SCHOOL BEGINS AUGUST 28th

Day and Evening Sessions

The Office Training School, Kaufman Building, 4 S. Market Square, will begin the Fall Term next Monday, August 28th, in both Day School and Night School.

From one hundred and fifty to two hundred young people will discover this year that the management of this school has been talking to them for their advantage. They will enter the school, stay for a few months and acquire the training which will eventually place them in high-salaried office positions.

In the teaching of pupils, it is the aim of the Office Training School to give each pupil such a knowledge of the basic principles of the subject he or she is studying that nervousness cannot be felt in regard to that subject for the simple reason that it is so thoroughly well mastered.

A student drilled on this plan has a wonderful competitive advantage, as probably nine-tenths of positions lost are lost through nervousness not permitting the otherwise successful applicant from making the demonstration he or she should, and of which they are quite capable.—Advertisement.

Lumber Buyers Should Know

something about the value of the different grades.

All lumber looks good when fresh. The real test comes with time.

Will it "check" and "split" when exposed to the weather?

These are some of the things we've studied. Also, let us tell you why No. 1 quality is better than No. 2; No. 2 than No. 3, etc., etc.

Lots of money could be saved by the average lumber buyer if the right kind of wood was selected.

Last of Pennsylvania Guard Soon at Border

State Recruit Rendezvous, Mt. Gretna, Aug. 23.—Plans were perfected by Lieutenant Colonel Harold L. Jackson and Captain Frank Lelsensring, U. S. A., whereby the last units of the Pennsylvania National Guard will do duty on the border.

"Safety of Nation Depends on Efforts of Blue Fleet"

By Associated Press

Washington, D. C., Aug. 23.—Safety of the nation rested theoretically today on success of the fleet commanded by Rear Admiral Helm, which was steaming out into the Atlantic in search of the "enemy" fleet, under Admiral Mayo, bound for American shores with an imaginary army of invasion in thirty transports. It was the second day of a great naval hide-and-go-seek game.

Not the least important aid to the defending fleet was the Navy Department with its means of gathering information of the invaders' whereabouts from merchant vessels at sea.

Bent over their desks in the Bureau of Communications, naval officers who have made special study of codes

worked ceaselessly to solve the riddle of the enemy's code system. They had as material a number of wireless messages transmitted by Admiral Mayo's "red" fleet, picked up by ships of Admiral Helm's "blue" defensive fleet and relayed to the Arlington wireless station.

ATTEND NIGHT SCHOOL

"Out of Work?"

You can earn more money next year if you will make yourself worth more. You can do this by studying the things necessary to qualify you for an advanced position.

You cannot go to school in the daytime, so the next best thing is an evening course.

Take shorthand, typewriting, stenotypy, penmanship, bookkeeping, arithmetic, spelling, or whatever you need to enable you to hold a better place, but take SOMETHING.

Don't stand still.

Don't wait for something to turn up.

Don't get into a rut.

And most important of all, don't put it off.

Begin your course Monday Night, September 4.
