

Arthur Middleton of the Metropolitan, has a voice of bass quality, yet running very high into the baritone, almost to the tenor register. He is one of the many great artists who have demonstrated by actual comparison that Edison's Re-Creation of an artist's work cannot be distinguished from the original. Hear Edison's Re-Creation of Middleton's wonderful voice, then hear Middleton at the Metropolitan when the great bass is on concert tour.

What would your neighbors think of Arthur Middleton?

Suppose he sang for you to-night. Your neighbors would gather at their windows to hear his wonderful bass voice. Edison's new art re-creates Arthur Middleton's magnificent voice with absolute fidelity.

The NEW EDISON

Not alone Middleton, but the voices and instrumental art of all great artists are perfectly re-created by this wonderful new invention. We are licensed by Mr. Edison to demonstrate and sell the New Edison. Come to us and hear examples of this new art.

STEELTON BOROUGH NEEDS MORE PATROLMEN

Businessmen Demand Better Police Protection on Heels of Many Crimes

An increase in the number of serious crimes occurring in the borough recently is causing a renewed clamor for more adequate police protection and prominent business men are frank in expressing their belief that Council should at once take steps to meet the situation.

Within the past few weeks there has been one murder and at least half a dozen minor shootings or cutting affairs, to say nothing of the many brawls and street fights which have ceased to cause much excitement.

The police are frankly admitting that they are unable to give proper protection to the entire borough by simply pointing out that a force of the size of Steelton's can't be expected to patrol the entire borough at anywhere near frequent intervals.

In most towns the ratio of patrolmen is one to every twelve or fifteen hundred of population. If this proportion was followed in Steelton, the local police force would have at least a dozen patrolmen. It actually has four, which with a sergeant and chief complete the force.

There is at present a resolution before Council directing the addition of two more officers. This measure was presented following presentation of a petition signed by practically every business man in North Front street, between Pine and Adams streets, demanding better protection. Just what action will be taken by Council, however, is a matter for conjecture.

STEELTON SNAP SHOTS

Opens New Restaurant.—D. Dunavan, of Reading, has opened a new restaurant at 111 North Front street, which he calls College Inn. Mr. Dunavan, who has been employed in Harrisburg for some time past, has a wide knowledge of the restaurant business and has installed a first-class line.

To Build Bungalow.—Miss Mary H. Gardiner has obtained a permit from Borough Secretary Charles P. Feldt to erect a brick bungalow in South Second street, between Locust and Walnut streets.

Heat Hampers Work.—Extreme heat of the past few days, and particularly yesterday, has somewhat hampered operations at the Bethlehem steel plant. The usual number of heat prostrations was reported and in several departments small gangs of men were sent home early. No department, however, has been placed on any shorter working schedule.

Negro Is Shot.—With a bullet lodged in his right leg, a colored man, colored, went to the Harrisburg Hospital last evening. He declared a fellow employee in an attempt to shoot him in another man. The borough police have no knowledge, they say, of the affair.

National Guard Is Still Preventing Bandit Raids

Washington, Aug. 23.—Belief of the administration that the National Guard on the border still is serving the definite purpose of preventing bandit raids was evident to-day in answers sent by Secretary Baker to persons who had written suggesting that the troops be recalled.

The Secretary referred to hardships caused guardsmen and their families by the enforced stay at the border as a regrettable but necessary accompaniment of the service. He explained also that the concessions asked by the men in fitting the men to act as a second line in war time.
