President Discusses Plans of Combating Effects of N. Y. Tour by Hughes

Long Branch, N. J., Sept. 27.—Samuel Seabury, Democratic candidate for Governor of New York, who came to Shadow Lawn last night, held an early morning conference with President Wilson to-day and then left for

University Training
In Harrisburg

The University of Pennsylvania offers you, in the evenings, in Harrisburg, the identical courses, under the supervision of the same faculty, that are given at the University in Philadelphia.

In your spare time in the evenings, you can secure the training for which you have been longing. Without giving up your position, right here in your own city, you are qualified for more responsibility in business.

Classes held at the Technical High School. Session begins Monday evening, October 9th.

Call at the Chamber of Commerce any evening, except Saturday, and talk with a member of the faculty.

Wharton School of Finance and Commerce

Beautiful Bust and Shoulders

are possible if you will wear a scientifically constructed Ben Jolie Brasieres.

The dragging weight of an unconfined bust so stretches the supporting muscles that the contour of the figure is spoiled. put the bust back where it belongs, prevent the full bust from having the appearance of flatness, eliminate the danger of dragging muscles and confine the flesh of the shoulder giving a graceful line to the entire upper body.

They are the distinct and most serviceable garments imaginable—come in all materials and styles: Cross Back, Hook Front, Surplice, Bandeau, etc. Bonded with "Waloah," the rustless boning—permitting washing without removal.

Have your dealer show you Ben Jolie Brasieres, if not stocked, we will gladly send him, prepaid, samples to show you.

GRADE CROSSING VICTIMS INCREASE
Growing Number of Accidents Subject of Report to Commission

Reporting to the Public Service Commission that during the year ending June 30 last there were 403 accidents at grade crossings in Pennsylvania, by which 161 persons were killed and 257 injured, Investigator of Accidents John P. Dohoney gives it as his opinion that "a complete separation of the grades is the only means of insuring safety to the crossing traveler." He strongly urges a continued enforcement of the commission's adopted policy of doing away with grade crossings as rapidly as possible so that there may be no delay for their elimination altogether.

The report gives the number of grade crossings in Pennsylvania as 11,176, only 1,794, or approximately 15 per cent, in any manner protected. More persons, however, were killed and injured at protected crossings than at unprotected points and 57 per cent of the victims at protected crossings crawled under the gates.

"Whether it be by the carelessness of the traveler or the negligence of the carrier, the fact is that the accidents are increasing," says Mr. Dohoney "and particularly is this the condition with respect to automobiles. During the fiscal year 1914-15, twenty-nine occupants of this class of vehicles were killed and 104 injured; but during the year ending June 30, 1916, fifty-eight were killed and 183 were injured."

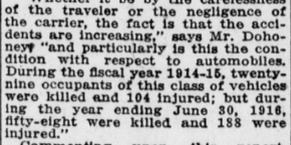

Commenting upon this report, Chairman Alney, of the Commission, to-day gave out this statement: "It will cost \$10,000,000 to complete the work of abolishing the grade crossings in those cases now pending before the Public Service Commission. This does not include the crossing cases from the city of Philadelphia, as, according to the best approximation which the Bureau of Engineering is able to make, abolishing the grade crossings in the city might cost one billion dollars. The law contemplated (Act 1913) that the expense of abolition shall be borne by the municipalities concerned, the railroads and the Commonwealth in such proportions as the commission may consider proper, but as no appropriation has been made to take care of the State's share that feature of the law is in part ineffective. There has been a marked increase of grade crossing accidents. Five hundred and eighteen persons were killed or injured this year as against 353 last year, and the fatalities increased from 104 to 161, of which fifty-eight were in automobiles, thirty-three in wagons and seventy were pedestrians. The carefully prepared report covering the steam railroads, made by the chief of the Bureau of Accidents, John P. Dohoney, shows that out of this number 165 were killed or injured at crossings protected by warning bells, gates or watchmen, and fifty-eight of these were automobilists. Over half the pedestrians killed at protected crossings crawled under the gates. A further disclosure of this report is that the so-called "less dangerous" country road crossings exacted a heavy toll of 111 killed and 183 injured.

"Crossing and crossing accidents on interurban street car lines are not included, but these have, because of the increased speed, increased over them, become a serious problem."

Departments Co-Operate.—J. W. Morgan, deputy fire marshal, was to-day appointed a member of the Industrial Board Committee on approvals, which passes upon the worth of devices for the prevention of accident and fire submitted to the State for approval. The appointment followed a conference between Commissioner of Labor John Price Jackson and Fire Marshal G. Chal Port, who are endeavoring to have their departments co-operate on all points in common. The committee meets to-day to examine a number of the devices named.

Public Service Opinions.—In an opinion handed down to-day the Mountain Water Company of Milton is ordered by the Public Service Commission to continue to supply Edward Weidenhamer, of that place, with water because of the non-payment of a disputed bill. The complainant showed that he was responsible for only half the bill presented, which he paid. The commission ordered dismissed the complaint of Doughten and Son, operating a stone quarry at East Conshohocken against the Philadelphia and Reading and the Pennsylvania Railroad companies. The complainant failed to show evidence of his charge of discrimination in the freight rates.

Bliss Appointed.—Atwood L. Bliss was to-day appointed engineer to assist the director of wharves and docks of Philadelphia, vice Richard A. McFadden, resigned.

MONTH'S BUILDING OPERATION BOOSTED BY ANOTHER \$10,000

Another \$10,000 was added to September's building record to-day when James K. Devins took out a permit to build four two-story brick houses on the east side of Green street 400 feet south of Woodbine street. Each dwelling will be 16 by 45 feet. The row will cost \$10,000.

TO-DAY'S REALTY TRANSFERS

Realty transfers to-day included the following: Augustus B. Seburn to L. Leland Booda, Harris near Wallace street; Esther Frank to J. H. Boher, 206-208 South street, \$1 each; James J. Bonker et al. to George Cromer, 1120 Herr street, \$600; A. E. Brough to James R. Wilson, 1914-16 Bellevue road, \$10.

How to Rid the Skin of Objectionable Hairs

(Aids to Beauty)

A simplified method is here given for the quick removal of hairy or fuzzy growths and rarely is more than one treatment required. Mix a stiff paste with some powdered delatone and water, apply to hairy surface and after 2 or 3 minutes rub off, wash the skin and every hair has fallen out. This simple treatment cannot cause injury but care should be exercised to get real delatone.

LEMOMOYNE MAN IS FOUND DEAD

William Henry Wise, Retired Railroader, Falls Victim of Apoplexy

William Henry Wise, aged 73 years, one of Lemoyne's oldest residents, was found dead in Apple Avenue, near Baum's store in Lemoyne this morning at 5 o'clock. Dr. Deardorf, corner of Cumberland county, after an examination this morning stated that he was taken ill with a stroke of apoplexy and that death was instant.

Mr. Wise left home last evening at 6.30 o'clock. On leaving he was in good health. According to Mrs. Harry Scheffer, Mr. Wise had remarked to her when she passed him shortly before 7 o'clock at the Trinity Lutheran church, a half square from where he was found, that he was not feeling very well, and that he was getting ill and would hurry home.

When Mr. Wise did not make his appearance shortly after 9 o'clock as was his usual hour for retiring, members of the family started a search. He was found this morning at 5 o'clock by his son George. There is no in-

"The Live Store" **"Always Reliable"**

Real or Flash?

Some merchants begin business with a flash --- and oftentimes flounder in their own conceit while the real merchant progresses methodically along until he reaches the goal he has sought to win. That's where originality comes in.

What the public thinks of "Doutrichs," after eight years of square-dealing, honest representation and greater value-giving, was clearly demonstrated on our opening night when thousands of enthusiastic patrons thronged into this magnificent "Live Store" that their loyal patronage has helped us to build.

And each day since our opening we've been busy every minute, or to say it in the language of our customers (why this is the busiest store I've been in.)

You know they're telling the exact truth and you'll have no trouble to find out "who's getting the business" if you just glance into "DOUTRICHS." There must be a real, genuine reason.

MEXICAN ENVOY IS GOING HOME

Arredondo Expected to Clear Up Carranza's View of Border Difficulties

Washington, Sept. 27.—Eliseo Arredondo, the Mexican ambassador designate now on his way to Mexico City is expected by personal conferences to give General Carranza a clearer view of the American view of the difficulties between the two countries, and State Department officials hope he may be able to convince the first chief of the necessity of consenting to full consideration of all issues by the joint commission.

CONFEREES SURPRISED

New London, Conn., Sept. 27.—The Mexican representatives on the joint commission that is seeking a basis for an agreement between this country and Mexico on border-control pressed surprise to-day that the departure of Ambassador-Designate Arredondo for

Mexico City was attributed in some quarters to failure of the commissioners to agree. According to their information, Mr. Arredondo's visit to Mexico will be brief and is not due to the conference of the commissioners. When the commissioners met to-day the consideration of the different plans suggested for a better control of the border was continued.

Be Careful in Using Soap on Your Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain mulsified cocoanut oil, for it is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.
