His arrest while hiding in an outlying village several weeks ago was based on an old state indictment charging him with plotting to dynamite the train that bore Carranza troops through American territory to Agua Prieta, where they decisively defeated Villa. The case was dropped a few days ago and Villa was then held by the immigration board on deportation charges. Lack of evidence officials said, led to his release. PROTEST SHIP SINKING Madrid, via London, Sept. 21. — A strong protest against the destruction of Spanish ships by submarines has been made to the government by the Spanish Shipowners' Association. The association declares that the torpedoing of these ships is "contrary to all principles of international law and the elementary rules of humanity." Every man in Norway is obliged to do forty days' military drill, but this year owing to the scarcity and expensiveness of imported fuel—coal and coke—much labor will be required in the public and private forests for the felling and cutting of timber and it is intended to utilize the services of the soldiers for this purpose and for the cutting of peat. Laborers' wages in the big industrial centers have risen to an abnormal height since the beginning of the European war and consequently men have been attracted from the country districts, so that the new legislation is regarded as a boon by the proprietors of wooded land. The soldier-forsters are to be paid the ordinary wages of country laborers less twenty per cent, and a large proportion of this year's class of soldiers have notified their intention of wielding the axe and the saw instead of the rifle and bayonet. In some quarters it is proposed to extend this scheme and place the recruits to work at railroad building, which is much needed. All the railroads are owned and run by the government and plans have been made for the construction of a main line across the country and a local line along the coast. Delay has been caused by the lack of labor, but it is hoped by means of the new legislation to overcome this.</p>	<p>RELEASE CARGOES Manila, Sept. 21. — The portions of the cargoes of the British steamers Kafue and Aymeric, destined for Manila and which were seized by the British authorities at Hong Kong, have been released. American Flag to Again Fly on Pacific, Report Says
Washington, D. C., Sept. 21.—The turning point in the fortunes of American shipping on the Pacific was marked by the recent purchase of three large ships by the Pacific Mail Steamship Company, "and there is no further danger of the American flag disappearing on the Pacific," a Department of Commerce report announced to-day. It also pointed out that the European war has cut down the total shipping of all nations engaged in transpacific trade from 380,000 gross tons to 280,000. "The United States," the report concludes, "has more merchant vessels under construction than any other country in the world, and while the greater part of this new tonnage is not intended for immediate use on the Pacific, it is probable that sooner or later some of it will be diverted to the far eastern trade. Whether American shipping will fully regain its former standing on the Pacific cannot now be definitely foretold."

Local Empire Clothing Store to Open Friday
J. Adelberg, manager and designer, will open an Empire clothes shop tomorrow at 3 North Market Square, second floor. The store is one of a chain of similar stores conducted by the Empire Company in various parts of the country.
The new shop will be devoted exclusively to the sale of tailored and ready-made clothing. It will be under the direct supervision of Mr. Adelberg, who for the past twenty-four years has been engaged in the designing of clothes. The construction work incidental to the installation of a new front and interior remodeling of the new shop, which has been going on for some time, has been completed, and everything will be in complete readiness for the opening to-morrow.
