HUGHES OPENS OHIO CAMPAIGN

coast. His first speech was scheduled at Omaha, Tuesday evening.

The welcome extended to Mr. Hughes Saturday night at Indianapolis was one of the biggest political demonstrations the State has staged.

While the meetings were in progress the parade continued to wind its way through the streets, and it was late in the night before the excitement had subsided.

In his address Tomlinson Hall Mr. Hughes followed up his attack upon the Administration's Mexican policy in "waging war on Huerta," and made a general assault upon the policies of the Wilson Administration which he again characterized as "an Administration of broken promises."

"I want a splendid patriotic sentiment in this country. America can provide work. America can never be successful if we do not have a splendid patriotic sentiment. We are all Americans whatever race, whatever creed, wherever we come from, whether sprung from old or new blood, and I stand here to say that if we are going to have America of the future realize these great ideals I have been talking about, we have got to enforce our laws, and stand for the world and dignity ourselves."

It is the opinion among the leaders here that the stand taken by Mr. Hughes on the passage of the Adamson eight-hour law will have a great influence upon the campaign.

These leaders are of the opinion that it will be the deciding factor in the Indiana election as well as in Missouri, and that Mr. Hughes will win.
