPPORT

[Continued From First Page.]

necessity for properly marked and lighted boat channels, improvement of the islands, etc.

In the Annual Budget That Council appropriate a certain amount each year for the budget to cover the expense of maintaining the "basin" and that at least \$1,000 be appropriated this year for conducting the annual water carnival on Labor Day are the chief requests in the resolution which were referred to the solicitor.

Park Commissioner E. Z. Gross, the treasurer of the newly formed association, asked that the problem be referred to the municipality's legal adviser. A report is expected by next Tuesday's meeting.

The Councilmen's Views Councilmen generally, in the absence of an opinion from Mr. Seitz, questioned whether or not any money could be appropriated this year for a water carnival because of lack of authority in the Clark third class city act. That money might be included, however, in next year's annual budget, is within the bounds of possibility, in the opinion of the councilmen.

Commissioners E. Z. Gross and W. L. Gorgas said if the city could be allowed to appropriate a certain sum each year by incorporating the item into some departmental budget—for instance, the Park Department—as recreational expense, they would favor it. The question of finding the money, however, they pointed out, would have to be threshed out by the budget committee.

For Municipal Boathouse Commissioner W. H. Lynch said he didn't care to commit himself on the project as yet because the matter was new to him. While he doubted whether the city could legally appropriate money for a carnival this year, he said he believed the matter of permanent development could be carried by the annual budget hereafter.

He favors, he said, the construction of municipal boathouse and bathing beaches, if provision for these items be legally possible.

Park Commissioner Gross declared that he will consult personally with Mr. Seitz on the resolution with a view to boosting it in every way that the legal requirements will permit.

Ask Boosters' Endorsement The communication which accompanied the resolution this morning contained the signatures of all the water enthusiasts who attended last evening's meeting. The measure had been adopted a short time ago by the aquatic sports committee and was heartily endorsed following the permanent organization.

Prior to adjourning to meet next Monday evening the assembled boatmen adopted a resolution asking the co-operation of the Chamber of Commerce, the Municipal League, the Rotary Club, the Civic Club of Harrisburg, the Jovian League, the Engineers' Society and kindred booster organizations.

The Boatmen Organize The first steps toward effecting a permanent organization of the canoeists, motorboat men and other aquatic sportsmen to make the Susquehanna "basin" their rendezvous were taken last evening when forty or more enthusiasts met at the Dintaman boat pavilion in the most successful session of the kind ever held in Harrisburg.

Following were the officers elected: President—E. J. Stackpole. First vice-president—A. P. Dintaman. Second vice-president—Harry K. Berrier. Third vice-president—George K. Reist. Treasurer—E. Z. Gross. Secretary—V. Grant Forrer.

Further details will be completed Monday evening, July 24, when the rivermen meet again to select a permanent name, hear reports of committees on membership, permanent name for the annual water carnival, merchants' fees and other problems pertaining to the conducting of the annual water pageant and to the improvement and development of the "basin."

The "Greater Harrisburg Navy" That the river "navy" of "Greater Harrisburg" is assured was indicated by the enthusiasm which every waterman manifested last evening; all sorts of suggestions for the good of the association were made and the working out of the details were left to hustling committees.

The purposes of the organization were stated concisely by George W. Reilly, member of the City Planning Commission, who called the meeting to order, and his remarks were supplemented by ex-Postmaster E. J. Stackpole, who was later elected to the presidency of the association.

Mr. Reilly states Purpose Mr. Reilly is chairman of the aquatic sports committee which was appointed a few weeks ago at the suggestion of the Planning Commission to co-operate with the Park Department in the development and improvement of the Susquehanna basin. The purpose of the gathering, he pointed out, was to start the wheels a-going for a great water spectacle this fall, but to lay the foundation for such an organization as will take the river in all movements that will pertain to making Harrisburg's wonderful water front more wonderful and attractive, if possible.

"To Harrisburg" Mr. Stackpole's talk was along similar lines. He endorsed the points that had been brought out by Mr. Reilly and suggested that the time was never more propitious for concerted action on the part of Harrisburg's "best of river enthusiasts" than at present. "Not only," he said, he should a permanent organization be formed which would give weight to any requests that are made for support of the city authorities, but every effort should be made toward making the coming river carnival a huge success.

"Every year," said Mr. Stackpole, "Harrisburg should have such a spectacle as will make the people for miles and miles 'round look forward with eager expectancy to 'going to Harrisburg for the big time of the river.' And," he concluded, "the 'big time' should be what Tampa, New Orleans, Detroit, Boston and other cities have. Only we want to make Harrisburg's celebration bigger and grander and means lots of hard, earnest work. But if everybody helps—and I know you will—success is certain."

Carnival On Labor Day Labor Day, September 4, was definitely decided upon as the day for the big water spectacle.

The aquatic sports committee, which automatically ceased to exist as such when the new association selected it as the executive committee of the organization, will handle the details of the carnival and act as a finance committee. It was empowered to appoint such subcommittees as it may find necessary.

The "Greater Harrisburg" idea met with general approval, as it was pointed out that many of the towns along the river, including Steelton, Dauphin and "cross-river towns," will want representation. Nothing, it was incidentally pointed out, will prevent other municipalities from as far north as Millersburg, as far as Columbia, as far east as Lebanon, or even Reading, from joining in the "big time" if their water sportsmen so desire.

Fix Initiation Fee The initiation fee was fixed at \$1.

## PLANS THURSDAY FOR HUGHES TRIP

Senatorial Committee Named  
to Watch Campaigns in  
Eleven Close States

Bridgehampton, N. Y., July 18.—Arrangements for the transcontinental trip which Charles E. Hughes expects to take early in August probably will be completed, at least so far as the speaking program is concerned, Thursday, in New York, when Mr. Hughes will confer with the campaign committee. There will be little deviation from the original plan to confine the number of speeches to about a dozen, it was said to-day, but the committee will designate the cities where the nominee will speak and the dates.

William R. Willcox, Republican national chairman, sent out the call to-day for the meeting of the committee on Thursday to confer.

The chairman announced that this meeting would be followed by a meeting of a special senatorial committee which would devote its attention to campaigns in eleven States where senatorial contests are expected to be close. The names of Senators John W. Weeks, of Massachusetts; Reed Smoot, of Utah; Thomas Sterling, of South Dakota; James W. Wadsworth, Jr., of New York; and Charles Curtis, of Kansas, were announced as members of the committee.

## Connolly Backs Up T. R. on Hughes Story

Oyster Bay, N. Y., July 18.—Callers at Sagamore Hill yesterday included C. P. Connolly, a prominent New Jersey Progressive, and John W. McGrath, Colonel Roosevelt's secretary. The Colonel discussed politics in general with his callers and in particular he was informed of the situation as to the Progressive party in New Jersey, where the State committee last Saturday voted to repudiate the national committee endorsement of Justice Hughes.

Mr. Connolly, who was present at the Colonel's interview with J. A. A. Hopkins, where Hughes, according to the latter, was referred to by Roosevelt as a possible "gold brick," telegraphed Colonel Roosevelt yesterday that he had paid particular attention to the whole conversation and that he agreed with the Colonel that no such remark had been made.

The New Jersey man came in person to say that Mr. Hopkins' version of the whole affair, as published in New York newspapers, was absolutely false.

It is believed that the Colonel has been assured by his callers that the State committee's action in New Jersey will not be considered in any way binding by the New Jersey Progressives and that the Republican nominee

## Tell People Truth on Need of Big Navy Is Appeal

Washington, July 18.—In two remarkable speeches in the Senate Senators Borah, Republican, of Idaho, and Lewis, Democrat, of Illinois, urged Congress and the administration to cease dealing in catchy phrases on the preparedness situation and go before the country with the reasons why preparedness is necessary.

Both senators emphasized the fact that the United States was never richer and never weaker than to-day, never more subject to attack.

Both emphasized the fact that among the nations of the world, as a result of the feeling stirred up by the European war, the United States has no real friends.

Both asserted that the only security for this country in the future rests wholly upon its own ability to defend itself against aggression either from Europe or the Orient.

## HIBERNIANS IN SESSION

Boston, Mass., July 18.—Fifteen hundred delegates from all parts of the United States and Canada attended solemn high mass in the Cathedral of the Holy Cross to-day, marking the formal opening of the fiftieth biennial convention of the Ancient Order of Hibernians and the ladies' auxiliary.

Cardinal William F. O'Connell, of this city, presided, with the Rt. Rev. Dennis J. O'Connell, bishop of Richmond, Va., and national chaplain, as celebrant.

## INSTITUTE OF SOCIAL REFORMS TO DECIDE SPANISH STRIKE

Madrid, July 17.—The Northern Railway Company having failed to reply to the government's proposals that the road's differences with its striking employes be submitted to arbitration, the cabinet to-day resolved to submit the whole question of the strike to the Institute of Social Reforms, whose decision, it is announced, will immediately be applied by the government.

## BRAZILIAN MINISTER HERE

New York, July 18.—Dr. Lauro Muller, minister of foreign affairs of Brazil, who arrived here yesterday from Rio Janeiro, intends to go directly to French Lick Springs. He said that in all probability he would go to Washington for a short visit, but that his business there was entirely of a private nature.

## TO GIVE LECTURE

The Rev. H. A. Billman will give an illustrated lecture on Palestine and Syria in the Augsburg Lutheran Church, Fifth and Muench streets, this evening, at 8 o'clock.

# 257% Increase since building New Factory

\$7,462,581.17 to \$25,187,884.33

## Firestone Tires

have grown in public favor faster than any other tires as proved by the unprecedented growth of Firestone Sales.

Firestone quality had developed the enormous business of nearly seven and a half million dollars back in 1910—then we moved into our new factory—America's largest and most efficient Tire plant.

Year by year the demand increased. Year by year the factory was enlarged—according to original plans.

Result, our last fiscal year—August to August—the sales record was over Twenty-Five Million.

And this year, up to June 1, we are 38% over last year. This remarkably rapid and steady growth in demand for Firestone Tires could result only from the Firestone advantage of exclusive quality at volume price.

## REAL ESTATE

Will Build Row of 7  
Modern Homes in West  
End to Cost \$14,000

Permits to erect seven more modern brick dwellings in the upper end of the city were taken out yesterday by Charles F. Copenhaver.

Mr. Copenhaver plans to build a row of dwellings in Sixth street between Mahantongo and Geary streets. They will cost \$2,000 apiece, the permit, one of the largest of the month, calling for a total expenditure of \$14,000.

Work, it is understood, will be started at once.

TO-DAY'S REALTY TRANSFERS Realty transfers included the following in city and county: Samuel Fishman to William Levy, 1821 State street, \$1; Jennie Harris to Martha Wilson, 1539 Berryhill street, \$2,750; Mrs. Elizabeth Smith to Harry A. Early, Susquehanna township, \$800; Richard R. Brown to Millie May, Steelton, \$2,600.
