BELL-1901-UNITED HARRISBURG, MONDAY, SEPTEMBER 11, 1916. FOUNDED 1871

## See a Roll of Unbleached Muslin As It Comes From the Loom

Now on exhibition on our Main floor.

Direct from a Georgian loom, this curio shows the muslin as it emerges from the raw state, in its full width; yet unbleached. Judge its size:

- Stretched out to its full length (950 yards) along Market street, it would reach from Front street to Eleventh.
- 380 full sized sheets can be made from it.
- Stands upright 7 ft., and 7 inches.
- Requires 8 men to lift it.

## Will Be Sold For 28c a Yard

A grade that is used for the finest sheets, and will bleach easily. The muslin is 90 inches wide, and one square will make up into a 90x90-inch (seamless) sheet and will cost only 70c.

Isn't THAT an offer? All orders will be held and cut at one time—delivered to your home. On sale in the Basement.

### G. O. P. WILL WIN MAINE BY 10,000

[Continued From First Page] had not decided on a public service commissioner to succeed Samuel W. Pennypacker and would not name one in any event for some time. He paid a tribute to the former Governor and

said that he would not name a successor so soon after his death. Many State officials visited the Governor to-day. Ex-Mayor Ira W. Stratton, of Reading, mentioned for commissioner, was also a visitor. The Governor was enthusiastic about the first tour of the agricultural regions which starts to-morrow. "I am just back from agricultural regions in other States and I am going

to show the party some splendid country this week. About thirty automobiles will start to-morrow. Mr. and Mrs. Charles I. Corby, of Washington, will be guests of Governor and Mrs. Brumbaugh. Prominent State officials will accompany the party. The itinerary of the first tour will be: Leave Harrisburg, Market Square, Tuesday morning, September 12, eight o'clock, Rockville, Dauphin, Narrows, Clark's Ferry, Amity Hall, New Buffalo, Girty's Notch, Montgomery Ferry, Liverpool, Millerstown, Thompsonstown, Locust Run, Van Dyke, Mexico, Millintown, Lewistown, Narrows, Lewistown, Burnham, Reedsville, Mill, Center Hill and Center Hall. Noon meeting and luncheon at Grange Park.

## Law Should Stop Sale Of Elastic and Spring Trusses

Such Misery-Causing Makeshifts Are the Ruptured Man's Worst Enemies

Depending on elastic or spring trusses like shown above is little less than slow suicide. Such contraptions are almost sure to shorten your life.

It's hard to make them hold, even when drawn so tight that they scarcely give a minute's peace. They are simply a curse to wear. And because they nearly always let their victims get worse all the time, they are yearly forcing thousands of people into risking their lives by undergoing operation. These unscientific makeshifts cause so much misery and such a shameful waste of money that the law should put a stop to their sale. Don't Buy Anything For Rupture Without Giving It a Thorough Test. There's only one reason in the world why you or any one else ever gets saddled up with good-for-nothing makeshifts— It's simply because you trust to a mere try-on or hasty examination instead of first making a thorough test. A truss or so-called "appliance" may seem alright when you first try it on and afterward prove utterly worthless. The only way you can ever make sure of exactly what you are getting is by sixty days' trial—a thorough day-after-day test. And there's only one thing of any kind whatever for rupture that you can get on such a long trial— Only one thing good enough to stand such a long and thorough test— That's our guaranteed rupture holder. Only Thing Good Enough To Stand A 60-Day Test. We'll make you a guaranteed rupture holder—make it to your measure—and let you give it a thorough 60-day test without asking you to risk a cent— If it doesn't keep your rupture from coming out or bothering you in any way, no matter how hard you work or strain—if it doesn't prove every claim we make— then you can send it back and it won't cost you a single penny. See What It Does. This guaranteed rupture holder—the famous Clute—is made on an absolutely new principle. It is far more than just a truss. Instantly and automatically protects you against every strain, so your rup-

ture can't possibly come out. And in addition to constant holding—without which you can never get well or even get better, just as a broken bone can't knit unless constantly held together—in addition to that the Clute provides the only way ever discovered for overcoming the weakness which is the real cause of rupture. Just how it does that—entirely automatically—is explained in the free book which the coupon below will bring you.

Will Save You From Operation. The Clute has such a remarkably strengthening and beneficial effect that it has completely cured hundreds and hundreds of people whose cases seemed almost hopeless. It has so thoroughly proved its merits that many physicians in all parts of the country now recommend it instead of advising operation. No Belts—No Leg-Straps—No Springs. Does away entirely with the curse of belts, leg-straps, and springs. People say it is as comfortable as their clothing. It is water-proof—will hold in the heaviest rain—also perspiration-proof and easily kept clean. Get World's Greatest Rupture Book. There are so many wrong ideas about rupture that we have taken the time to sum up in a book all we have learned during forty years of experience. This remarkable book—cloth-bound, 96 pages—is full of facts never before put in print. It shows why depending on elastic or spring trusses is about the worst thing you can do. It exposes the humbug "appliances," "methods," "plasters," etc. It explains the dangers of operation. And shows you why, if you manage to live through it, you may have to keep on wearing a truss. And it tells all about the famous Clute—how simple it is—how it ends constant expense—how you can test it on sixty days' trial without having to risk a cent. Also gives voluntary endorsements from over 5,000 benefited and cured people. The minute it takes to write for this book may make a big difference in the rest of your life. Don't fail to get it—just use the coupon or simply say in a letter or postal "Send me your book."

## STRIKE TIEUP FACED UP STATE

### May Cut Out All Labor in Wyoming Valley Following Enforcement of Jitney Law

By Associated Press. Wilkes-Barre, Pa., Sept. 11.—Wyoming Valley faces the prospect of a general labor strike as a result of the decree of Mayor John V. Kosek enforcing the jitney ordinance to-day. The action of the mayor has practically ordered all the jitneys from the city streets, after having allowed them to operate without supervision for almost a year because of the strike on the lines of the Wilkes-Barre Railway Company. There was practically no increased traffic on the trolley lines to-day, the great majority of the workers walking to their places of employment.

To Call Out All Labor. The leaders of the Allied Trades Union have called a meeting for Saturday night to advocate calling out all other organized laboring men with a view to forcing city council to repeal what they term the prohibitive jitney ordinance in full or in part. Fearing trouble as a result of the new conditions, the mayor has the city covered with police, State troopers and deputy sheriffs while the sheriff has an extra large force in all sections traversed by trolley lines.

## ALLIES CLOSING IN ON BULGARS

[Continued From First Page]

villages of Nevoljen and Karabladje. At the beginning of the Macedonian operations last month the Bulgarians pushed down rapidly from the border and occupied positions in Greek territory on the right flank of the allied defense line around Saloniki, pushing their advance to the Aegean coast with apparently little opposition. The present British thrust, which may mean the beginning of an important offensive with the object of placing Bulgaria between two fires, is directed along the main road to Seres, north of Thahnos lake, the natural avenue of advance for an army pushing from the Bulgarian border.

Meanwhile the effort to encompass Bulgaria is proceeding on the north with the reported arrival of Russian troops in strong force to take the offensive against the Bulgarians, who have invaded the Rumanian province of Dobruja, occupying large areas and capturing the fortresses of Turkural and Silestria.

German Make Futile Attacks. In Northern France the Germans as a response to the heavy blows which drove back their lines along several miles of the Somme front last week. Yesterday and last night they struck hard at both the French and the British, but according to the content reports were unable to regain any of the lost ground.

In their attacks on the French south of the Somme from Epernay to below Chaunoy the Germans used flaming liquid, assault following assault until five had been delivered. They suffered heavily in these fruitless attempts, declares the British. The British were attacked at Ginchy, the village captured by them last Saturday, but beat off the two advances made by the Germans, as they did also attempts against British positions near Mouquet farm and Pozieres.

## Silistria, Rumanian Fort 60 Miles Below Bucharest, Is Captured by Invaders

London, Sept. 11.—Silistria, one of the line of Rumanian fortresses on the southern bank of the Danube, and 24 miles northeast of Curtukal, which last week had been captured by the German and Bulgarian forces invading Eastern Rumania, Silistria, which figured as an important fortress in earlier campaigns, is sixty miles south-east of Bucharest.

## Constantine Accepts Demand of Allies to Dissolve Reservists League

Athens, Sept. 10. (By London, Sept. 11.)—King Constantine personally has accepted the demand of the entente allies that the Reservists' League, of which he is honorary president, be dissolved.

Athens is virtually under martial law. Patrols of infantry and cavalry parade the streets and the entente sentries are under guard. Fifteen hundred marines have been added to the garrison here on account of the uncertainty in regard to the attitude of the troops. The excitement caused by army defections at Saloniki, however, is dying out.

## 3,375,000 German Casualties So Far, 420,990 in August

London, Sept. 11.—German casualties in the war are being compiled in a compilation here from the German casualty lists, totaled 2,950,000. This brings the total to 3,375,000. These figures include the German nationalities, but do not include the naval and colonial casualties. The figures for the period of the war are: August, 1916—Killed, 452,000; prisoners, 165,000; missing, 234,000; wounded, 2,144,000. Total, 3,375,000.

## S.O.C.I.A.L. [Other Personals on Page 4]

### YOUNG MEN ENTERTAIN PARTY OF GIRLS AT CABIN

Richard Hamer of this city, Norman Helf of Hummelstown, William Jennings, Ross Jennings and William Brown of Duncannon, entertained a party of young ladies over the weekend at their cabin near Losh's Run. They were Miss Mary Willis, of Duncannon; Miss Agnes Hess of Steelton; Miss Ruth Futral of Aqueduct; Miss Helen Cook and Miss Edna Dowdell of this city.

### WILKINS-MARSHALL WEDDING

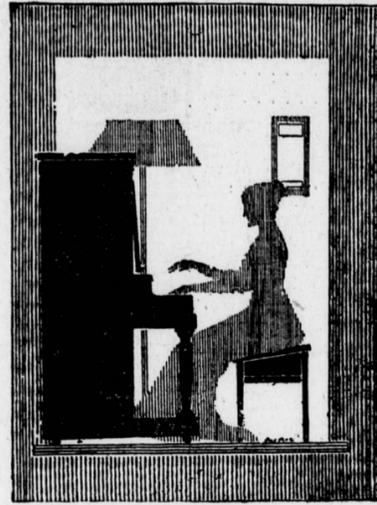

Miss Bernice H. Marshall, daughter of Mrs. J. E. Cashmer, 45 North Sixteenth street, was married at 3 o'clock this afternoon to W. Herbert Wilkins, of Scranton, at the parsonage of the Stevens Memorial Methodist church, 1311 Vernon street. The Rev. Dr. Clayton Albert Smucker, pastor of the church, officiated. After a wedding trip the young couple will reside in Scranton.

### TO ATTEND CONVENTION

Mr. and Mrs. E. R. Eckenrode left Saturday evening for a week-end trip to Niagara Falls, Detroit, Omaha and St. Louis. Mr. Eckenrode will attend the convention of General Agents of the Penn Mutual Life Insurance Company at Detroit, September 12th, 13th and 14th and the National Convention of Life Underwriters of U. S. A. at St. Louis, September 19th, 20th and 21st.

# Bowman's

BELL-1901-UNITED HARRISBURG, MONDAY, SEPTEMBER 11, 1916. FOUNDED 1871

HARDMAN HARRINGTON HENSEL STANDARD PLAYOTONE HARDMAN AUTOTONE

Bowman's Announce That it has taken on the complete line of

## HARDMAN PIANOS AND PLAYER PIANOS

which include the familiar Pianos mentioned above.

—and invites its patrons, and residents of Harrisburg and vicinity to the opening of this new department to-morrow and thereafter; located on the fifth floor.

Hardman Pianos and Player Pianos and the entire line come to our city—with qualifications that have merited recognition throughout a nation—to take their place among the best makes and demonstrate all that is claimed of their superiority.

## PLANNERS FIX FUTURE LINES NORTH OF CITY

[Continued From First Page]

with to-day's work inasmuch as the proposed lines affect only the great stretch of ground extending from Division street northward and from the Susquehanna eastward to the Pennsylvania Railroad, a section beyond the city limit but easily within the three-mile limit of the Planning Commission's jurisdiction.

## Looking Into Future

The plan adopted to-day was prepared by E. Clark Cowden, the Commission having secured his services largely because of his familiarity with the development work in that section. Incidentally, this eliminates the necessity for obtaining the expert advice of ark Expert Warren H. Manning as the laying out of the new lines is largely an engineering problem.

The section east of Second street is to be taken up in time however and as this will involve the laying out future street junctions, the problem will likely have to be submitted to Mr. Manning.

## Section Between Second and Front Streets Was Taken Up at This Time Because It is the easiest end of the problem to solve.

The treatment of the section to the east of the city is considered infinitely more difficult by the Planners because of the diversity of drainage interests which will have to be taken care of in the proper laying out of streets.

## The Plan

The plan as submitted by Mr. Cowden to-day, briefly is this: From Division street northward, the line from Front and Second streets is approximately on a line 300 feet east of the line of Front street which had been definitely fixed by the State in constructing the State highway.

Throughout the length of the city practically the 300-foot distance has been adhered to. Riverside's lines or other development lines which have already been laid down, of course, will not be interfered with by the Planning Commission's new plan. Primarily the new lines adopted to-day relate to future developments. By adopting this scheme the owners of future development plots will thus have some definite guide by which to follow with the growth of the city.

It is understood, incidentally that some of the big development plans are awaiting the result of the Planners' ideas on this subject. The Ott tract will be included in this scheme, and it is intended to widen Ott's Lane to a sixty-foot highway can be carried out. Other building developments that will be effected in this section is the proposed villa which Mrs. Charles Utley is planning to build on a lot purchased from P. G. Diener.

At some points along the line it is expected that there will be turns or "kinks" and that at some points the western line of Second street will not be exactly 90 feet east of the eastern line of Front street. But it is understood that the variation, according to the line adopted to-day will not vary to any considerable extent, certainly not more than a few inches.

The Planners incidentally returned to Council the plans for the proposed Walnut street bridge which had been asked for by the city commissioners last week. Council therefore will get the plans at its meeting to-morrow.

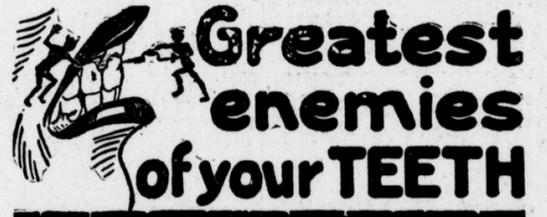

## EX-SOLDIER THROWS BOMB IN GLASGOW; KILLS TWO

Glasgow, Sept. 11.—James O'Hara, a wounded and discharged soldier, learned the art of bomb throwing at the front, and grew callous in regard to the results. Yesterday a crowd of men and women in the rear of his tent became noisy. O'Hara asked for quiet, and when he received a derisive reply hurled a grenade into

the crowd. One man and a girl of nine years were killed and a dozen other persons were injured. When O'Hara was arrested it was discovered that he had in his possession a quantity of ammunition.

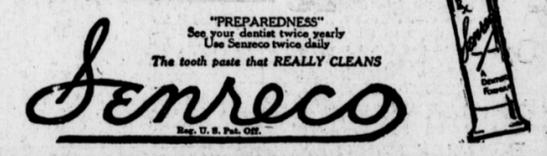

## ITALIANS PLAN BLACKLIST

Paris, Sept. 11.—The Italian government has decided to adopt a blacklist system in principle according to a Rome dispatch to the Matin.

# Greatest enemies of your TEETH

—are Pyorrhea and decay. Senreco, the formula of a dental specialist, REALLY CLEANS. It embodies specially prepared, soluble granules unusually effective in cleaning away food deposits. Moreover, it is particularly destructive to the germ of Pyorrhea. Go to your dealer today and get a tube of Senreco—keep your teeth REALLY CLEAN and protect yourself against Pyorrhea and decay. Send 4c to Senreco, 304 Walnut Street, Cincinnati, Ohio, for trial package.

"PREPAREDNESS" See your dentist twice yearly Use Senreco twice daily The tooth paste that REALLY CLEANS

## AN INSPECTION OF THE Toledo Springless Scale

at the Manufacturers' Exhibit of Weighing and Measuring Devices will show why the Toledo excels in quality and durability. Exhibit opens to-morrow.

TOLEDO SCALE CO., 206 Walnut Street Harrisburg Office—313 Telegraph Building

## Don't Let This Opportunity Pass

### Have Your House Wired FREE

Fill the attached coupon at once

Date ..... Harrisburg Light & Power Co., Harrisburg, Pa. Gentlemen: Desiring to modernize our house we will take this opportunity to have Electric Lights installed at No. .... street. Please have salesman call on Sept. .... Yours truly, Name .....

## Don't be discouraged

My face was even worse than yours till I found that Resinol clears pimply skins. Just wash your face with Resinol Soap and hot water, dry and apply gently a little Resinol Ointment. Let this stay on for ten minutes, then wash off with more Resinol Soap. In a few days pimples, redness and roughness simply vanish! I know that sounds too good to be true but it is true. Try it and see!

All druggists sell Resinol Ointment and Resinol Soap. For free sample of each, write to Dept. 46-R, Resinol, Baltimore, Md. Use Resinol Soap for baby.
